

COMPANY INFORMATION

Nordcurrent is a developer and publisher of casual games for smartphones, tablets, and PC/Macs. The company was established in 2002 in Vilnius, Lithuania, and currently has an additional development studio in Odesa and Dnipro, Ukraine. Nordcurrent currently employs more than 200 people.

Over 20 years Nordcurrent released more than 50 games for various platforms. The studio's biggest hit till now is ***Cooking Fever*** – a time-management game where players can cook meals from all over the world. The game is available on all mobile platforms and Windows, with almost 250 million downloads and 15 million monthly active users.

Other recent Nordcurrent games include a fully interactive crime novel with amazing gameplay features ***Murder in the Alps***, and the newest super hit - Airplane Chefs! Currently, a game for trendsetters – Pocket Styler, keeps your health happy with the Happy Clinic game. The company has more than a dozen new titles in development.
