

Precious Metal Trading Services for Chemical Catalyst Customers

We offer a full package of products and expertise to enable customers to successfully navigate the precious metals market and manage risk.

Services to meet logistical, financial and price-risk management requirements:

- **Market Insight**
Discuss market trends & hedging strategy with the PGM experts
- **Security of supply**
Diverse sourcing strategy including recycled PGMs
- **Engelhard Industrial Bullion (EIB) Pricing**
Published daily online
- **24 hours a day / 7 days a week**
Worldwide market access
- **Stable & secure presence**
Financial strength and a credit rating better than most banks

Settlement options:

- **Leasing & Bridge Leasing**
Short, medium & long-term including options to cover temporary metal requirements during ongoing manufacturing processes
- **Spot Sales**
Buy or sell precious metals at the prevailing market price for delivery in 2 business days
- **Working Orders**
Ability to leave orders at a targeted price to capture price action in any time zone

BASF also offers a wide range of metal management services:

- **Pool Accounts**
Retain your PGMs in an account securely held by BASF
- **Full Loop Approach**
Trading Services is part of BASF's Full Loop approach with a comprehensive portfolio of precious metals products & service offerings
- **Assay and lab services**
Reputable and recognized assay and lab services with ISO-17025 accredited methods

About Us

BASF's Catalysts division is the world's leading supplier of environmental and process catalysts. The group offers exceptional expertise in the development of technologies that protect the air we breathe, produce the fuels that power our world and ensure efficient production of a wide variety of chemicals, plastics and other products, including advanced battery materials. By leveraging our industry-leading R&D platforms, passion for innovation and deep knowledge of precious and base metals, BASF's Catalysts division develops unique, proprietary solutions that drive customer success.
