

Operation Identification

Mark your valuables with your Alabama Driver's License
Number: AL_____

Operation Identification is a crime prevention program where identifying numbers are placed on selected valuables for identification purposes in case the property is stolen. By recording information such as make, model, and serial number you will have a much better chance of recovering stolen items since the information can be entered into a nationwide database available to law enforcement. Items that you do not want to mark, such as jewelry, should be photographed in detail. Keep a copy of this list in a safety deposit box, safe, or in a plastic bag in your freezer (it acts as a fire-resistant container).

Item	Make/Model/Size/Color	Serial #	Purchase Date	Price
TV/Radio/VCR				
Computer Equipment				
Cameras/Photo/Equipment				
Power Tools				
Golf Carts/Equipment				
Musical Instruments				
Fishing Equipment				
Guns
