

## A. Citation Graph Creation

### B.1 Contrastive Learning

### B.2 Query Reconstruction

## B. Self-supervised Graph Retriever Pre-training

### C.1 Title Generation

**Abstract:** Regulatory T (T reg) cells are critical regulators of immune ...  
**Generate a title for the given abstract.**

### C.2 Abstract Completion

**Abstract:** Regulatory T (T reg) cells are critical regulators of immune ...  
**Complete the given abstract.**

### C.3 Paper Recommendation

**Title:** ... **Abstract:** ...  
**Recommend relevant papers to cite.**

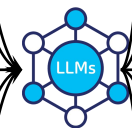

### C.4 Citation Link Prediction

**Paper A:** Title: ... Abstract: ...  
**Paper B:** Title: ... Abstract: ...  
**Predict if Paper A cites Paper B.**

### C.5 Citation Sentence Generation

**Paper A:** Title: ... Abstract: ...  
**Paper B:** Title: ... Abstract: ...  
**Generate the sentences for Paper A that cites Paper B.**

## C. Instruction Tuning on General Tasks

**Title:** 3d printed pharmaceutical systems for ...

**Abstract:**... Finally, we show that .....as a biomarker for human T reg cells.

First paper to cite: ....  
 Second paper to cite: ....  
 Third paper to cite: ....

Yes / No

The first paper on the use of BJ-3DP in pharmaceuticals was published in 1996.

## D. LitFM Inference Pipeline

Query Paper

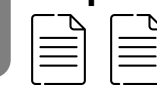

Graph Retriever
