FY 96 CONGRESSIONAL UPDATE

The SAF/AQ Congressional Track provides Air Force personnel a historical account of Congressional actions taken on the FY 96 President's Budget Request. The Maxi-\$-Track organizes Air Force programs as follows: Aircraft Procurement (3010); Ammunition Procurement (3011); Missile Procurement (3020); Other Procurement (3080); and Research, Development, Test and Evaluation (3600). Within these sections, report language concerning specific programs may be located either by using the table of contents for that section or by referring to the program sequence number. To coincide with budget accounting procedures, programs are listed by either a P-1 (Procurement) or an R-1 (RDT&E) Sequence Number which appears on the budget pages at the beginning of each section.

This Maxi-\$-Track incorporates numbers and language from the following Congressional reports:

HNSC report (H. Rept. 104-131)

SASC report (S. Rept. 104-112)

HAC report (H. Rept. 104-208)

SAC report (S. Rept. 104-124)

Authorization conference report (H. Rept. 104-450) (NOTE: This is the second authorization conference report. A previous report, H. Rept. 104-406, was filed on H.R. 1530, which was vetoed by the President on December 28, 1995.

Appropriations conference report (H. Rept. 104-344) (NOTE: This is the second appropriations conference report. A previous report, H. Rept. 104-261, was rejected by the House on September 29, 1995.)

Narrative may be found at the end of each section (i.e., 3010, 3011, 3020, 3080, 3600).

Pertinent language not readily identifiable with a specific program may be found in the General Comments section which is organized by

Congressional Report, i.e., HNSC, SASC, HAC, SAC, Authorization Conference Report, Appropriations Conference Report.

The President signed P.L. 104-106, FY 96 DoD Authorization (S. 1124), on February 10, 1996. H.R. 2126, FY 96 DoD Appropriations, became law without the President's signature on December 1, 1995 (P.L. 104-61).

Complete committee reports are available for review in SAF/AQXRC, Room 4D347. Committee reports and the Maxi-\$-Track are also available on the SAF/AQ classified (Q:\maxitrak\fy96) and unclassified (Q:\wildenst\maxitrak\fy96\word6) nets, as well as on the World Wide Web SAF/AQ Home Page (http://www.safaq.hq.af.mil/safaq/budg_cong_info). Questions regarding this track may be referred to Miss Wildensteiner, AV 225-5641.
