Bob Sikes (Crestview)
 High volume of military training aircraft transiting the Crestview area

MILITARY OPERATING AREA

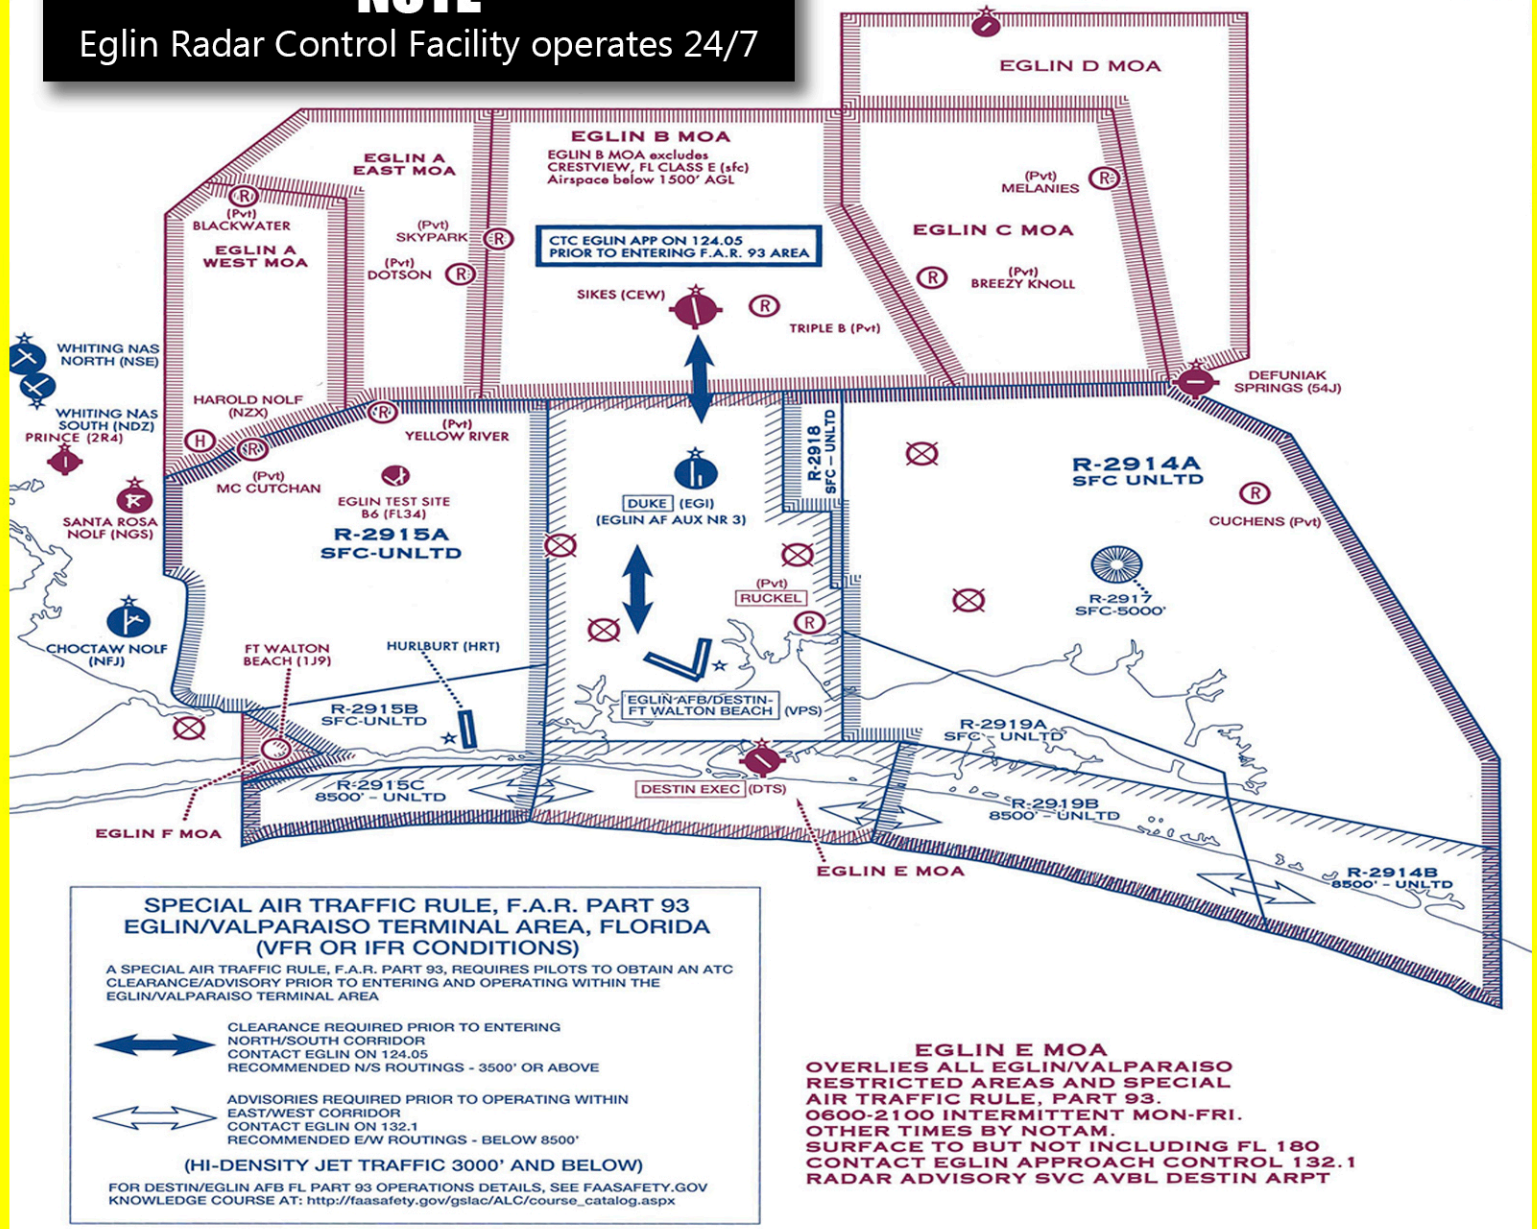

Contact Jacksonville Center
 For MOA Advisories
 120.2/134.3

N-S Corridor
 Must receive clearance from Eglin Approach prior to entering airspace
 (Frequency 132.1, 125.1 or 124.25)
 Note: Encompasses Eglin, Hurlburt, Duke & part of Destin Class D airspace (as high as 2700')

Destin Airport
 Destin Executive Airport Class D airspace is effective during the operating hours of the Destin Executive Airport Control Tower published in the Airport/Facility Directory (0600-2200L). The airspace is incorporated into VPS Class D airspace when the tower is closed. - All aircraft must contact Cinc Del (121.6) for squawk prior to takeoff.
 IFR Departures must hold for IFR release from Eglin Departure
 VFR Departures RWY 14: Maintain VFR S. of coastline at or below 1000' MSL until in contact with Eglin Departure. RWY 32: Execute left downwind departure w/in 1 mile of DER, then maintain VFR S. of coastline at or below 1000' MSL until in contact with Eglin Departure.
 (Eglin Departure Freq 132.1 or 124.25)

NOTE
 Eglin Radar Control Facility operates 24/7

Military departure/arrival routes

E-W Corridor
 Must establish/maintain two-way communication (advisories) with Eglin Approach within the airspace
 (Frequency 132.1 or 124.25)
 NOTE: Eglin, Hurlburt and Destin Class D airspace extends into the corridor
