

Setting up the tutorial for Canvas™ 7

1. First create a new illustration document:
File > New > Illustration
2. Next, save the file in Canvas format:
File > Save As > myfile.cnv

3. Next, place the tutorial pdf on the page:
File > Place > tem1cnv.pdf
4. Open the Document layout palette:
Layout > Document Layout

5. Click the Add Layer button once to add a new layer.

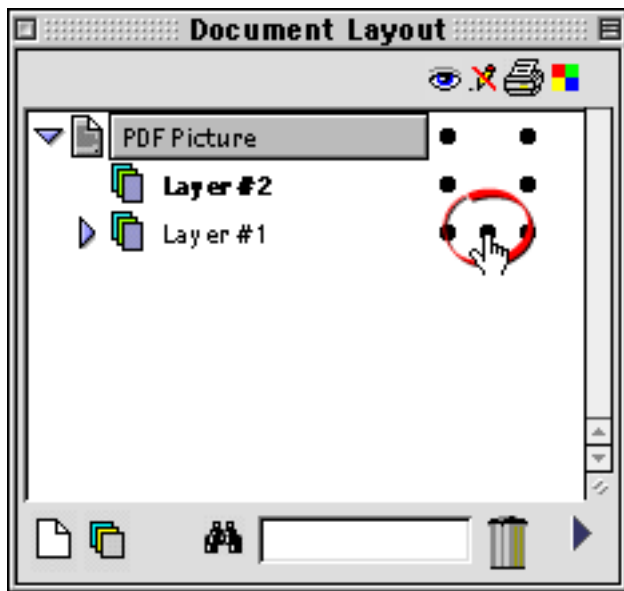

Create a new layer for the current page.

6. Click twirl down (Mac®) or plus sign (Windows®) to expand layers.

7. Place a bullet in the locked column of Layer 1 to prevent editing the layer

8. Click Layer 2 to activate it.

Setting up the tutorial for Canvas™ 5 / 6

1. First create a new illustration document:
File > New > Illustration
2. Next, save the file in Canvas format:
File > Save As > myfile.cnv
3. Next, place the tutorial pdf on the page:
File > Place > tem1cnv.pdf

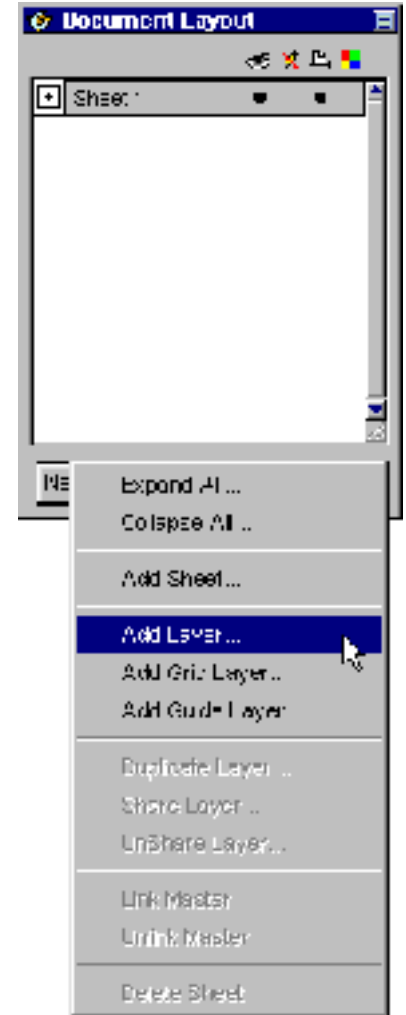

Setting up the tutorial for Canvas™ 6
