

How to create a booking Widget for your MGallery Minisite?

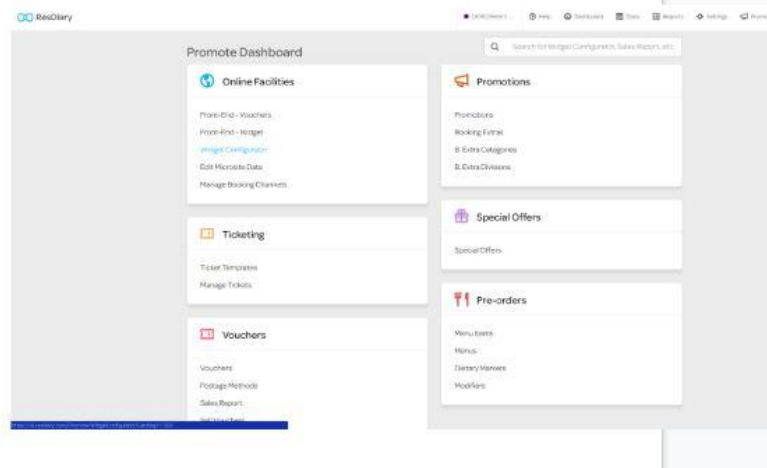

You can see a live example of the final widget [here](#)

NB: All the guide below require a **Manager** access to the diary.

1- Open your diary, go to the **Promote** section

2- Click on **Widget Configurator** in Online Facilities

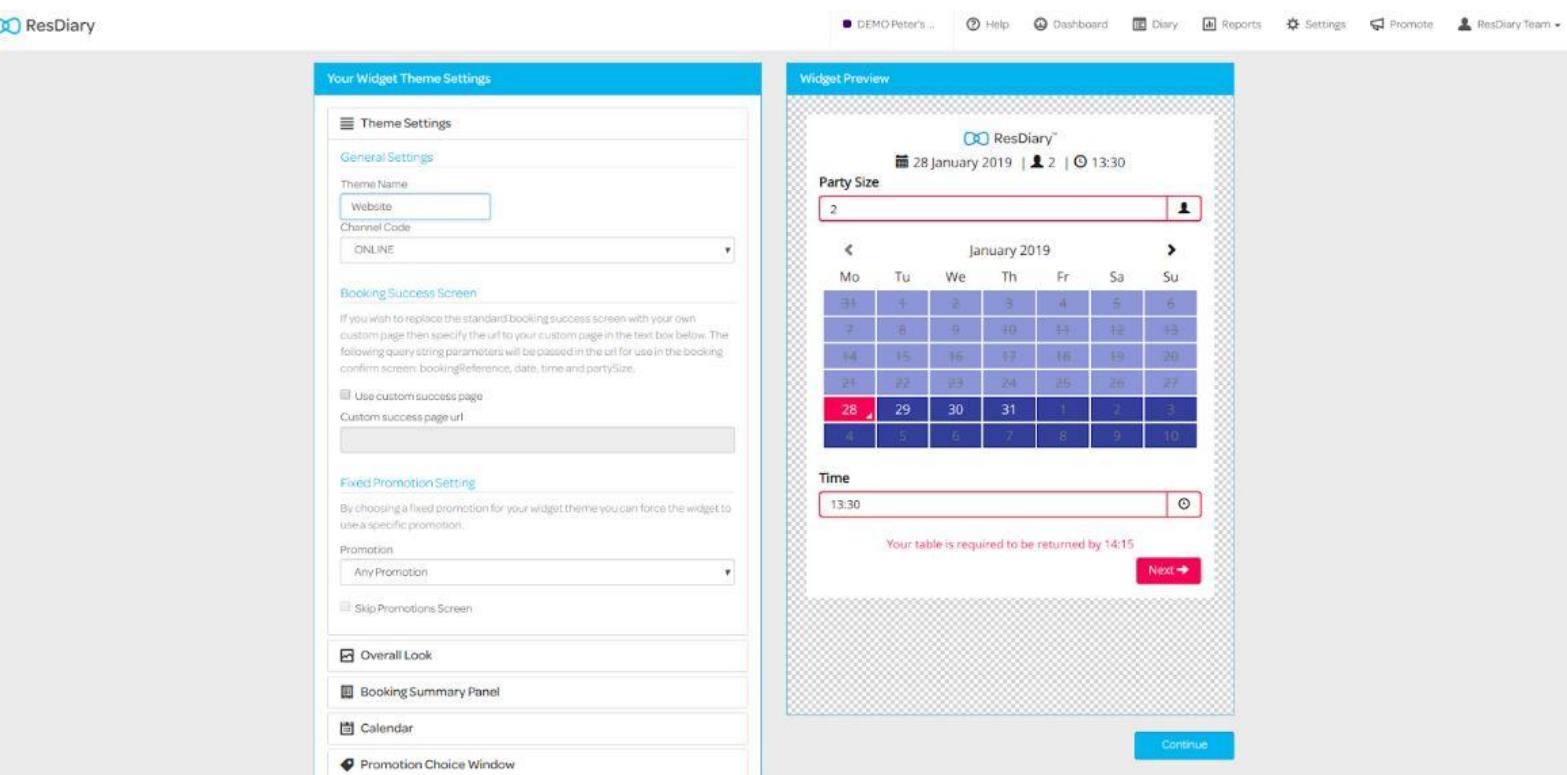

3- Click on **Create New Theme** then Select '**Standard**' widget

4- Rename the New widget '**Website**' to be able to identify it later ; leave the channel to **ONLINE**

5- Edit the ResDiary's widget default template as following :

NB: You can copy and paste the colours codes from this .pdf

In order to respect the graphical charter of your brand please apply the colors mentioned below

Overall look

The screenshot shows the 'Your Widget Theme Settings' panel for 'Overall Look'. It includes sections for 'ResDiary Branding' (with logo selection), 'General' (with background color #f9f9f9, text color #4d4d4d, and table return notice color #be8844), 'Button Appearance' (with button color #be8844 and font color #ffffff), and a list of other settings like 'Booking Summary Panel', 'Calendar', 'Promotion Choice Window', 'Dropdown and Input Boxes', 'Contact Details Settings', and 'Custom Logo'. A 'Widget Preview' on the right shows a calendar for January 2019 with the 28th selected, a party size of 2, and a time of 13:30. A 'Next' button is visible in the preview.

Booking Summary Panel

The screenshot shows the 'Your Widget Theme Settings' panel for 'Booking Summary Panel'. It includes sections for 'Background Colour' (background color #f9f9f9, text color #4d4d4d, and border radius), 'Time Slot Options' (with 'Divide Time Slots by Service' checked), 'Children and Infants Options' (with 'Show Children Option' and 'Show Infants Option' checked), and 'Areas Options' (with 'Allow the diner to specify an area when making a booking' and 'Include an 'Any Area' option in the list of available areas' checked). A 'Widget Preview' on the right shows the same calendar and booking details as the previous screenshot, but with the 'Next' button highlighted in red.

Continue

Dropdown and Input boxes

6. Click on **Continue** and select the **Standard** layout

7. Get the code to embed in the website :

Select the link of the widget as per the red square beside (from https to the end of the 4 digits code, excluding '?')

Copy the link and replace instead of **'widgetwidgetwidget'** in the following code :

```
<iframe src="widgetwidgetwidget"
allowtransparency="true" frameborder="0"
style="width:100%; border:none; max-width:
540px; height: 640px; "></iframe>
```

8. Integration of generated code

Please send the iframe code to fastbooking support team depending on your region

Asia (WebSupport-Asia@fastbooking.net)

North Europe (WebSupport-France@fastbooking.net)

South Europe (WebSupport-italy@fastbooking.net)

OR

Log in to the your back office

-> go to the restaurant page

-> scroll down until you see the Restaurant Booking Form Options

-> Select Resdiary Widget

-> copy/paste the iframe code

Restaurant booking form options ▲

Enable Restaurant Booking form

Select Restaurant form type

ResDiary widget ▼

Resdiary Widget code

```
<iframe src="https://booking.resdiary.com/widget/Standard/SeasonsRestaurant1/6323" allowtransparency="true"
frameborder="0" style="width:100%; border:none; max-width: 540px; height: 640px; "></iframe>
```

Please paste here the HTML code provided by ResDiary. Only the iFrame URL will be taken into account, any other HTML will be ignored.
