

**THE WHITE HOUSE**

WASHINGTON

May 17, 2013

Dear Mr. Speaker:

I ask the Congress to consider the enclosed Fiscal Year (FY) 2014 Budget amendments for the Departments of Agriculture, Defense, Health and Human Services, Housing and Urban Development, the Interior, Justice, State, and Transportation, as well as Other International Programs, the National Aeronautics and Space Administration, and the Federal Trade Commission. These amendments do not affect the proposed FY 2014 Budget totals. These amendments are necessary to reflect correctly policies assumed in the FY 2014 Budget.

Also included is a new Department of Defense (DOD) General Provision that would authorize the Secretary of the Navy to receive and retain payment in-kind for the settlement of the longstanding A-12 aircraft contract litigation. This litigation has been ongoing for over two decades.

The final decision about the pace of the drawdown in Afghanistan was not made at the time the FY 2014 Budget request was developed. As a result, the Budget included a placeholder for DOD FY 2014 Overseas Contingency Operations (OCO) funding, equivalent to the amount provided in the President's FY 2013 Budget. The Administration noted in the FY 2014 Budget that after determining the required force levels in Afghanistan, a Budget amendment updating the OCO request would be submitted to the Congress. The enclosed DOD amendments also include the necessary updates to the OCO request, which funds military operations in Afghanistan and other activities that primarily support Operation Enduring Freedom.

In addition, this transmittal contains FY 2014 amendments for the Legislative Branch. As a matter of comity and tradition, these appropriations requests for the Legislative Branch are transmitted without change.

The details of these amendments are set forth in the enclosed letter from the Director of the Office of Management and Budget.

I again urge the Congress to consider my FY 2014 Budget, which takes a balanced approach to further deficit reduction and replaces sequestration.

Sincerely,

A handwritten signature in black ink, appearing to read "Boehner". The signature is stylized with a large, sweeping initial "B" and a circular flourish at the end.

The Honorable John Boehner  
Speaker of the  
House of Representatives  
Washington, D.C. 20515

EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF MANAGEMENT AND BUDGET  
WASHINGTON, D.C. 20503

Estimate No. 1  
113<sup>th</sup> Congress, 1<sup>st</sup> Session

May 16, 2013

The President  
The White House

Submitted for your consideration are amendments to your Fiscal Year (FY) 2014 Budget for the Departments of Agriculture, Defense, Health and Human Services, Housing and Urban Development, the Interior, Justice, State, and Transportation, as well as Other International Programs, the National Aeronautics and Space Administration, and the Federal Trade Commission. These amendments do not affect the proposed FY 2014 Budget totals. These amendments are necessary to reflect correctly policies assumed in your FY 2014 Budget.

Also included is a new Department of Defense (DOD) General Provision that would authorize the Secretary of the Navy to receive and retain payment in-kind for the settlement of the longstanding A-12 aircraft contract litigation. This litigation has been ongoing for over two decades.

In addition, this package updates the FY 2014 Overseas Contingency Operations (OCO) funding request for DOD. As you stated, the mission in Afghanistan is in the midst of a transition. Over the course of this year, American forces are moving into a support role as Afghan forces take the lead. By February 2014, half of our troops there will be home, and by December 2014, United States' combat operations in Afghanistan will be over. Still, the United States will maintain a commitment to Afghanistan's sovereignty and security, and we will continue to equip, train, advise, and assist the Afghan National Security Forces; support economic development and governance efforts; and pursue our counterterrorism goals against al Qaeda and its affiliated groups.

Military operations in Afghanistan, as well as other activities in other countries that primarily support Operation Enduring Freedom, comprise the vast majority of the DOD OCO request. Because final decisions about the pace and structure of the drawdown of U.S. forces in Afghanistan were not available before the preparation of the Budget, the FY 2014 Budget included a placeholder value of \$88.5 billion for DOD OCO funding, in addition to \$3.8 billion requested for Department of State OCO funding. This package submits for your consideration the complete and updated request for FY 2014 DOD OCO funding, totaling \$79.4 billion. This total is \$7.8 billion less than the FY 2013 enacted amount.

Of the total DOD OCO request, \$78.1 billion is for activities in support of Operation Enduring Freedom (OEF) and \$1.3 billion is for finalizing the transition activities in Iraq. In support of OEF, DOD OCO funding will support several key efforts, including:

- transitioning the U.S. military mission in Afghanistan from combat to support as the number of U.S. troops on the ground declines from an average of 68,000 in FY 2013 to an average of 38,400 in FY 2014;
- continuing to support the 352,000-strong Afghanistan National Security Forces as they prepare to assume full responsibility for security in Afghanistan by December 2014;
- investing in the development, professionalization, and sustainment capacity of the ANSF through improvements in literacy and leadership, as well as transportation, medical, logistics, and intelligence systems;
- sustaining the fight, together with Afghan and Coalition partners, against transnational terrorists who seek to undermine the United States and our allies;
- providing intelligence, surveillance, and reconnaissance (ISR) support to warfighters and continuing to invest in emerging ISR capabilities that have proven essential for mission success in Afghanistan and around the region;
- providing support to Coalition allies in Afghanistan and the surrounding region;
- responsibly closing or transferring to Afghan control most Coalition bases by December 2014;
- returning tens of thousands of cargo containers and pieces of equipment from Afghanistan to their home stations;
- replenishing or replacing expended munitions and ammunition as well as combat-damaged equipment, including helicopters, ground vehicles, and unmanned aerial systems; and
- supporting the portion of temporary Army and Marine Corps end strength that currently supports OEF, but that will not be required under the Nation's new defense strategy.

Although the number of U.S. troops in Afghanistan will decline substantially over the course of FY 2014, military operations in support of the transition to full Afghan responsibility for the country's security will continue at a high pace, and certain costs will grow or remain the same. For example, as we reduce our footprint across Afghanistan, ISR and contractor support requirements will temporarily increase in areas where U.S. troops are departing. Transportation and retrograde costs will increase substantially as DOD prepares and ships tens of thousands of cargo containers and pieces of equipment back to their home stations. Funding needed to train and equip the ANSF will temporarily increase from the FY 2013 amount in order to ensure that Afghan forces are ready to take over full responsibility for security throughout the country by the end of 2014. There will be increased costs to repair and replace equipment and munitions as DOD resets the force over the next few years. Finally, OCO funding supports a significant portion of our military presence around the Middle East—the bases, ships, and ISR platforms outside Afghanistan from which DOD supports OEF and other important missions. This presence will not substantially diminish in FY 2014.

DOD OCO funding also supports follow-on costs related to the war in Iraq, including the repair and replacement of equipment and munitions damaged or expended in the war and the operations and activities, including site closure, of the Office of Security Cooperation-Iraq (OSC-I). Of the total request of \$79.4 billion, \$1.3 billion supports these activities.

General provisions included in the OCO request will provide necessary authorities to support military operations in the U.S. Central Command area of responsibility. As in each of the past four years, these include a request for \$4 billion in OCO-specific transfer authority.

The OCO request also seeks to cancel \$1.3 billion in prior-year unobligated balances for activities that are in excess of need, in favor of urgent wartime priorities. These balances include \$727 million in the Joint Cargo Aircraft (C-27J) program that the FY 2013 Budget proposed for termination, \$486 million provided by the Congress to continue operating ships the FY 2013 Budget proposed to retire, and \$66 million in other unneeded funds.

The Budget submitted on April 10 estimated FY 2014 outlays from the DOD OCO placeholder at \$52.5 billion. Based on the updated request submitted in this package, the revised FY 2014 outlay estimate from DOD OCO funding is \$41.6 billion.

The Budget also repropose a \$450-billion multi-year cap on Government-wide OCO funding over the FY 2013 to FY 2021 period in order to prevent future efforts to evade the fiscal discipline required in the rest of the discretionary budget. In FY 2013, enacted funding designated as OCO is \$98.7 billion across three Departments. With this update, the FY 2014 Budget proposes an additional \$83.2 billion in OCO funding in DOD and State, leaving a total of \$268.1 billion under the proposed cap for the years FY 2015 to FY 2021, or an average of \$38.3 billion per year.

Finally, this transmittal contains FY 2014 amendments for the Legislative Branch. As a matter of comity and tradition, these appropriations requests for the Legislative Branch are transmitted without change. The proposed FY 2014 Budget totals would decrease by \$353,817 as a result of these amendments.

Taken together, these amendments do not increase the overall spending included in the FY 2014 Budget. Your Budget provides a serious and comprehensive plan that achieves another \$1.8 trillion in deficit reduction, in a way that maintains investments needed to build our economy and protect our Nation and provides enough deficit reduction to replace sequestration.

Recommendation

I reviewed these amendments and am satisfied that they are necessary at this time. Therefore, I join the heads of the affected Departments and agencies in recommending that you transmit the amendments to the Congress.

Sincerely,

Sylvia M. Burwell  
Director

(In the appropriations language under the above heading, insert and after "(7 U.S.C. 1924 et seq.);" and delete ", and individual development account grants (7 U.S.C. 1981-2008r)".)

This amendment would delete language for individual development account grants that was retained inadvertently from the FY 2013 Budget request. The FY 2014 Budget request does not include funding for these individual development grants and, therefore, the proposed FY 2014 Budget totals would not be affected by this technical language amendment.

(In the appropriations language under the above heading, in section 724, insert the following new language after the colon in the second proviso:)

Provided further, That none of the funds appropriated or otherwise made available by this or any other Act shall be used to pay the salaries or expenses of any employee of the Department of Agriculture or officer of the Commodity Credit Corporation to carry out clause 3 of section 32 of the Agricultural Adjustment Act of 1935 (Public Law 74–320, 7 U.S.C. 612c, as amended), or for any surplus removal activities or price support activities under section 5 of the Commodity Credit Corporation Charter Act:

This amendment would insert proposed language in the 2014 Budget in order to clarify that no funds made available by this or any other Act may be used to pay the salaries or expenses of employees of the Department of Agriculture or officers of the Commodity Credit Corporation to carry out disaster payments under clause 3 of section 32 of the Agricultural Adjustment Act of 1935 or for any surplus removal activities or price support activities under section 5 of the Commodity Credit Corporation Charter Act. Without this amendment, there could be some ambiguity as to whether the proposed \$166 million cancellation of funds from the Section 32 program would be replaced with mandatory funding for those purposes using existing authorities.

The proposed FY 2014 Budget totals would not be affected by this technical language amendment.

Revised Request: ---

(In the above heading, insert and TITLE IX after "TITLE VIII". In the appropriations language under the new heading in section 8046, delete "for operation and maintenance"; insert and transfers after "remittances"; and delete the proviso.)

This amendment would modify the proposed language in the FY 2014 Budget in order to clarify that the transfer authority, provided in this section to the Secretary of Defense for the Defense Acquisition Workforce Development Fund, would apply only to funds appropriated for FY 2014. Without this amendment, the transfer authority could be interpreted as a request for a reappropriation of funds for prior fiscal years.

(In the appropriations language under the new heading, delete sections 8052 and 8053 and renumber the subsequent sections accordingly.)

This amendment would remove two agency-specific General Provisions (GPs) that were inadvertently retained in the Budget. These provisions would effectively duplicate sections 735 and 736, two Government-wide GPs intended as their replacement.

The proposed FY 2014 Budget totals would not be affected by the above technical language amendments.

(In the appropriations language under the new heading, add the following new section number and language immediately following the newly renumbered section 8054:)

Sec. 8055. Notwithstanding any other provision of law, during the current fiscal year and hereafter, the Secretary of the Navy is authorized to accept and retain in kind goods and services in lieu of a monetary payment, for purposes of a settlement of the A-12 Aircraft litigation arising from the default termination of Contract No. N00019-88-C-0050, provided that the settlement agreement specifies the goods and services to be retained, is approved by the Attorney General, and is executed by the parties before the date of enactment of this provision.

This amendment would provide authority to the Secretary of the Navy to receive and retain payment in-kind for the settlement of the longstanding A-12 aircraft contract litigation. The value of the items included in the in-kind settlement would be scored in the years that they

are received by the Department of the Navy, consistent with the Future Years Defense Plan and the discretionary caps.

(In the appropriations language under the new heading, insert immediately after section 8055 the following new subheading and new language:)

(including transfer of funds)

Sec. 9001. Notwithstanding any other provision of law, funds made available by this Act and designated for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, are in addition to amounts appropriated or otherwise made available for the Department of Defense for fiscal year 2014.

Sec. 9002. Sec. 9003. Sec. 9006. (c) The amounts in this section are designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. This amendment would revise the amount requested for this account by \$7 million, which was to be offset by an FY 2014 proposed cancellation of \$7 million in balances from funds appropriated to this account in Public Law 112-175 for repayment to other appropriations accounts from which funds were transferred in FY 2012 for wildfire suppression. Subsequent to completion of the FY 2014 Budget request, the Consolidated and Further Continuing Appropriations Act, 2013 (Public Law 113-6) rescinded the same available balances from this account. Therefore, the offset for \$7 million of requested spending for FY 2014 is no longer available and this amendment would adjust the requested budget authority accordingly.

This amendment would delete the requested cancellation of \$7 million in balances from funds appropriated to the Wildland Fire Management account in Public Law 112-175 for repayment to other appropriations accounts from which funds were transferred in FY 2012 for wildfire suppression. The proposed cancellation would have offset \$7 million of spending requested in the Wildland Fire Management account. Subsequent to completion of the FY 2014 Budget request, the Consolidated and Further Continuing Appropriations Act, 2013 (Public Law 113-6) rescinded these same balances and they are therefore no longer available for cancellation in FY 2014.

Taken together with an accompanying amendment to the Department of the Interior Wildland Fire Management account included in this transmittal that would lower the amount of spending requested in that account by \$7 million, the proposed FY 2014 Budget totals would not be affected by this amendment.

Contribution Authority

Sec. 124. 43 U.S.C. 1473, as amended by Public Law 111-88, is further amended by striking "2013" and inserting "2014".

This amendment would insert proposed language that was inadvertently omitted from the FY 2014 Budget. This provision would clarify that the full contribution authority of the Bureau of Ocean Energy Management and the Bureau of Safety and Environmental Enforcement (successor bureaus of the former Mineral Management Service) that is in effect for FY 2013 would be continued in FY 2014.

Therefore, the unobligated balances are no longer available for cancellation in the OFDT account.

Taken together with an accompanying amendment included in this transmittal that would instead cancel \$80 million of the unobligated balances that were transferred and merged into the FPD account in Public Law 113-6, the proposed FY 2014 Budget totals would not be affected by this amendment.

Of the unobligated balances from prior year appropriations available under this heading, \$80,000,000 are hereby permanently cancelled: Provided, That no amounts may be cancelled from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

This amendment would delete the request to transfer and merge all unobligated balances from the Department's Detention Trustee (OFDT) account to the Federal Prisoner Detention (FPD) account. It would also cancel \$80 million in unobligated balances within the FPD account, rather than from OFDT account as requested in the FY 2014 Budget. Subsequent to completion of the Budget, the Consolidated and Further Continuing Appropriations Act, 2013 (Public Law 113-6) included language to transfer and merge all unobligated balances from OFDT to the FPD account. Therefore, the transfer and merge language in the FY 2014 request is no longer necessary. Because the unobligated balances proposed for cancellation are no longer in the Detention Trustee account, they are now instead proposed for cancellation from the FPD account.

Taken together with an accompanying amendment included in this transmittal that would delete the requested cancellation from OFDT, the proposed FY 2014 Budget totals would not be affected by this amendment.
