1 Overview

REFSQ 2018 encouraged researchers and practitioners from the research fields covered by the conference to submit posters and tool demonstrations. This REFSQ track aims to provide a forum for presenting recent work and obtaining early feedback on ongoing research, as well as for making the community aware of tool prototypes.

All submissions were reviewed by at least two members of the program committee. In the end, six submissions were accepted for display:

- "Tool Support for Value Modeling and Risk Analysis of e-Services" by Wieringa, Gordijn and Ionita
- "The Interactive Narrator Tool: Effective Requirements Exploration and Discussion through Visualization" by Slob, Dalpiaz, Brinkkemper and Lucassen
- "Multiple Criteria Decision Support in Requirements Negotiation" by Farshidi, Jansen, de Jong and Brinkkemper
- "Elicitation of SME Requirements for Cybersecurity Solutions by Studying Adherence to Recommendations" by Shojaiifar, Fricker and Gwerder
- "ORSIM: Integrating existing software components to detect similar natural language requirements" by Furnari, Palomares and Franch
- "PACAS: A Gamified Platform for Participatory Change Management in Air Traffic Management Systems" by Paja, Poggianella, Aydemir and Giorgini

In addition to the poster presentations and demos during the conference, six-page abstracts are included in the Joint Proceedings of Workshops, Research Method and Posters Track of REFSQ 2018.

To increase the visibility of the work, a poster slam was included in the conference program during the first lunch break. The posters were displayed in the coffee hall during the conference on Tuesday March 20th, 2018.

2 **Program Committee**

We would like to thank all the PC members for their help in reviewing the submissions as well as the conference organizers for their great work concerning practical arrangements.

The list of PC members for the Posters and Tools Track is as follows:

- Muneera Bano – Swinburne University of Technology, Australia
- Lin Liu – Tsinghua University, China
- Jose Luis De La Vara – Carlos III University of Madrid, Spain
- Sepideh Ghanavati – Texas Tech University, USA
- Anas Mahmoud – Louisiana State University, USA
- Emitzá Guzman – University of Zurich, Switzerland
- Nan Niu – University of Cincinnati, USA
- Aaron Massey – University of Maryland, Baltimore County
- Claudia Ayala – Technical University of Catalunya, Spain
