415 **Inter-Customer Premises Optical Fibre Facilities and DS-1 Channels – (Alberta Only – excluding the City of Edmonton)**

ITEM

415.1 **Service Description**

Provides for the lease of one (1) DS-1 channel, and the construction of the underlying direct point-to-point Single-mode optical fibre facilities, between the Customer premises.

The Service includes the provision of 150-Mbps Optical Multiplexers on Customer premises for terminating the optical fibres at either end. The DS-1 connection provides an alternative route to the local accesses at the Calgary end of the Customer's digital private network. The above facilities are used by the Customer in association with the former TCI General Tariff (CRTC 18001) Item 706, Megalink Service and Item 712 Access Special Routing, facilities to diversify the routing of its communications between Calgary and Edmonton.

ITEM

415.2 **Conditions of Service**
