

How to create a booking Widget for your Mercure Minisite?

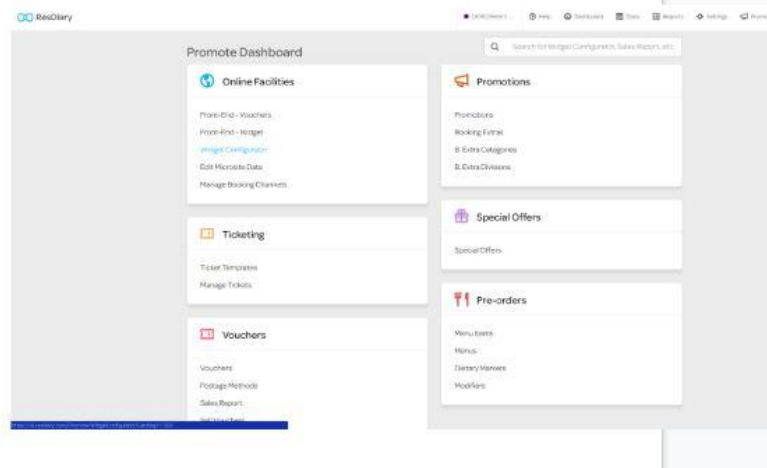

You can see a live example of the final widget [here](#)

NB: All the guide below require a **Manager** access to the diary.

1- Open your diary, go to the **Promote** section

2- Click on **Widget Configurator** in Online Facilities

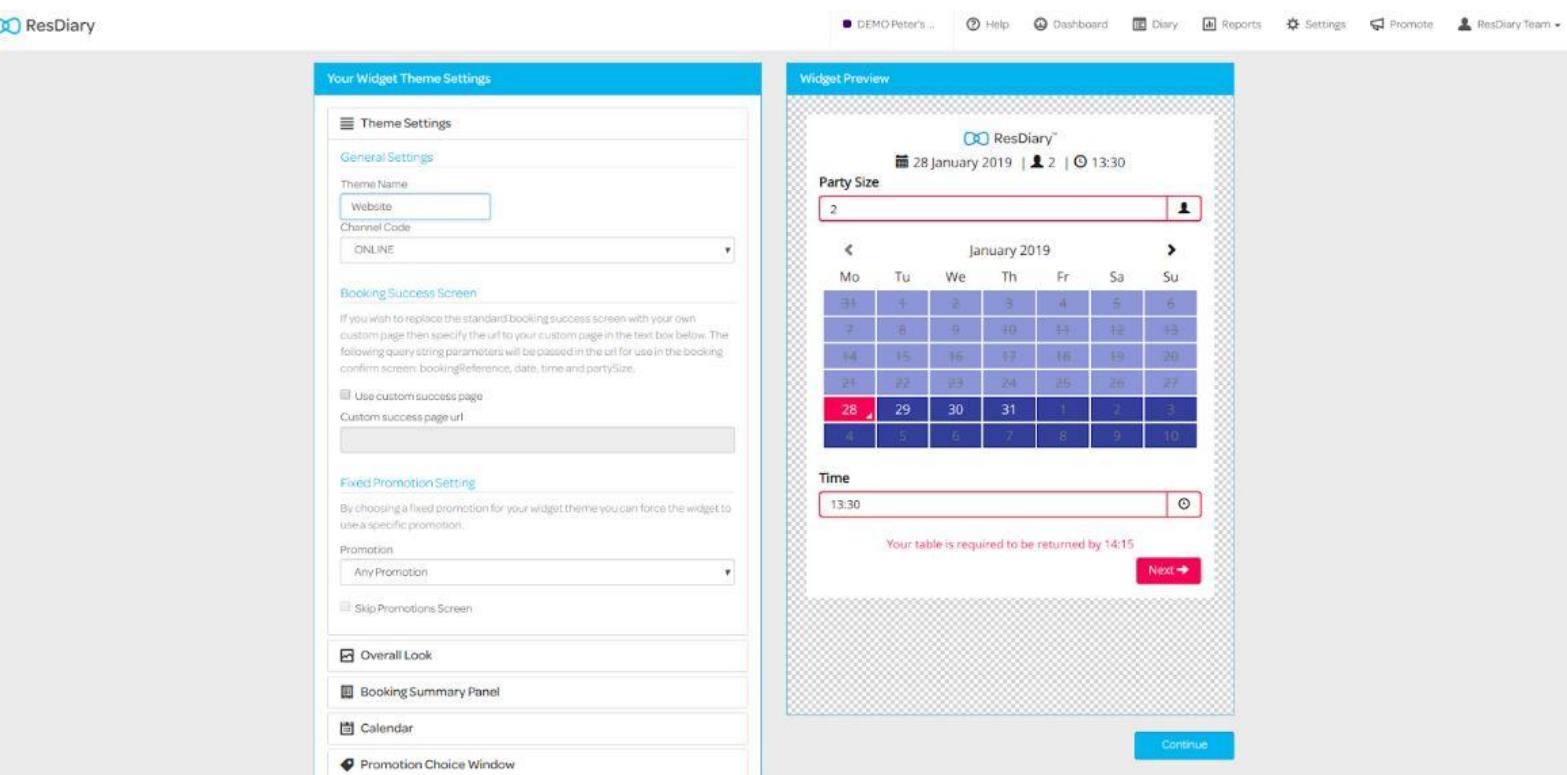

3- Click on **Create New Theme** then Select '**Standard**' widget

4- Rename the New widget '**Website**' to be able to identify it later ; leave the channel to **ONLINE**

5- Edit the ResDiary's widget default template as following :

NB: You can copy and paste the colours codes from this .pdf

How to create a booking Widget for your Mercure Minisite?

In order to respect the graphical charter of your brand please apply the colors mentioned below

Overall look

The screenshot shows the 'Your Widget Theme Settings' interface for the 'Overall Look' section. It includes a 'ResDiary Branding' section with two logo options (light and dark). The 'General' section contains settings for Background Colour (#ffffff), Text Colour (#161616), Table Return Notice Colour (#50057), Border Radius, and Font (Open Sans). The 'Button Appearance' section includes Button Colour (#50057) and Button Font Colour (ffffff). A 'Widget Preview' on the right shows a booking form with a party size of 2, a calendar for January 2019, and a time slot of 13:30. A 'Continue' button is visible at the bottom right.

Booking Summary Panel

The screenshot shows the 'Your Widget Theme Settings' interface for the 'Booking Summary Panel' section. It includes settings for Background Colour (#ffffff), Text Colour (#161616), and Border Radius. The 'Time Slot Options' section includes 'Divide Time Slots by Service'. The 'Children and Infants Options' section includes 'Show Children Option' and 'Show Infants Option'. The 'Areas Options' section includes 'Allow the diner to specify an area when making a booking' and 'Include an 'Any Area' option in the list of available areas'. A 'Widget Preview' on the right shows the same booking form as above. A 'Continue' button is visible at the bottom right.

New Post

Standard Three Months

7. Get the code to embed in the website :

Select the link of the widget as per the red square beside (from https to the end of the 4 digits code, excluding '?')

Copy the link and replace instead of **'widgetwidgetwidget'** in the following code :

```
<iframe src="widgetwidgetwidget"
allowtransparency="true" frameborder="0"
style="width:100%; border:none; max-width:
540px; height: 640px;"></iframe>
```

Export Your Widget

Include jQuery

Note: If you do not include a reference to jQuery and JQueryUi above the widget on your page, the widget will not load correctly.

Copy and paste the code below into your website to use your custom widget

```
<script type="text/javascript" src="https://booking.resdiary.com/bundles/jquery.js"></script>

<script type="text/javascript">
$(function() {
  var widgetFrame = $("#rd-widget-frame");
  widgetFrame.load("https://booking.resdiary.com/widget/Standard/SeasonsRestaurant/6323?include.jquery=false");
})
</script>

<div id="rd-widget-frame" style="max-width: 600px; margin: auto;"></div>
```

8. Integration of generated code

Please send the iframe code to fastbooking support team depending on your region

Asia (WebSupport-Asia@fastbooking.net)

North Europe (WebSupport-France@fastbooking.net)

South Europe (WebSupport-italy@fastbooking.net)

OR

Log in to the your back office

-> go to the restaurant page

-> scroll down until you see the Restaurant Booking Form Options

-> Select Resdiary Widget

-> copy/paste the iframe code

Restaurant booking form options

Enable Restaurant Booking form

Select Restaurant form type

ResDiary widget

Resdiary Widget code

```
<iframe src="https://booking.resdiary.com/widget/Standard/SeasonsRestaurant1/6323" allowtransparency="true"
frameborder="0" style="width:100%; border:none; max-width: 540px; height: 640px; "></iframe>
```

Please paste here the HTML code provided by ResDiary. Only the iFrame URL will be taken into account, any other HTML will be ignored.
