In addition to these, Community Health Choice believes you have the following rights and responsibilities:

Rights

1. A right to receive information about the organization, its services, its practitioners and Providers, and Member rights and responsibilities.
2. You have the right to respect, dignity, privacy, confidentiality, and nondiscrimination. That includes the right to:
 - a. Be treated fairly and with respect.
 - b. Know that your medical records and discussions with your Providers will be kept private and confidential..
3. A right to participate with practitioners in making decisions about your health care.
4. A right to a candid discussion of appropriate or medically necessary treatment options for your conditions, regardless of cost or benefit coverage.
5. A right to voice complaints or appeals about the organization or the care it provides.
6. A right to make recommendations regarding the organization's Member rights and responsibilities policy.
7. A right to agree to or refuse treatment and actively participate in treatment decisions. That includes the right to:
 - a. Work as part of a team with your Provider in deciding what health care is best for you.
 - b. Say yes or no to the care recommended by your Provider.
8. You have the right to not be restrained or secluded when it is for someone else's convenience, or is meant to force you to do something you do not want to do, or is to punish you.

Responsibilities

8. A responsibility to supply information (to the extent possible) that the organization and its practitioners and Providers need in order to provide care.
9. A responsibility to follow plans and instructions for care that you have agreed to with their practitioners.
10. A responsibility to understand your health problems and participate in developing mutually agreed-upon treatment goals, to the degree possible.

You have a right to tell us what you think of the rights and responsibilities offered to you. Tell us what you think at 1.888.760.2600.

New Technology Assessment

We provide for care that is shown to be safe and useful. We review new healthcare treatments. We review new procedures. The review uses up-to-date health data. This is called new Technology Assessment. We decide whether to pay for these things. This review means we pay when safety and value is clear. You may ask us to review new technology. The Texas Vendor Drug Program reviews medications. They decide which medications are on the formulary.

Utilization Management Decisions

Community follows guidelines to determine what healthcare services we cover. This is called utilization management. We know how important it is that we make the right decisions for your care. Community follows three principles when we make these decisions:

1. Our decisions are based only on whether or not:
 - The care and services are appropriate.
 - It is a covered benefit.
2. We do not reward doctors or anyone else for denying coverage.
3. We do not give incentives to doctors or anyone else to encourage them to make decisions that would mean you would get less care than you need.
4. If Community denies your request for services, you can get an independent external review. An independent review is when someone not employed by Community reviews your request for services. This is called an Independent Review Organization (IRO).

Quality Improvement

Our Quality Improvement Department helps Community give you the best clinical care and service possible. If you want more information about our Quality Improvement Program, please contact Member Services toll-free at 1.888.760.2600.

Primary Care Providers for CHIP Members and CHIP Perinate Newborn Members

References to “you,” “my” or “I” apply if you are a CHIP Member. References to “your child/my child” apply if your child is a CHIP Member or a CHIP Perinate Newborn Member.

What do I need to bring to my/my child’s doctor’s appointment?

When you/your child goes to see the doctor, take your/your child’s:

- CHIP Perinatal Member ID Card or CHIP Member ID Card
- List of problems you/your child is having
- Your/your child’s shot record

EXCEPT IN AN EMERGENCY, CALL YOUR CHILD’S PRIMARY CARE PROVIDER FIRST BEFORE GOING FOR HEALTH CARE.

What is a Perinatal Provider or Primary Care Provider?

Your/your child’s Perinatal Provider or Primary Care Provider is an important part of the Member’s healthcare team. Your/your child’s Perinatal Provider or Primary Care Provider will follow-up with the specialist or hospital or when you/your child receives care from someone else. You/your children need to see your child’s Perinatal Provider or Primary Care Provider regularly for checkups and care.

Your/your child’s Primary Care Provider should be the “medical home” for all of the Member’s medical records. The Primary Care Provider needs to know everything about the Member’s past and present healthcare needs. Make sure the Primary Care Provider has all of the Member’s medical records. If the CHIP or CHIP Perinatal Member is a new patient, help the Primary Care Provider get the Member’s medical records from the Member’s previous doctor. You may need to sign a form giving permission for the Member’s medical records to be sent to the CHIP or CHIP Perinatal Member’s new Primary Care Provider.

You can pick any Primary Care Provider in the Community Health Choice network to be your doctor. You should pick a Primary Care Provider within an office location and office hours that are convenient for you. If you like the Primary Care Provider that you see now, you can continue to see them if they are listed in the directory.

Once you pick your Primary Care Provider, please call Member Services toll-free at 1.888.760.2600. We will assign your selected Primary Care Provider as your main doctor.

For a current directory, go to CommunityHealthChoice.org > Find a Doctor > Medicaid/CHIP > Find a Provider > Enter your information > Search. You can find a doctor by Provider’s specialty, by Provider’s name or by Provider’s county.

It is important that you get to know your Primary Care Provider, and your Primary Care Provider get to know you. It is not good to wait until you are sick to pick and meet your Primary Care Provider.

We can help you schedule your first checkup and get transportation to your doctor’s office. Call Member Services toll-free at 1.888.760.2600.

How can a CHIP or CHIP Perinatal Newborn Member change their Primary Care Provider?

Call Member Services at 713.295.2294 or toll-free at 1.888.760.2600. You can also change it online at www.CommunityHealthChoice.org.

Changing Health Plans

What if I want to change health plans? How many times can I change health plans?

For CHIP Members

You are allowed to make health plan changes:

- for any reason within 90 days of enrollment in CHIP and once thereafter;
- for cause at any time;
- if the client moves to a different service delivery area; and
- during the annual CHIP re-enrollment period.

Who do I call?

For more information, call the CHIP Help Line toll-free at 1.800.964.2777.

For CHIP Perinatal Members

You can ask to change health plans:

- for any reason within 120 days of enrollment in CHIP Perinatal;
- if the Member moves into a different service delivery area; and
- for cause at any time.

Attention: If you meet certain income requirements, your baby will be moved to Medicaid and get 12 months of continuous Medicaid coverage from date of birth.

Your baby will continue to receive services through the CHIP Program if you meet the CHIP Perinatal requirements. Your baby will get 12 months of continuous CHIP Perinatal coverage through his or her health plan, beginning with the month of enrollment as an unborn child.

Once you pick a health plan for your unborn child, the child must stay in this health plan until the child's CHIP Perinatal coverage ends. The 12-month CHIP Perinatal coverage begins when your unborn child is enrolled in CHIP Perinatal and continues after your child is born.

If you live in an area with more than one CHIP health plan, and you do not pick a plan within 15 days of getting the enrollment packet, HHSC will pick a health plan for your unborn child and send you information about that health plan. If HHSC picks a health plan for your unborn child, you will have 120 days to pick another health plan if you are not happy with the plan HHSC chooses.

If you have children covered by CHIP, their health plans might change once you are approved for CHIP Perinatal coverage. When a Member of the family is approved for CHIP Perinatal coverage and picks a perinatal health plan, all children in the family that are enrolled in CHIP must join the health plan providing the CHIP Perinatal services. The children must remain with the same health plan until the end of the CHIP Perinatal Member's enrollment period, or the end of the other children's enrollment period, whichever happens last. At that point, you can pick a different health plan for the children.

When will my health plan change become effective?

If you call to change your health plan on or before the 15th of the month, the change will take place on the first day of the next month. If you call after the 15th of the month, the change will take place the first day of the second month after that. For example:

- If you call on or before April 15, your change will take place on May 1.
- If you call after April 15, your change will take place on June 1.

Can Community Health Choice ask that I get dropped from their health plan for non-compliance, etc.?

Yes. We can request that you be disenrolled if you:

- Move out of our service area
- Enter a hospice or long-term care facility
- Are not eligible for Medicaid
- Enroll in another plan

We might also request HHSC to end your membership after letting you know if you:

- Miss three appointments in a row over six months
- Do not follow our policies and procedures
- Allow your Member ID Card to be misused
- Are disruptive, abusive or do not cooperate with our staff or doctors or other Providers

Concurrent Enrollment of Family Members in CHIP and CHIP Perinatal and Medicaid Coverage for Certain Newborns

If you receive CHIP Perinatal benefits and have other children enrolled in the CHIP Program, they will be moved to Community Health Choice. Copayments, cost-sharing, and enrollment fees still apply for those children enrolled in the CHIP Program. Copayments do not apply to the CHIP Perinatal benefits.

An unborn child who receives CHIP Perinatal benefits will be moved to Medicaid for 12 months of continuous Medicaid coverage beginning on the date of birth if the child lives in a family with an income at or below the Medicaid eligibility threshold.

An unborn child will continue to receive coverage through the CHIP Program as a "CHIP Perinate Newborn" after birth if the child is born to a family with an income above the Medicaid eligibility threshold.

Member Rights and Responsibilities

What are my rights and responsibilities?

FOR CHIP MEMBERS AND CHIP PERINATE NEWBORN MEMBERS

MEMBER RIGHTS

1. You have the right to get accurate, easy-to-understand information to help you make good choices about your child's health plan, doctors, hospitals and other Providers.
2. Your health plan must tell you if they use a "limited Provider network." This is a group of doctors and other Providers who only refer patients to other doctors who are in the same group. "Limited Provider network" means you cannot see all the doctors who are in your health plan. If your health plan uses "limited networks," you should check to see that your child's Primary Care Provider and any specialist doctor you might like to see are part of the same "limited network."
3. You have a right to know how your doctors are paid. Some get a fixed payment no matter how often you visit. Others get paid based on the services they give to your child. You have a right to know about what those payments are and how they work.
4. You have a right to know how the health plan decides whether a service is covered and/or medically necessary. You have the right to know about the people in the health plan who decide those things.

5. You have a right to know the names of the hospitals and other Providers in your health plan and their addresses.
6. You have a right to pick from a list of healthcare Providers that is large enough so that your child can get the right kind of care when your child needs it.
7. If a doctor says your child has special healthcare needs or a disability, you maybe able to use a specialist as your child's Primary Care Provider. Ask your health plan about this.
8. Children who are diagnosed with special healthcare needs or a disability have the right to special care.
9. If your child has special medical problems, and the doctor your child is seeing leaves your health plan, your child may be able to continue seeing that doctor for three months, and the health plan must continue paying for those services. Ask your plan about how this works.
10. Your daughter has the right to see a participating obstetrician/gynecologist (OB/GYN) without a referral from her Primary Care Provider and without first checking with your health plan. Ask your plan how this works. Some plans may make you pick an OB/GYN before seeing that doctor without a referral.
11. Your child has the right to emergency services if you reasonably believe your child's life is in danger, or that your child would be seriously hurt without getting treated right away. Coverage of emergencies is available without first checking with your health plan. You may have to pay a copayment, depending on your income. (Copayments do not apply to CHIP Perinatal benefits.)
12. You have the right and responsibility to take part in all the choices about your child's health care.
13. You have the right to speak for your child in all treatment choices.
14. You have the right to get a second opinion from another doctor in your health plan about what kind of treatment your child needs.
15. You have the right to be treated fairly by your health plan, doctors, hospitals, and other Providers.
16. You have the right to talk to your child's doctors and other Providers in private, and to have your child's medical records kept private. You have the right to look over and copy your child's medical records and to ask for changes to those records.
17. You have the right to a fair and quick process for solving problems with your health plan and the plan's doctors, hospitals and others who provide services to your child. If your health plan says it will not pay for a covered service or benefit that your child's doctor thinks is medically necessary, you have a right to have another group, outside the health plan, tell you if they think your doctor or the health plan was right.
18. You have a right to know that doctors, hospitals, and others who care for your child can advise you about your child's health status, medical care, and treatment. Your health plan cannot prevent them from giving you this information, even if the care or treatment is not a covered service.
19. You have a right to know that you are only responsible for paying allowable copayments for covered services. Doctors, hospitals, and others cannot require you to pay any other amounts for covered services.

MEMBER RESPONSIBILITIES

1. You and your health plan both have an interest in seeing your child's health improve. You can help by assuming these responsibilities.
2. You must try to follow healthy habits. Encourage your child to stay away from tobacco and to eat a healthy diet.
3. You must become involved in the doctor's decisions about your child's treatments.
4. You must work together with your health plan's doctors and other Providers to pick treatments for your child that you have all agreed upon.
5. If you have a disagreement with your health plan, you must try first to resolve it using the health plan's complaint process.
6. You must learn about what your health plan does and does not cover. Read your Member Handbook to understand how the rules work.
7. If you make an appointment for your child, you must try to get to the doctor's office on time. If you cannot keep the appointment, be sure to call and cancel it.

8. If your child has CHIP, you are responsible for paying your doctor and other Providers' copayments that you owe them. If your child is getting CHIP Perinatal services, you will not have any copayments for that child.
9. You must report misuse of CHIP or CHIP Perinatal services by healthcare Providers, other Members or health plans.
10. You must talk to your Provider about your medications that are prescribed.
11. If you think you have been treated unfairly or discriminated against, call the U.S. Department of Health and Human Services toll-free at 1.800.368.1019. You also can view information concerning the HHS Office of Civil Rights online at <https://hhs.texas.gov/about-hhs/your-rights/civil-rights-office>.

How do I choose a perinatal Provider?

Every CHIP Member of your family may have their own Primary Care Provider. Follow these steps to choose:

- Check our Web site at CommunityHealthChoice.org or your Community Health Choice CHIP Provider Directory for a list of our Primary Care Providers near you.
- Call Community Health Choice Member Services at 713.295.2294 or toll-free at 1.888.760.2600.

Will I need a referral?

No.

How soon can I be seen after contacting a perinatal Provider for an appointment?

You should be able to see your Perinatal Provider within two weeks of your call.

Can I stay with my perinatal Provider if they are not with Community Health Choice?

If you enrolled with Community in the last three months of your pregnancy, you can continue to see your perinatal provider if Community and the perinatal provider can set up approval for care.

What if I get a bill from a perinatal Provider?

You might get a bill if you go to a doctor who is not with Community Health Choice. You might also get a bill if you received treatment in an emergency room if it was not an emergency. If you get bills for services that are not covered, the CHIP Program will NOT pay these bills.

Always show your CHIP Perinatal Member ID Card when you get medical services from a doctor who is with Community Health Choice.

Who do I call?

If you get a bill for covered services, call the Provider and give them the information on your CHIP Perinatal Member ID Card. If you still have a problem, call Member Services. Give our Member Services the Member ID Number and tell them who sent you the bill.

What information will they need?

They will need information that is on your Member ID Card. If you still have a problem, call Member Services.

What do I have to do if I move?

Before you get CHIP services in your new area, you must call Community Health Choice, unless you need emergency services. What are my rights and responsibilities?

FOR CHIP PERINATE MEMBERS

MEMBER RIGHTS AND RESPONSIBILITIES

MEMBER RIGHTS

1. You have a right to get accurate, easy-to-understand information to help you make good choices about your unborn child's health plan, doctors, hospitals, and other Providers.
2. You have a right to know how the Perinatal Providers are paid. Some may get a fixed payment no matter how often you visit. Others get paid based on the services they provide for your unborn child. You have a right to know about what those payments are and how they work.
3. You have a right to know how the health plan decides whether a Perinatal service is covered or medically necessary. You have the right to know about the people in the health plan who decide those things.
4. You have a right to know the names of the hospitals and other Perinatal Providers in the health plan and their addresses.
5. You have a right to pick from a list of healthcare Providers that is large enough so that your unborn child can get the right kind of care when it is needed.
6. You have a right to emergency Perinatal services if you reasonably believe your unborn child's life is in danger, or that your unborn child would be seriously hurt without getting treated right away. Coverage of such emergencies is

available without first checking with the health plan.

7. You have the right and responsibility to take part in all the choices about your unborn child's health care.
8. You have the right to speak for your unborn child in all treatment choices.
9. You have the right to be treated fairly by the health plan, doctors, hospitals, and other Providers.
10. You have the right to talk to your Perinatal Provider in private, and to have your medical records kept private. You have the right to look over and copy your medical records and to ask for changes to those records.
11. You have the right to a fair and quick process for solving problems with the health plan and the plan's doctors, hospitals and others who provide Perinatal services for your unborn child. If the health plan says it will not pay for a covered Perinatal service or benefit that your unborn child's doctor thinks is medically necessary, you have a right to have another group, outside the health plan, tell you if they think your doctor or the health plan was right.
12. You have a right to know that doctors, hospitals, and other Perinatal Providers can give you information about your or your unborn child's health status, medical care or treatment. Your health plan cannot prevent them from giving you this information, even if the care or treatment is not a covered service.

MEMBER RESPONSIBILITIES

You and your health plan both have an interest in having your baby born healthy. You can help by assuming these responsibilities.

1. You must try to follow healthy habits. Stay away from tobacco and eat a healthy diet.
2. You must become involved in the decisions about your unborn child's care.
3. If you have a disagreement with the health plan, you must try first to resolve it using the health plan's complaint process.
4. You must learn about what your health plan does and does not cover. Read your CHIP Perinatal Program Handbook to understand how the rules work.
5. You must try to get to the doctor's office on time. If you cannot keep the appointment, be sure to call and cancel it.
6. You must report misuse of CHIP Perinatal services by healthcare Providers, other Members or health plans.
7. You must talk to your Provider about your medications that are prescribed.

If you think you have been treated unfairly or discriminated against, call the U.S. Department of Health and Human Services (HHS) toll-free at 1.800.368.1019. You also can view information concerning the HHS Office of Civil Rights online at www.hhs.gov/ocr.

When does CHIP Perinatal coverage end?

Your baby will continue to receive CHIP Perinatal benefits if you meet the requirements. Your baby will get 12 months of continuous CHIP Perinatal benefits, beginning with the month of enrollment as an unborn child. If you do not meet CHIP Perinatal benefit requirements, your baby will be moved to Medicaid and get 12 months of continuous Medicaid coverage from date of birth.

Will the state send me anything when my CHIP Perinatal coverage ends?

Yes, the state will send you a letter telling you when your coverage ends.

How does renewal work?

In the 10th month of coverage, you will receive a CHIP renewal form. You must fill it out and send it to the state. The state will determine if your child is eligible for Medicaid or CHIP. Call us for help filling out your renewal application. Community offers application and recertification assistance out in the community. Call Member Services to find the assistance site closest to you.

Can I choose my baby's Primary Care Provider before my baby is born?

Yes.

Who do I call?

Look in your CHIP Provider Directory or online at CommunityHealthChoice.org. You can also call Member Services at 713.295.2294 or toll-free at 1.888.760.2600.

What information do they need?

If you have already chosen a Provider, please give Member Services your Provider's name and phone number.

Who do I call if I have special healthcare needs and need someone to help me?

Please contact Member Services for any information on special healthcare needs. You may also contact your Primary Care Provider to assist you in obtaining or learning about services available to you or your baby.

What if I am too sick to make a decision about my medical care?

If you have not named a surrogate, your doctor will ask your closest available relative or friend to help decide what is best for you. Because those people may not all agree with what to do with your care, it is helpful if you say in advance what you want to happen if you can't speak for yourself.

What are advance directives?

Advance directives are legal papers that allow you to say if you would accept or refuse medical treatment if you become too ill to speak for yourself. These papers can help your family decide what to do for you to relieve them of the stress of making the decision for you. It also helps the doctor care for you according to your wishes.

How do I get an advance directive?

Ask your doctor for the form(s) for advance directives. Call Member Services Department toll-free at 1.888.760.2600 if you need more information.

Texas Law on Medical Treatment of Minors and Related Consent Issues

Community follows federal and state law and guidelines on issues of consent to medical treatment. Generally, minors cannot consent to medical treatment. As a general rule, Community must obtain consent from a minor child's parent prior to authorizing medical treatment.

There are certain exceptions to the general rule. For example, a minor child who has been "emancipated" or legally declared an "adult" by the courts can make their own medical decisions. Other exceptions include but are not limited to: (1) emergency situations; (2) active duty with the armed forces; (3) consent for treatment of infectious diseases reportable to the Texas Department of State Health Services; (4) unmarried pregnant minors consenting to treatment for pregnancy; (5) treatment for drug and alcohol abuse; (6) counseling for abuse, suicide prevention, or drug addiction; and (7) other exceptions as permitted by law.

If you have any questions about these exceptions, please contact Community at 1.888.760.2600.
