

a**DNA fragmentation*****In vivo* cloning and amplification****Cycle sequencing**

3'-... GACTAGATACGAGCGTGA...-5' (template)
 5'-... CTGAT (primer)

**Electrophoresis
(1 read/capillary)****b****DNA fragmentation*****In vitro* adaptor ligation****Generation of polony array****Cyclic array sequencing
($>10^6$ reads/array)**

Cycle 1

Cycle 2

Cycle 3

What is base 1? What is base 2? What is base 3?
