

**Game-play
with MCTS**

The diagram illustrates a cyclical process. On the left is a tablet icon containing the text 'Game-play with MCTS'. An arrow points from this tablet to a second tablet on the right, which contains the text 'DNN Update'. Above the arrow is the text 'Higher-quality Experiences', and below the arrow is the text 'Improved DNN', indicating a positive feedback loop where better experiences lead to a better DNN, which in turn improves the game-play.

**Higher-quality
Experiences**

DNN Update
