Reason for Revision

The Group views the degree of usage of each of their services by customers as important management indicators in determining estimations of income and expenses. However, in the rapidly changing environment of the Internet, it is difficult to establish a specific rate of growth or change in these indicators. Accordingly, we limit our performance estimates announced with each quarter report to estimates of performance for the next quarter. The performance estimate for the cumulative period being announced here is based on the Group's business outlook for the second quarter.
