DEPARTMENT OF DEFENSE APPROPRIATIONS BILL, 2010

JULY 24, 2009.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. MURTHA of Pennsylvania, from the Committee on Appropriations, submitted the following

R E P O R T

[To accompany H.R. 3326]

The Committee on Appropriations submits the following report in explanation of the accompanying bill making appropriations for the Department of Defense, and for other purposes, for fiscal year ending September 30, 2010.

BILL TOTALS

Appropriations for most military functions of the Department of Defense are provided for in the accompanying bill for the fiscal year 2010. This bill does not provide appropriations for military construction, military family housing, civil defense, and military nuclear warheads, for which requirements are considered in connection with other appropriations Acts.

The President's fiscal year 2010 budget request for activities funded in the Department of Defense Appropriations Act totals \$640,431,852,000 in new budget obligational authority.

COMMITTEE BUDGET REVIEW PROCESS

During its review of the fiscal year 2010 budget request and execution of appropriations for fiscal year 2009, the Subcommittee on Defense and the Select Intelligence Oversight Panel held a total of 29 hearings and 8 formal Subcommittee and Panel briefings during the period of February 2009 to June 2009. Testimony received by the Subcommittee totaled 2,492 pages of transcript. Hearings were held in open session, except when the security classification of the material to be discussed presented no alternative but to conduct those hearings in executive or closed session.

SELECT INTELLIGENCE OVERSIGHT PANEL

House Resolution 35 established the Select Intelligence Oversight Panel (Panel). The rule indicates that the Panel shall review and study on a continuing basis, budget requests for and execution of intelligence activities. In addition, the Panel heard numerous briefings and updates from various agencies and elements of the intelligence community and Department of Defense.

The Panel prepared and transmitted a report to the Defense Subcommittee on Appropriations for fiscal year 2010 budgetary and oversight observations and recommendations for use in preparation of the classified annex accompanying the Defense Appropriations bill. The recommendations contained therein were used by the Defense Subcommittee in developing the classified annex accompanying this bill.

INTRODUCTION

Recognizing the commitment of United States personnel and their families, the Committee is dedicated to providing and maintaining the highest standards of readiness and quality of life for service personnel and their families, and providing the right quantities of equipment supported by a robust program of research into future technologies to ensure that United States military forces remain second to none. Accordingly, the Committee recommends total funding in this bill of \$636,292,979,000 including \$508,045,994,000 in base funding, and \$128,246,985,000 for Overseas Deployments and Other Activities for the Department of Defense for fiscal year 2010.

The nation remains justifiably concerned about overseas deployments in Iraq and Afghanistan. In this regard, and for all the missions that the United States military perform, the Committee and the country are deeply grateful for the service, dedication, and sacrifices made by the nation's military service members.

As in past years, a critical element of the Committee's emphasis is found in military pay, military family issues and military medical care. In the military personnel accounts, the Committee provides \$364,000,000 above the request for a pay raise of 3.4 percent. For military families, the bill includes \$472,400,000 for Family Advocacy programs and fully funds Family Support and the Yellow Ribbon program. In addition, the bill adds \$20,000,000 above the request for National Guard Family Assistance and Reintegration Centers. Although the Committee harbors some concerns about cost growth in the Defense Health Program, the Committee firmly be-

lieves that full funding of this program is critical to the support of service members and their families. Accordingly, the Committee recommends total funding of \$29,891,109,000 for the Defense Health Program, an increase of \$1,987,946,000 above the request.

COMMITTEE INITIATIVES

A major imperative of the Committee's funding recommendations is to improve the efficiency with which Department of Defense resources are expended. The Committee believes that one of the best ways to support United States forces is to improve the stability of acquisition programs and increase quantities to field new equipment more rapidly. In many cases, the procurement rates for new equipment are well below what could reasonably be described as economic order quantities. The practice of stretching out procurement schedules not only delays fielding modernized weapons but is costly as well. For example, in the case of the aerial refueling tanker, annual maintenance costs are expected to climb by \$900,000,000, and Depot maintenance costs are expected to increase by \$780,000,000. In contrast, the lower cost per flying hour for a new fleet of tankers will save taxpayers \$3,500,000 per aircraft per year. The Committee also notes that the aerial refueling tankers are a crucial piece of our nation's ability to deploy and operate anywhere in the world.

In addition, the Committee is aware that the Department of Defense has consistently failed to provide funding to maintain sufficient production within the Navy's shipbuilding program. As a result, the total fleet of United States vessels has shrunk well below the desired fleet size of 313. In this bill, the Committee's recommendations provide funding for construction of 10 ships for the first time since 1992 in order to maintain a 300 ship fleet.

The Committee also seeks to reverse a recent and increasing trend to curtail the development of systems before such efforts realize any benefit to the taxpayer. The Committee strongly supports realistic budgeting that matches available funding to overall programs. Indeed, many of the program terminations proposed in the fiscal year 2010 budget request are supported in this bill. Nevertheless, the Committee is concerned that the proposal to terminate some programs is premature, and believes that continuing certain efforts may yield significant payback. The Committee believes that this is clearly the case for the presidential helicopter, wherein five aircraft have been purchased that could be pressed into service. Similarly, in the Committee's view, there is potential for significant payback associated with the Joint Strike Fighter alternative engine and certain missile defense activities provided in this recommendation.

OVERSEAS CONTINGENCIES

The Committee notes that among the most significant challenges facing the Department of Defense are those in Iraq and Afghanistan and the transition now underway between those operations. In Iraq, the United States is beginning the process of redeployment. As of June 30, 2009, United States troops have withdrawn from major towns and cities. Between now and August 31, 2010, the

U.S. military presence in Iraq will be reduced to a “transitional force” of roughly six Brigade Combat Teams, a force estimated to include between 35,000 and 50,000 troops. This level is a significant reduction compared to the 18 Brigade Combat Teams in Iraq as of February 2009.

On 28 March 2009, the President announced a new United States strategy for Afghanistan aimed at “disrupting, destroying, dismantling and defeating” al Qaeda. A major part of this effort includes an increase of United States force levels in Afghanistan. Overall, United States force levels are expected to grow to approximately 67,000 by September 2009. In addition, a major piece of the United States approach is to help train the Afghanistan National Security Force, including the Afghan National Army, Afghan National Police, the Afghan National Civil Order Police, and the Afghan Border Police. The new strategy calls for accelerating the growth of the Afghan National Army from the current force of 86,000 to 134,000 by December 2011, and for training and reforming over 29,000 members of the Afghan National Police in 2009. To support this effort, the Overseas Deployment section of the bill provides \$7,462,769,000 for the Afghan Security Forces Fund.

In general, the Committee has provided full support for overseas deployment activities by including \$128,246,985,000 for Overseas Deployments and Other Activities (title IX of this bill). Within this figure, the Committee has provided for the military personnel, operation and maintenance, and acquisition costs required to conduct these operations.

The Committee is also aware that the Department of Defense embarked on an initiative to grow the force in both the Army and Marine Corps, and the Committee has supported increased personnel funding. In part to support this growth, funding in the military personnel title of the bill has increased by nearly \$20 billion over the past two years.

The Committee is also aware of significant changes within the Services’ training and readiness programs. Indeed, the Secretary of Defense earlier this year indicated that the Department of Defense would undergo a significant change in its training programs because of the need to emphasize counterinsurgency training. Although these changes are early in their implementation, the Committee has supported a rebalanced training program as described elsewhere in this report.

OVERSIGHT ISSUES

The Secretary of Defense has stated that the Department of Defense must set priorities and consider tradeoffs and opportunity costs to attain a higher level of military readiness. However, the budget request avoided some of these tough choices. The Committee recommends that the 2011 budget be supported with a program plan and that the Quadrennial Defense Review seek to clearly establish priorities. The Committee expects the Department of Defense to only budget for its highest priority needs. Finally, the Committee recommends that the Secretary of Defense institute a process for assessing and prioritizing requirements and allocating resources which is supportive of thorough, deliberative program and budget reviews.

The Committee is disappointed that the Department of the Army is the only Service which complied with the law requiring the Department of Defense to provide an annual inventory of contracted services. A general provision is included in the bill which reduces Operation and Maintenance funding by \$550,000,000 and the Committee expects all of the components of the Department of Defense to comply with this direction.

The Department of Defense is to be commended for the positive and decisive steps taken to in-source inherently governmental functions. The steps are consistent with the Committee's direction to the Department over the past three years which will strengthen oversight, end unnecessary no-bid and cost-plus contracts, maximize the use of competitive procurement processes, and clarify rules prescribing when outsourcing is and is not appropriate.

Common Access Cards allow personnel access to Department of Defense installations, resources, and sensitive information. The Committee is deeply concerned to learn of the potential dangers to force protection of troops and their families who live on Department of Defense bases due to a lack of control of these Common Access Cards and the Committee directs reporting requirements elsewhere in this report.

In the Military Personnel section of this report the Committee directs the Government Accountability Office and the Department of the Army to review allegations of possible Antideficiency Act violations and to report to the Committee any actions that were taken to resolve associated financial management issues.

In the area of intelligence, the Committee reduces the size of the Office of the Director of National Intelligence and shifts a portion of that funding to the Central Intelligence Agency. This transfer of funding is made to ensure that the Director of National Intelligence focuses on coordination and fiscal management while the intelligence agencies, like the Central Intelligence Agency and others, focus on operational activities. The Committee also supports the Cybersecurity efforts requested by the Administration, but reduces some of the increased growth to a manageable level.

In the Overseas Deployments and Other Activities portions of the bill, the Committee transfers \$14,636,901,000 of requested Operation and Maintenance funding into an Overseas Contingency Operations Transfer Fund (OCOTF), which recognizes the highly variable nature of both the costs to rebalance United States forces between Iraq and Afghanistan. The OCOTF will significantly enhance the Department of Defense's flexibility to transfer funds to the needed appropriation account once costs are known. The bill includes language which adds protections so that these funds can only be used after the congressional defense committees have the opportunity to review and approve any uses of these funds.

The Committee understands the value of the Commander's Emergency Response Program (CERP), but has been concerned for several years about the growth and management of this program. The Committee has provided \$1,300,000,000 for CERP, which is the full amount authorized by the House-passed fiscal year 2010 National Defense Authorization bill and is \$200,000,000 below the administration's request. Of the funds provided for CERP, the Committee bill withholds \$500,000,000 pending completion of a

thorough review of CERP and submission of a report to the congressional defense committees. The required report is described in detail in title IX of this report.

The bill includes many reductions to operations and maintenance, procurement, and research and development programs. The Committee made reductions to some programs because they were funded in the recently passed Supplemental Appropriations Act, 2009. Some programs were reduced because assumptions, such as fuel prices, have changed since the budget request was finalized. The Committee also reduced funding to some programs because their schedules have been delayed or new programmatic decisions have been made by the Department of Defense.

The Constitution states that “No money shall be drawn from the treasury, but in consequence of appropriations made by law,” and this bill carries out that most important Congressional duty. The Committee conducted months of oversight hearings, briefings and detailed inquires. These led directly to the recommendations contained in this bill and report. In some cases, the Committee has reduced funding, set limitations on the use of funding, required reports from the Executive Branch, and in some instances, the Committee has increased funding for programs which will improve America’s national security.

TERMINATIONS, REDUCTIONS AND OTHER SAVINGS

In order to invest in the critical priorities identified in this bill, and in an effort to build an economy on a solid foundation for growth and put the Nation on a path toward prosperity, the Committee has proposed herein a number of program terminations, reductions and other savings from the fiscal year 2009 level totaling over \$50,000,000,000. In addition, approximately \$15,000,000,000 in other program terminations, reductions and other savings from the budget request are recommended. These adjustments, no matter their size, are important to setting the right priorities within the spending allocation, for getting the deficit under control, and creating a government that is as efficient as it is effective.

ADMINISTRATIVE FEES

The Committee is concerned with the varying percentages, retained by the Department for administrative fees from contracts for the procurement of goods or services. While the Committee understands the need to retain these funds, it expects the process to be implemented in a standardized and universal fashion. Therefore, the Committee directs that for contracts in the amount greater than the simplified acquisition threshold, the Secretary of Defense may not retain more than five percent of the funds appropriated for administrative fees, except if the service acquisition executive concerned approves the retention of more than five percent. Such exemptions shall be reported to the Committees on Appropriations of the House of Representatives and the Senate no later than 30 days after such withhold.

DEPARTMENT OF THE ARMY ANTIDEFICIENCY ACT VIOLATIONS

The Committee remains concerned about a potential Antideficiency Act (ADA) violation in the fiscal year 2008 Military Personnel, Army (MPA) account. In particular, the Committee believes that reprogramming request fiscal year 09–05 for the MPA account which was submitted after the account had closed may represent a violation of the ADA. Accordingly, the Committee directs the Government Accountability Office (GAO) to determine whether the Army violated the ADA in its fiscal year 2008 MPA account. The GAO should determine whether: (1) the Army had sufficient funds in the account at all times to cover special pay and bonuses for which it had committed to pay; and (2) whether the Army's process for estimating the cost of Permanent Change of Station (PCS) moves and the process for recording obligations for PCS moves in fiscal year 2008 satisfied the documentation requirements in the GAO's Policy and Procedures Manual for Guidance of Federal Agencies, and provided a reasonable basis for estimating PCS payments.

The Committee is also concerned that the Army does not follow Department of Defense regulations for conducting ADA investigations, particularly for initiating a Preliminary Review to serve as an initial screen to determine whether a formal investigation is warranted. The Committee is aware of several instances in which the Army conducted informal reviews, with the tacit concurrence of the Office of the Secretary of Defense General Counsel's office, to determine whether a Preliminary Review was warranted. It appears to the Committee that the Army has substituted an informal process, one that generates no written documentation, for the formal process required by Department of Defense regulations of a Preliminary Review. Therefore, the Committee directs the Secretary of the Army to submit a report of the Army's compliance with the Department's ADA regulations, mainly with regard to substituting informal reviews for more rigorous requirements of a Preliminary Review. The Secretary's report should review all allegations of possible ADA violations over the last five years, and the actions, if any, taken to resolve the allegation. The report shall be provided to the Committees on Appropriations of the House of Representatives and the Senate within 120 days of enactment of this Act.

WOUNDED, ILL AND INJURED (WII)

The Committee recommendation includes a total of \$2,174,300,000 for the Wounded, Ill and Injured (WII) program. The funding is provided in the following accounts:

Military Personnel Accounts:	
Military Personnel, Army:	
Army special pay, separation pay, bonuses, and WTU salaries	\$217,100,000
Military Personnel, Navy:	
Navy special pay, separation pay, and bonuses	1,100,000
Military Personnel, Marine Corps:	
Marine Corps special pay and separation pay	3,300,000
Military Personnel, Air Force:	
Air Force special pay and separation pay	12,400,000
Total, Military Personnel	233,900,000

Operation and Maintenance:	
Operation and Maintenance, Army:	
Army Medical Action Plan Operational Cost	66,100,000
Warrior in Transition Unit SRM Costs	90,200,000
Operation and Maintenance, Navy:	
Navy Safe Harbor requirements	3,500,000
Operation and Maintenance, Marine Corps:	
Marine Corps Wounded Warrior requirements	14,200,000
Operation and Maintenance, Air Force:	
Air Force Wounded Warrior requirements	9,400,000
Operation and Maintenance, Defense-Wide (OSD):	
Transition, Policy and Care Coordination Directorate	37,000,000
Operation and Maintenance, Defense-Wide (DHRA):	
Integrated Program Office	4,600,000
Sexual Assault Prevention and Response Office	22,000,000
Operation and Maintenance, Air Force Reserves:	
Air Force Reserve requirements	300,000
Operation and Maintenance, Army National Guard:	
Army National Guard requirements	5,000,000
Operation and Maintenance, Air National Guard:	
Air National Guard requirements	1,300,000
Wounded, Ill and Injured Senior Oversight Committee Re- quirements:	900,000
Total, Operation and Maintenance	254,600,000
Procurement, Defense-Wide:	
Wounded, Ill and Injured Senior Oversight Committee Re- quirements	1,100,000
Total, Procurement, Defense-Wise	1,100,000
Research, Development, Test and evaluation, Defense-Wide:	
Wounded, Ill and Injured Senior Oversight Committee Re- quirements	1,600,000
Total, Research, Development, Test and Evaluation	1,600,000
Defense Health Program:	
Operation and Maintenance:	
Traumatic Brain Injury and Psychological Health (TBI/PH)	650,100,000
Enhanced Care and Support for WII	639,900,000
Procurement:	
Enhanced Care and Support for WII	14,900,000
Research, Development, Test and Evaluation:	
TBI/PH	372,200,000
RDT&E—Defense Center of Excellence (non TBI/PH)	6,100,000
Total, Defense Health Program	1,683,200,000

FUNDING INCREASES

The Committee directs that the funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

COMMITTEE RECOMMENDATIONS BY MAJOR CATEGORY

MILITARY PERSONNEL

In title I of the bill, the Committee recommends a total of \$122,378,016,000 for active, Reserve and National Guard military personnel, a decrease of \$2,886,926,000 below the budget request, and an increase of \$7,934,126,000 above the fiscal year 2009 enacted level. The Committee has provided \$364,000,000 above the request to increase basic pay for all military personnel by 3.4 percent, effective January 1, 2010. This represents an increase of 0.5 percent over the President's request. The Committee also recommends full funding to support the requested end strength levels for active duty and Selected Reserve personnel. As part of its continuing effort to end the practice of "stop loss", the Committee rec-

ommends an additional \$8,300,000 in a legislative provision to compensate the last group of military personnel who will be subject to this practice, which the Department has pledged to end in fiscal year 2010.

OPERATION AND MAINTENANCE

In title II of the bill, the Committee recommends a total of \$154,176,741,000 for operation and maintenance support to the military services and other Department of Defense entities, a decrease of \$2,267,463,000 from the fiscal year 2010 budget request, and an increase of \$1,227,036,000 above the amount appropriated for fiscal year 2009. The Committee's recommendation includes increases in funding for operational training and peacetime operations in fiscal year 2010 over the level enacted in fiscal year 2009. The recommended levels will robustly fund operational training programs in fiscal year 2010. Requests for unit and depot level maintenance; facility sustainment, restoration and maintenance; and base operations support program funding have been fully supported. The Committee has also provided additional funds for full spectrum readiness training, more irregular warfare training, and family advocacy programs. The Committee also adjusts funding for contracted services and insourcing in fiscal year 2010.

PROCUREMENT

In title III of the bill, the Committee recommends a total of \$104,837,809,000 for procurement.

Major initiatives and modifications include:

\$326,040,000 for the procurement of 54 Light Utility Helicopters, the same as the President's request, and an increase of 10 helicopters above fiscal year 2009.

\$1,258,374,000 for the procurement of 79 UH-60 Blackhawk Helicopters, the same as the President's request.

\$847,087,000 for the procurement of 26 CH-47 Chinook Helicopters. The recommendation reduces the number of funded aircraft by one helicopter and \$35,000,000 based upon an additional aircraft provided in the Supplemental Appropriations Act, 2009.

\$293,617,000 for the procurement of 2,628 Guided Multiple Launch Rocket System Rockets, the same as the President's request.

\$613,596,000 for the procurement of additional Stryker vehicles, safety and survivability efforts in the Stryker fleet, and for production base sustainment. The recommendation is \$225,000,000 above the President's request.

\$965,522,000 for the procurement of Family of Medium Tactical Vehicles, a reduction of \$193,000,000 below the President's request for schedule delays.

\$786,566,000 for the procurement of Family of Heavy Tactical Vehicles, a reduction of \$26,352,000 due to funds requested ahead of need.

\$1,611,837,000, the President's request, for the procurement of 22 EA-18G Growler electronic attack aircraft.

\$1,663,968,000, for the procurement of 18 F/A-18E/F Super Hornet Tactical aircraft and economic order quantity equipment for a

future multi-year procurement, \$603,000,000 above the President's request.

\$609,801,000 for the procurement of UH-1Y/AH-1Z Helicopters. The request of \$709,801,000 has been reduced by \$100,000,000 based upon additional aircraft provided in the Supplemental Appropriations Act, 2009.

\$5,643,878,000 for the procurement of 28 F-35 Lightning Aircraft, 14 Short Take-off and Vertical Landing variants for the Marine Corps, 4 Carrier variants for the Navy, and 10 Conventional variants for the Air Force, \$532,000,000 below the President's request.

\$15,811,434,000 for the procurement of 10 Navy ships including one DDG-51 Guided Missile Destroyer, one SSN-774 Attack Submarine, four Littoral Combat Ships, two Intra-theater Connector Ships and 2 T-AKE Auxiliary Dry Cargo/Ammunition Ships. Additionally, this funding provides for the final increments of funding for the CVN-78 Aircraft Carrier, the third DDG-1000 Guided Missile Destroyer, and the tenth LPD-17 Amphibious Transport Dock.

\$368,800,000 for the advance procurement of 12 F-22A Raptor aircraft.

\$903,223,000 for the procurement of five C/HC/MC-130J aircraft and advance procurement for 20 C/HC/MC-130J aircraft.

\$319,050,000 for the procurement of eight C-27J Joint Cargo Aircraft.

\$2,643,101,000 for the procurement of 30 MV-22 and five CV-22 Osprey aircraft.

\$275,118,000 for the procurement of two Global Hawk unmanned aerial vehicles, \$282,000,000 below the President's request.

\$489,469,000 for the procurement of 24 MQ-9 Reaper unmanned aerial vehicles.

\$241,200,000 for the procurement of five HH-60M helicopters and modifications to the existing HH-60G fleet which was not included in the President's request.

\$1,351,015,000 for the procurement of three Evolved Expendable Launch Vehicles, \$55,690,000 above the President's request.

\$626,671,000 for Wideband Global System, \$425,000,000 above the President's request.

\$1,843,475,000, the President's request, for the procurement of a fourth Advanced Extremely High Frequency communications satellite system.

\$589,023,000, the President's request, for the procurement of Theater High Altitude Area Defense system and Standard Missile-3.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

In title IV of the bill, the Committee recommends a total of \$80,237,955,000 for research, development, test and evaluation.

Major initiatives and modifications include:

\$248,463,000, the President's request, for the continued development of electronic warfare devices.

\$2,342,042,000 for the continued development of the restructured Future Combat Systems Program. The recommendation is \$211,000,000 below the President's request, due to excessive termi-

nation liability, and \$1,008,509,000 less than the fiscal year 2009 appropriated amount.

\$569,182,000 for the continued development of the Patriot/MEADS Combined Aggregate Program. The recommendation is the same as the President's request.

\$288,076,000 for the Aerostat Joint Program Office, a reduction of \$72,000,000 below the President's request due to a schedule delay of approximately 12 months in the Joint Land Attack Cruise Missile Defense Elevated Netted Sensor system development and demonstration.

\$387,517,000, the President's request, to initiate the development of the replacement for the Ohio class ballistic missile submarine.

\$362,557,000, for the continued development of the E-2D Advanced Hawkeye aircraft.

\$876,374,000, the President's request, for the continued development of the Joint Tactical Radio System.

\$539,053,000, the President's request, for the continued development of the DDG-1000 Guided Missile Destroyer.

\$485,240,000 to operationalize and incorporate the five VH-71 Presidential Helicopters into the current fleet, \$400,000,000 above the President's request.

\$4,029,351,000 for the continued development of the F-35 Lightning Joint Strike Fighter aircraft, \$430,000,000 above the President's request.

\$1,182,417,000 for the continued development of the Multi-mission Maritime Aircraft, \$20,000,000 above the President's request.

\$39,169,000 for the Third Generation Infrared Satellite, \$104,000,000 below the President's request.

\$389,400,000 for the Global Positioning System III, operational control segment (OCX), \$97,400,000 below the President's request.

\$464,335,000, the President's request, for continued development of the Advanced Extremely High Frequency communications satellite system.

\$45,000,000 for the Space Fence, \$45,200,000 below the President's request.

\$122,000,000 for the Space Based Space Surveillance System, \$55,100,000 below the President's request.

No funding for the National Security Space Office, \$10,600,000 below the President's request.

No funding for the High Integrity Global Positioning System, \$59,100,000 below the President's request.

\$526,442,000, the President's request, for continued development of the Space Based Infrared System High satellite system.

\$3,048,054,000 for the Defense Advanced Research Projects Agency (DARPA), a reduction of \$200,000,000 below the President's request due to a chronic underexecution within this account.

\$202,434,000 for Israeli Cooperative Program. The recommendation is \$82,800,000 above the President's request.

\$50,504,000, the President's request for BMD European Capability.

\$638,856,000, the President's request for BMD Sensors Capability.

DEFENSE HEALTH PROGRAM

The Committee recommends a total of \$29,891,109,000 for the Defense Health Program to support world-wide medical and dental services for active forces and other eligible beneficiaries, \$1,987,946,000 above the fiscal year 2010 budget request and \$4,065,277,000 above the amount appropriated for fiscal year 2009.

Funding is included to support Military Health System costs associated with the Army and Marine Corps permanent end strength increases for Ground Forces Augmentation requirements. The bill also includes funding for enduring Traumatic Brain Injury and Psychological Health and Wounded, Ill and Injured requirements.

To address the challenges of the Defense Health Program, the Committee recommends the following:

Private Sector Care	\$521,000,000
Traumatic Brain Injury and Psychological Health Research	500,000,000
Peer-Reviewed Spinal Cord Research	15,000,000
Centers of Excellence at Walter Reed/Bethesda	40,000,000
Initial Outfitting and Equipment Items	53,000,000
Peer-Reviewed Orthopedic Research	30,000,000
Federal Pricing Rebates	760,716,000

OVERSEAS DEPLOYMENT AND OTHER ACTIVITIES

In title IX of the bill, the Committee recommends a total of \$128,246,285,000 for overseas deployment and other activities.

Major initiatives and modifications include:

Military Personnel. The Committee recommends a total of \$16,224,549,000 for military personnel in title IX of the bill. To more accurately reflect the significant Military Personnel costs of U.S. Overseas Contingency Operations, the Committee recommendation has transferred some funding from title I of this Act into title IX. The Committee recommends a transfer of \$56,383,000 in Special Pays for Military Personnel, Army; \$28,116,000 in Special Pays for Military Personnel, Navy; \$34,748,000 in Special Pays for Military Personnel, Marine Corps; and \$78,961,000 in Special Pays for Military Personnel, Air Force. In addition, the Committee recommends an undistributed transfer of \$1,390,000 for Military Personnel, Army; \$419,000,000 for Military Personnel, Navy; \$292,000,000 for Military Personnel, Marine Corp; and \$331,000,000 for Military Personnel, Air Force.

Operation and Maintenance. The Committee recommends a total of \$88,006,525,000 for operation and maintenance funding for overseas deployments which is a reduction of \$1,065,041,000 from the request. The recommendation includes shifting funds such that the Department can accommodate expected changes to requirements given the anticipated withdrawal of combat troops from Iraq in 2010.

Procurement. The Committee recommends a total of \$20,384,128,000 for procurement in title IX of the bill.

\$250,000,000 for the procurement of MQ-1 Unmanned Aerial Vehicles, the same as the President's request.

\$695,000,000 for the procurement of Common Remotely Operated Weapons Stations, an increase of \$100,000,000 above the President's request.

\$1,251,038,000 for the procurement of High Mobility Multi-Purpose Wheeled Vehicles, the same as the President's request.

\$461,657,000 for the procurement of Family of Medium Tactical Vehicles, the same as the President's request.

\$520,750,000 for the procurement of Family of Heavy Tactical Vehicles, a reduction of \$102,480,000 below the President's request due to schedule delays.

\$72,000,000 for the procurement of one C-130J aircraft.

\$3,060,000,000 for the Mine Resistant Protected Vehicle Fund. The recommendation of \$5,456,000,000 has been reduced by \$1,850,000,000 based upon additional funding provided in the Supplemental Appropriations Act, 2009.

Defense Health Program. The Committee recommends \$1,155,235,000 for the Defense Health Program in operation and maintenance funding that will provide medical and dental services to active forces (above the baseline) and mobilized Reserve Components, and their family members. Supplemental funding also provides care for combat injuries and other additional support requirements including communications, telemedicine, public health support, and additional blood units and products for casualties and post deployment health assessments.

CLASSIFIED PROGRAMS

As described elsewhere in this report, the Committee's budget reviews are published in a separate, detailed and comprehensive classified annex. Adjustments to the classified programs are addressed in the classified annex accompanying this report.

FORCES TO BE SUPPORTED

DEPARTMENT OF THE ARMY

The fiscal year 2010 budget request is designed to support the Army's continuing transformation of its Operating Forces to a modular design. Completing modular transformation is indicative of a unit's completion of initial reorganization and re-equipping to a modular design and is not an indicator of readiness (fully manned, trained, or equipped) or availability for deployment. Units are currently manned and equipped in accordance with the Army Force Generation Model which prioritizes personnel fill and equipment fielding in a resource constrained environment to ensure deploying units have all equipment required to accomplish their assigned missions.

By the end of fiscal year 2010, the Active Component Modular Force will include five Army Service Component Command headquarters and one Army Component headquarters assigned to U.S. Africa Command, two Corps headquarters, nine Division headquarters, 42 Brigade Combat Teams and 36 Multi-Functional Support Brigades. Additionally, the Active Component will have begun modular transformation of one more Brigade Combat Team. Active Component structure yet to be transformed to a modular design includes one Corps headquarters, one Division headquarters, three Brigade Combat Teams and four multi-functional Support Brigades. By the end of fiscal year 2010, the Army Modular Force structure in the Army National Guard and the U.S. Army Reserve

will include eight Army National Guard division headquarters, 7 Brigade Combat Teams, and 56 multi-functional Support Brigades (44 Army National Guard and 12 Army Reserve). Additionally, the Army National Guard will have continued the conversion of 21 Brigade Combat Teams, completing transformation of the second set of seven Brigade Combat Teams in fiscal year 2010. Reserve Component forces yet to be transformed include only the final four Army National Guard multi-functional support brigades. These forces are the key elements of the minimum capabilities needed to execute the National Military Strategy and to meet enduring defense needs of the Global Force Demand. By fiscal year 2013, the Army Modular forces will include five Army Service Component Command headquarters, one Army Component headquarters assigned to U.S. Africa Command in the Active Component, three Corps headquarters, eighteen Division headquarters (ten Active Component and eight Army National Guard), 73 Brigade Combat Teams (45 Active Component and 28 Army National Guard) and 100 multi-functional Support Brigades (40 Active Component, 48 Army National Guard, and 12 U.S. Army Reserve).

A summary of the major forces follows:

	Fiscal year		
	FY08	FY09	FY10
Active Component Forces:			
Headquarters (Legacy Structure):			
Army HQs	1	0	0
Corps HQs	4	2	1

DEPARTMENT OF THE NAVY

The fiscal year 2010 budget request supports battle forces totaling 287 ships at the end of fiscal year 2010, including 14 fleet ballistic missile submarines, 11 aircraft carriers, 17 Support ships, nine Reserve ships, various other battle forces ships, 1,589 Navy/Marine Corps tactical/anti-submarine warfare aircraft, 654 Undergraduate Training aircraft, 474 Fleet Air Training aircraft, 281 Fleet Air Support aircraft, 273 Reserve aircraft and 298 in the pipeline.

A summary of the major forces follows:

	Fiscal year		
	2008	2009	2010
Strategic Forces	14	14	14
Fleet Ballistic Missile Submarines	14	14	14
General Purpose	282	287	287

Fulltime Support	2,140	2,261	2,261
Marine Corps Reserves Total	37,523	39,600	39,600

DEPARTMENT OF THE AIR FORCE

The fiscal year 2010 Air Force budget request is designed to support active, guard, and reserve forces, including 63 combat coded fighter and attack squadrons and nine combat coded strategic bomber squadrons. The Inter-Continental Ballistic Missile force maintains 495 launch facilities/control centers with 450 Minuteman missiles. The budget also supports our critical airlift mission, including 23 active duty airlift squadrons. To accomplish the Air Force mission, the fiscal year 2010 budget supports a total force end strength of 507,900.

A summary of the major forces follows:

	Fiscal year		
	2008	2009	2010
USAF Fighter and Attack Squadrons (Active, ANG, AFRC)	75	71	63
Active	40	38	31
ANG	32	30	29
AFRC	3	3	3
Strategic Bomber Squadrons (Active)	8	8	9
Strategic Bomber Squadrons (AFRC)	1	1	0
Flight Test Units (DT and OT Units with assigned aircraft)	12	12	12*
Fighter	9	9	9*
Bomber	3	3	3
ICBM Operational Launch Facilities/Control Centers	495	495	495
ICBM Missile Inventory	450	450	450
USAF Airlift Squadrons (Active)			
Strategic Airlift Squadrons	15	15	15

Total Active Airlift Squadrons	24	23	23
Total Air Force Aircraft Inventory	5,688	5,566	5,292

*Numbers of Squadrons above reflect combat coded units only (i.e. no training or test info except where noted).

End strength	FY08	FY09	FY10
Active Duty	327,379	332,748	331,700
Reserve Component	175,244	174,156	176,200
Air National Guard	107,679	106,756	106,700
Air Force Reserve	67,565	67,400	69,500

TITLE I

MILITARY PERSONNEL

The fiscal year 2010 budget request for programs funded in title I of the Committee bill, Military Personnel, is \$125,264,942,000 in new budget authority. These appropriations finance basic, incentive and special pays for active duty, Reserve and National Guard personnel, and Academy cadets; retired pay accrual; housing, subsistence and other allowances; recruitment and retention initiatives, permanent change of station costs; and other military personnel costs such as survivor, unemployment, and education benefits. The table below summarizes the budget estimates and Committee's recommendations.

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

RECAPITULATION			
MILITARY PERSONNEL, ARMY.....	41,312,448	39,901,547	-1,410,901

	=====	=====	=====

MILITARY PERSONNEL OVERVIEW

The Committee recommendation provides \$122,378,016,000 for Military Personnel accounts and continues to increase funding for military pay and allowances, recruitment and retention initiatives, and overall quality of life programs for active duty, Reserve and National Guard personnel. The budget request proposes to increase basic pay for all personnel by 2.9 percent. The Committee recommendation provides approximately \$364,321,000 above the request, to increase basic pay for all military personnel by 3.4 percent, effective January 1, 2010. This recommendation also fully supports the resource requirements needed to maintain the requested end strength levels for fiscal year 2010. While the Committee is concerned about the continued significant growth of Military Personnel costs for all the Services, the Committee continues to be supportive of any programs intended to enhance the morale and quality of life for our military personnel and their families.

SUMMARY OF END STRENGTH

The fiscal year 2010 budget request includes a decrease of 2,731 in total end strength for the active forces and an increase of 844 in end strength for the selected reserve above the fiscal year 2009 authorized levels. The following tables summarize the Committee recommendations for end strength levels, both in the aggregate and for each active and Selected Reserve component. Explanations of changes from the budget request appear later in this section.

OVERALL ACTIVE END STRENGTH

Fiscal year 2009 estimate	1,412,731
Fiscal year 2010 budget request	1,410,000
Fiscal year 2010 recommendation	1,410,000
Compared with fiscal year 2009	-2,731
Compared with fiscal year 2010 budget request

OVERALL SELECTED RESERVE END STRENGTH

Fiscal year 2009 estimate	843,656
Fiscal year 2010 budget request	844,500
Fiscal year 2010 recommendation	844,500
Compared with fiscal year 2009	+844
Compared with fiscal year 2010 budget request

SUMMARY OF MILITARY PERSONNEL END STRENGTH

	Fiscal Year 2010		
	Budget Request	Recommendation	Change from Request
Active Forces (End Strength)			
Army	547,400	547,400
Navy	328,800	328,800
Marine Corps	202,100	202,100
Air Force	331,700	331,700
Total, Active Forces	1,410,000	1,410,000	0
Guard and Reserve Forces (End Strength)			
Army Reserve	205,000	205,000
Navy Reserve	65,500	65,500
Marine Corps Reserve	39,600	39,600
Air Force Reserve	69,500	69,500
Army National Guard	358,200	358,200

	Fiscal Year 2010		
	Budget Request	Recommendation	Change from Request
Air National Guard	106,700	106,700
Total, Selected Reserve	844,500	844,500	0
Total, Military Personnel	2,254,500	2,254,500	0

FULL-TIME SUPPORT STRENGTHS

There are four categories of full-time support in the Guard and Reserve components: civilian technicians, Active Guard and Reserve (AGR), non-technician civilians, and active component personnel.

Full-time support personnel organize, recruit, train, maintain and administer the Reserve components. Civilian (Military) technicians directly support units, and help units maintain readiness and meet the wartime mission of the services.

The following table summarizes Guard and Reserve full-time support end strengths:

SUMMARY OF GUARD AND RESERVE FULL-TIME SUPPORT

	Fiscal Year 2010		
	Budget Request	Recommendation	Change from Request
Army Reserve:			
AGR	16,261	16,261
Technicians	8,154	8,154
Navy Reserve:			
AR	10,818	10,818
Marine Corps Reserve:			
AR	2,261	2,261
Air Force Reserve:

Technicians	10,417	10,417
Army National Guard:			
AGR	32,060	32,060
Technicians	26,901	26,901
Air National Guard:			
AGR	14,555	14,555
Technicians	22,313	22,313
Totals:			
AGR/AR	78,851	78,851
Technicians	67,785	67,785
Total Full-Time Support	146,636	146,636

CASH INCENTIVES

The Committee is concerned with the recruiting and retention cash incentives used by the Department of Defense. The Committee believes the Department has initiated programs that rely solely on cash incentives when enlisting new recruits and retaining current personnel. While these cash incentives have enhanced recruiting and retention efforts and helped the Military Services meet their end strength goals, the Committee is extremely concerned about the growth in both the number and size of these cash incentives. The Committee believes that the Military Services have increased both the size and scope of these cash incentives without the benefit

of any performance metrics and without considering the effect of other increases in compensation. Accordingly, the Committee directs the Secretary of Defense to provide a report to the congressional defense committees that describes these cash incentives. Specifically, the report should include the number of cash incentives used for recruiting and retention, the average amount provided for each Military Occupational Specialty (MOS), and the length of contract when these incentive options are accepted by recruits and those reenlisting. This report shall be submitted not later than February 1, 2010. If this report is not submitted to the congressional defense committees by February 1, 2010, the Secretary of Defense shall, not later than the 5th day of each month following the due date, provide updates as to the status of this report until it is submitted to Congress.

BOOTS-ON-THE-GROUND AND COST OF WAR REPORTING

The Committee believes there is a continuing need for accurate and timely information on actual/estimated costs and deployment numbers associated with Operations Iraqi Freedom and Enduring Freedom (OIF/OEF). Therefore, not later than the 10th day of each month following the enactment of this Act, the Committee directs the Secretary of Defense to submit to the congressional defense committees:

(1) a “Boots-on-the-Ground” report providing, for the most recent month for which data is available, the total number of troops deployed in support of OIF and OEF, delineated by service and component (active, Reserve, or National Guard); and a monthly estimate for the three-month period following the date such report is submitted, which provides an estimate of the total number of troops expected to be deployed in support of OIF and OEF, further delineated by service and component (active, Reserve, or National Guard). This report may be submitted in classified form; and

(2) a monthly report of funds obligated in support of OIF and OEF covering the most recent period for which data are available, by month and fiscal year. This report shall be delineated and summarized by operation, by military service, component (active, Reserve, or National Guard), and by appropriations account.

INTERNAL BUDGETING CONTROLS FOR THE DEPARTMENT OF THE ARMY

The Committee is dismayed that the Department of the Army continues to struggle with obligations and expenditures of incentive pays, bonuses, subsistence-in-kind and permanent change of station (PCS) moves. The Committee believes that the Army lacks effective management processes and financial controls to ensure an accurate level of funding is requested and available to meet its commitments. Furthermore, the Committee is concerned that there is poor communication between those responsible for personnel policy decisions and those responsible for ensuring sufficient funding is available to cover the ultimate cost of these decisions. The Committee believes that the Army’s senior management is not conducting sound financial management of the Army personnel accounts, which has resulted in inaccurate budget estimates. The Committee believes that if this situation continues, the Army will be unable to accurately forecast costs and will continue to face sig-

nificant shortfalls during the year of execution. Accordingly, the Committee recommends that the Department of the Army use the Department of the Navy's approach to managing the military personnel budget. For example, the Navy places significant reliance on communication between the Navy Budget Office and program managers. The Navy's budget and program management officials discuss funding and management issues each month and a scheduled mid-year review is reported to the Navy's senior leadership which allows for refining estimates and phased planning, and a proactive financial control mechanism. Furthermore, the Committee understands that the Deputy Chief of Naval Operations for Total Force has staff from the Navy Budget Office embedded in its organization and a memorandum from the Assistant Secretary of the Navy for Financial Management, stating no personnel policy changes will be considered without concurrence from the Budget Office.

ACCURACY OF OBLIGATIONS

The Committee recommends a reduction of \$1,410,901,000 to the military personnel budget request, based on the Government Accountability Office analysis of prior year unexpended military personnel account balances. The Services' accounting data continue to show a pattern of underexecution of appropriated funds, and therefore, the Committee believes the military personnel budget requests for fiscal year 2010 are overstated and can be reduced.

MILITARY PERSONNEL, ARMY

Fiscal year 2009 appropriation	\$36,382,736,000
Fiscal year 2010 budget request	41,312,448,000
Committee recommendation	39,901,547,000
Change from budget request	- 1,410,901,000

The Committee recommends an appropriation of \$39,901,547,000 for Military Personnel, Army. The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

TITLE II

OPERATION AND MAINTENANCE

The fiscal year 2010 budget request for programs funded in title II of the Committee bill, Operation and Maintenance, is \$156,444,204,000 in new budget authority. These appropriations finance the costs of operating and maintaining the Armed Forces, including the Reserve Components and related support activities of the Department of Defense. Included is pay for civilians, services for maintenance of equipment, fuel, supplies, and spare parts for weapons and equipment. Financial requirements are influenced by many factors, including force levels such as the number of aircraft squadrons, Army and Marine Corps divisions, installations, military personnel strength and deployments, rates of operational activity, and the quantity, complexity and age of equipment such as aircraft, ships, missiles and tanks.

The table below summarizes the budget estimates and the Committee's recommendations.

INVENTORY OF CONTRACT SERVICES

The amounts appropriated for Active Forces Operation and Maintenance to the Departments of the Navy and the Air Force, and the Defense Components in title II of this Act have been reduced by \$550,000,000 in a general provision from the amount requested. This reduction is directly attributed to the negligence of the Departments of the Navy and the Air Force, and the Defense Components to comply with the requirement of 10 U.S.C. 2330, Section 807 of the 2008 National Defense Authorization Act, codified in 10 U.S.C. 2330a that requires the Secretary of Defense to submit to Congress (and make available to the public) an annual inventory of activities performed pursuant to contracts for services for or on behalf of the Department of Defense; and the Secretary of the military department or agency head responsible for activities in the inventory to conduct certain review and planning on the basis of the inventories. The Department of the Army is the only defense component which has complied with the law. The Committee strongly recommends that the Departments of the Navy and the Air Force, and the Defense Components comply with the requirement of 10 U.S.C. 2330a as quickly as possible.

COMMON ACCESS CARDS

Common Access Cards (CAC) permit card holding personnel access to Department of Defense installations, resources, and sensitive information. During a February 2009 Defense Subcommittee hearing on outsourcing, the Department of Defense (DoD) Inspector General (IG) testified that:

- The Department had outsourced the inherently governmental function of vetting personnel to receive the cards;
- Contractors performing this function issued cards to other contractors; and
- Nearly 212,000 contractors had email addresses that misclassified them as U.S. Government personnel, creating a potential security risk.

The Committee directs the Secretary of Defense and the Secretary of the Army to reconsider the practice of contracting out the task of issuing Common Access Cards and take immediate steps to improve access control to Department of Defense facilities around the world. Additionally, the Committee directs that within 90 days of enactment of this Act the Secretary of Defense submit a report to the congressional defense committees and to the Department of Defense Inspector General that outlines the actions taken and planned regarding insourcing efforts for the vetting and issuing of the Common Access Card and improvement of access control to facilities.

ADVISORY AND ASSISTANCE SERVICES GROWTH

The Committee was pleased to note that the Administration recently announced a government-wide reform of contracting which is consistent with the Committee's recent direction to the Department of Defense. The Administration plans to strengthen oversight, end unnecessary no-bid and cost-plus contracts, maximize the use of competitive procurement processes, and clarify rules that dictate

when outsourcing is or is not appropriate. The Department's budget request largely reflects these initiatives. However, the request was not clear regarding the adjustments in the budget for contract services and civilian personnel pay because it did not display object class information by appropriation account. This information was absent from the Department's fiscal year 2010 budget. Following the submission of a special detailed data set, the Committee confirmed that the Department's budget request did reflect insourcing. The Committee directs that the budget request and the Appendix to the Budget of the U.S. government for fiscal year 2011 and thereafter contain the object class detail by appropriation account to sufficiently describe the budget request.

The Committee found that the Advisory and Assistance Services line of the Operation and Maintenance, Army, appropriation grows by \$50,900,000 from fiscal year 2009 to fiscal year 2010. The Committee finds that this growth is inconsistent with the insourcing goals and adjusts the budget accordingly.

ARMY EXPERIENCE CENTER AND VIRTUAL ARMY EXPERIENCE

The Army's national advertising campaign generates about 8,000 of the approximately 80,000 contracts required annually to maintain end strength. In fiscal year 2009 this came at a cost of \$282,100,000. Recognizing that the payback for the investment made is relatively limited, the Army is seeking alternative means to boost recruiting results given limited resources. The Army Experience Center (AEC) and the Virtual Army Experience (VAE) are both elements of this effort, and have been part of the Army's recruiting and advertising campaign over the past 10 months.

In addition to the potential efficiencies of the AEC and VAE, a significant part of the Army's rationale for initiating these centers is to overcome the difficulty in accessing and recruiting in urban population centers that historically present challenges to recruiters. The Committee recognizes the value of the AEC as both a recruiting station and as community center. However, the Committee has concerns about the both range and age-appropriateness of certain materials available at the AEC and VAE, and about the extent to which the Army appropriately handles information collected at these centers particularly with respect to individuals who are under recruiting age.

Accordingly, the Committee directs the Army to evaluate and report to the congressional defense committees within 180 days of enactment of this Act on the expected gains to be realized from the AEC and VAE. This should include, but not be limited to, the expected contribution to accessions of the AEC and VAE and the cost benefit compared to traditional recruiting and advertising campaigns. This report shall also provide information on safeguards to ensure that both AEC and VAE programs and activities comply with applicable law and policies in the handling of information from individuals below recruiting age.

COMBAT AIR FORCE RESTRUCTURE

The Committee is concerned with the lack of detail and analysis provided to the Congress regarding the Air Force's Combat Air Force restructure plan that would retire 248 legacy F-15, F-16 and

A-10 aircraft. Many of these same concerns regarding the proposed restructuring plan were expressed by the House-passed version of the fiscal year 2010 National Defense Authorization Act. The Committee directs that the reports stipulated in the House-passed version of the Fiscal Year 2010 Defense Authorization Act also be transmitted to the Defense Appropriations Committees. Particularly given these outstanding reports and the expected publication of the Quadrennial Defense Review in the coming year, the Committee is concerned that full implementation of the restructure may be premature.

Additionally, the Committee is concerned with the personnel costs and potential acquisition costs associated with the Air Force proposal to remove the training of F-15 pilots and related personnel from Tyndall Air Force Base. The Committee directs the Department to provide a cost benefit analysis of this proposal regarding Tyndall Air Force Base and Kingsley Field in Klamath Falls, Oregon no later than 180 days after enactment of this Act. The report shall include an analysis of factors impacting F-15 training quantity and quality at each location, to include training synergies, airspace access and availability. The report shall identify and explain the justification for where F-15 Basic Crew Chief Training, Air Control Squadron Training and Intelligence Formal Training will be established and maintained. The report shall include analysis on simulator and ancillary training access, expected effect on the quality and experience of the instructor base, future military construction requirements and special considerations and costs required due to the differing training environments and climatology at each base.

Moreover, the Committee requests that the Department identify airfields that share runways for both Air Force and commercial operations within the continental United States. The Committee requests that the Department include air force policy on and analysis of the training and operational mission impacts at bases with shared runways.

Additionally, the Committee directs an independent review by a Federally Funded Research and Development Center (FFRDC) on the impact of the restructure on the Nation's combat air forces.

The Committee directs the Secretary of the Air Force to provide the described reports no sooner than 180 days after enactment of this Act. The Committee further directs that no funds may be obligated on executing the Combat Air Force restructure until 180 days after submission to the congressional defense committees of all directed reports.

HISTORICAL BUDGET EXECUTION

The Government Accountability Office's analysis of historical budget execution trends shows consistent underobligation of funds in various subactivity groups in the operation and maintenance accounts. The accuracy of the analysis was confirmed with Department of Defense officials. Therefore, the Committee recommendation adjusts the budget request to be consistent with historical budget execution levels.

PEACETIME OPTEMPO

The Navy budget request includes an additional 23,000 F-18 flying hours in fiscal year 2010 beyond that planned in fiscal year 2009. The Air Force budget request includes an additional 396,235 active forces flying hours in fiscal year 2010 beyond that planned in fiscal year 2009. The Committee finds that given the expected continued wartime deployments, significant increases to peacetime operations are not realistically achievable. The Committee therefore has scaled back the growth to the OPTEMPO accounts.

READINESS

The Secretary of Defense has stated publically that the United States should not seek to eliminate national security risks through larger defense budgets, but rather that the Department of Defense must set priorities and consider tradeoffs and opportunity costs. However, it is not clear that this guidance has been followed in the Services' operation and maintenance requests, especially their requests for training resources. The Committee, therefore, recommends that the operation and maintenance budgets be rebalanced to support the highest priority readiness requirements that the Services currently face, rather than preparing for Cold War-era types of conflicts. Additionally, on December 1, 2008, the Deputy Secretary of Defense issued guidance elevating the importance of irregular warfare making it as strategically important as traditional warfare. The policy requires that the Department integrate irregular warfare concepts and capabilities into doctrine, organization, training, material, leadership, personnel and facilities. But this integration has not completely occurred. It appears that the Department has focused on scaling back traditional weapons systems such as the F-22 aircraft and DDG-1000 ship class, but has not addressed the air operations and underway training requirements changes associated with a focus on irregular warfare. In addition, the fiscal year 2010 budget request does not appear to be based on planning or programming. Two years ago, the Committee directed the Department to take sequential steps to plan adequately and then refine this plan into program and then budget-level detail. But the Department has yet to define or articulate a program for fiscal year 2011 or the future years. The Committee is concerned that the Quadrennial Defense Review may not result in a plan in time to shape the fiscal year 2011 budget request. Therefore, the Committee directs the Secretary of Defense to ensure that doctrine, organization, training, material, leadership, personnel and facilities are properly updated in accordance with the December 2008 guidance, and further directs that the fiscal year 2011 budget request be supported with a future years' program plan. Finally, the Committee recommends that the Secretary of Defense institute a process for assessing and prioritizing requirements and allocating resources which is supportive of thorough, deliberative program and budget review.

MILITARY TIRES

Following the direction in the Base Realignment and Closure Act of 2005, the Department of Defense implemented the Tire Com-

modity Management Privatization Initiative. This program, along with a previous Navy aircraft tire procurement contract, moved the supply, storage and distribution for all tires used by the Department from the Defense Logistics Agency to a single prime contractor. This contractor is in charge of procuring and distributing all military ground vehicle and aircraft tires throughout the world for the entire Department.

The Committee is pleased that the Department has dramatically reduced the cost and streamlined the process of delivering tires to the warfighter. However, the Committee believes that the Department must administer these contracts in a manner that maintains the U.S. industrial base for military tire manufacturing and future innovation as well as preserves competitive procurement for current and future tire requirements. The Committee also believes that having a single prime contractor who is also a tire manufacturer managing the program could result in a conflict of interest and place this contractor in an advantageous position with respect to competing for tire contracts.

The Committee directs the Secretary of Defense to award new military ground vehicle and aircraft tire management contracts when the base period of the current contracts expire. The new contracts, to include Navy aircraft tire contracts, will prohibit any tire manufacturer from acting as prime contractor for the management of the contract. Additionally, it shall require that there be an ongoing and transparent competition among qualified tire providers on a level playing field to ensure that the government gets the benefit of true price competition.

LIGHT ATTACK AIRCRAFT DEMONSTRATION

The Committee is aware that the Navy and Air Force are currently negotiating a Memorandum of Agreement to jointly conduct a demonstration program designed to provide information on the benefits of a light attack aircraft to the warfighter. The Committee understands that the Navy and Air Force anticipate reprogramming fiscal year 2010 funding for this purpose. The Committee contends that the Air Force program will constitute a new start and as such the Air Force and Navy are directed to use the prior approval reprogramming procedures for the new start notification and the source of funding. Additionally, the Committee is aware that the Navy and Air Force are planning to lease aircraft for use in the demonstration program. The Committee encourages the Department of Defense to conduct a full and open competition for the lease of the aircraft.

OPERATION AND MAINTENANCE REPROGRAMMINGS

The Committee continues to require the Department of Defense to submit the DD 1414, Base for Reprogramming Actions, for each of the fiscal year 2010 appropriation accounts within 60 days after the enactment of this Act. This provision prohibits the Department from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the Committees on Appropriations of the House of Representatives and the Senate.

The Committee directs that proposed transfers of funds between O-1 budget activities in excess of \$15,000,000 be subject to the normal prior approval reprogramming procedures. The Committee believes that such revisions are necessary given the unique nature of activities funded within the operation and maintenance appropriation; continuing concerns about force readiness, and recent budget execution within these accounts. Further, the Committee directs:

(1) with respect to service operation and maintenance accounts, that the Department shall submit prior approval reprogramming requests to the congressional defense committees for proposed transfers of funds in excess of \$15,000,000, to or from the levels specified for budget activities. In addition, the Department should follow prior approval reprogramming procedure for transfers in excess of \$15,000,000 out of the following budget subactivities:

Army:

- Maneuver units
- Modular support brigades
- Land forces operations support
- Force readiness operations support
- Land forces depot maintenance
- Base operations support
- Facilities Sustainment, Restoration and Modernization

Navy:

- Aircraft depot maintenance
- Ship depot maintenance
- Facilities Sustainment, Restoration and Modernization

Marine Corps:

- Depot maintenance
- Facilities Sustainment, Restoration and Modernization

Air Force:

- Primary combat forces
- Combat enhancement forces
- Combat communications

(2) with respect to the Operation and Maintenance, Defense-Wide account, that proposed transfers of funds to or from the levels specified for programs, projects or activities in excess of \$10,000,000 or 20 percent, whichever is less, shall be subject to prior approval reprogramming procedures. For purposes of this account, a program, project or activity shall mean any item for which a dollar amount is contained in an appropriations Act (including joint resolutions providing continuing appropriations), accompanying reports of the House of Representatives and Senate Committees on Appropriations, or accompanying conference reports and joint explanatory statements of the committee of conference or specifically identified in the supplemental material justifying the budget request to the Committees on Appropriations of the House of Representatives and the Senate.

OPERATION AND MAINTENANCE BUDGET EXECUTION DATA

The Committee directs the Department of Defense to continue to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than 45 days following the close of each quarter for the fiscal year, and should be provided for each O-1 budget activity, activity group,

and subactivity group for each of the active, defense-wide, Reserve and National Guard components. For each O-1 budget activity, activity group, and subactivity group, these reports should include the budget request and actual obligations; the Department of Defense distribution of unallocated congressional adjustments to the budget request; all adjustments made by the Department in establishing the Base for Reprogramming (DD form 1414) report, all adjustments resulting from below threshold reprogrammings; and all adjustments resulting from prior approval reprogramming requests.

INFORMATION OPERATIONS

The budget request includes nearly one billion dollars for Department of Defense information operations (IO) programs. The Committee has serious concerns about not only the significant amount of funding being spent on these programs, but more importantly, about the Department's assumption of this mission area within its roles and responsibilities. Much of the content of what is being produced, and certainly some of the largest cost drivers in these programs, is focused so far beyond a traditional military information operation that the term non-traditional military information operation does not justly apply. At face value, much of what is being produced appears to be United States Military, and more alarmingly non-military propaganda, public relations, and behavioral modification messaging. The Committee questions the effectiveness of much of the material being produced with this funding, the supposed efforts to minimize target audience knowledge of United States' Government sponsorship of certain production materials, and the ability of the Department to evaluate the impact of these programs.

The Committee also notes that the official budget justification materials for requested funding of this magnitude are woefully inadequate. In addition, the Department's response to attempts by the Committee to obtain a meaningful explanation of funding for these programs clearly indicates that Departmental oversight of these efforts is disorganized, and that a thorough understanding of their scope within the Department's leadership is incomplete. According to the Department's limited response for information on this funding, IO programs have grown at an enormous rate, from approximately \$9,000,000 in fiscal year 2005, to a staggering \$988,000,000 request for fiscal year 2010. The requested growth in these programs from fiscal year 2009 to fiscal year 2010 alone is just over \$200,000,000.

The Committee believes that the Department of Defense, and the Combatant Commands which drive the demand for information operations, need to reevaluate IO requirements in the context of the roles and missions of the United States Military along with consideration for the inherent capabilities of the military and the funding available to meet these requirements. In support of this evaluation, the Committee has determined that many of the ongoing IO activities for which fiscal year 2010 funding is requested should be terminated immediately. The programs for which funding is specifically denied are identified in the classified annex to this report. Accordingly, the Committee has reduced requested funding for infor-

mation operation programs in the various Service appropriations accounts in which they have been requested by a total of \$500,000,000. Of the remaining funds provided for information operations, the Committee directs that no funds shall be obligated or expended until 30 days after the Secretary of Defense submits a report to the Committees on Appropriations of the House of Representatives and the Senate on the Department's IO programs. This report should encompass the period from fiscal years 2005 through 2010 and include all Department of Defense information operation programs for which base budget, supplemental, or overseas contingency operation funds have been appropriated or requested. The report shall include: program strategies, target audiences, goals, and measures of effectiveness; budget exhibits at the appropriations account and sub-activity level; spend plans (including positions and other direct costs); and production and dissemination mechanisms and locations. The report shall also include an annex for the inclusion of necessary explanatory and supporting classified information. The Secretary shall submit this report in writing not later than 180 days after enactment of this Act.

OPERATION AND MAINTENANCE, ARMY

Fiscal year 2009 appropriation	\$31,207,243,000
Fiscal year 2010 budget request	31,274,882,000
Committee recommendation	30,454,152,000
Change from budget request	- 820,730,000

The Committee recommends an appropriation of \$30,454,152,000 for Operation and Maintenance, Army. The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST
50 OPERATION AND MAINTENANCE, ARMY			
100 BUDGET ACTIVITY 1: OPERATING FORCES

AFRICA PARTNERSHIP STATION

The Committee recommends an additional \$20,500,000 in Operation and Maintenance, Navy in support of maritime security capacity building in U.S. Africa Command's (AFRICOM) area of responsibility. Since November 2007, the U.S. Navy has led joint exercises, port visits, professional training and community outreach with the coastal nations of West Africa through the Africa Partnership Station (APS). The Committee commends the Navy's effort to increase the ability of our African partners to extend the rule of law out to sea and better combat illegal fishing, human smuggling, drug trafficking, oil theft and piracy. To increase the Navy's role in AFRICOM and ensure a more predictable, robust schedule of exercises under APS, the Committee has provided \$10,500,000 for APS—West for fiscal year 2010. The Committee also strongly supports AFRICOM's plan to carry out similar exercises on the east coast of Africa, and has provided an additional \$10,000,000 for APS—East.

OPERATION AND MAINTENANCE, MARINE CORPS

Fiscal year 2009 appropriation	\$5,519,232,000
Fiscal year 2010 budget request	5,536,223,000
Committee recommendation	5,557,510,000
Change from budget request	21,287,000

The Committee recommends an appropriation of \$5,557,510,000 for Operation and Maintenance, Marine Corps. The total amount recommended in the bill will provide the following program in fiscal year 2010:

FEE-FOR-SERVICE REFUELING

The Committee provides no funding for the fee-for-service refueling pilot program due to concerns with the lack of a validated requirement for the program. The Air Force should instead focus on the KC-135 tanker replacement program which is a Joint Requirements Oversight Council validated requirement. The Committee recommends \$439,615,000 in title VIII of this Act only for the recapitalization of the aging KC-135 fleet with a competitive procurement of a commercial derivative tanker aircraft.

AIR FORCE ELECTRONIC WARFARE EVALUATION SIMULATOR

The Committee is aware of an Air Force effort to relocate the Air Force Electronic Warfare Evaluation Simulator (AFEWES) from Air Force Plant 4 to the Air Force Flight Test Center. Several government studies, including the 1995 Base Realignment and Closure Commission and a 1997 Government Accountability Office report, highlight the absence of a cost or capability rationale to justify this relocation. Therefore, the Committee directs that the Department shall not obligate or expend funds to relocate the AFEWES from Air Force Plant 4 until a comprehensive cost/benefit analysis, reviewed by the Government Accountability Office, is provided to the Congressional defense committees. Further, because the AFEWES specialized test capabilities are a vital element of our national defense posture, study findings should demonstrate the technical merits of any proposed relocation.

OPERATION AND MAINTENANCE, DEFENSE-WIDE

Fiscal year 2009 appropriation	\$25,939,466,000
Fiscal year 2010 budget request	28,357,246,000
Committee recommendation	27,929,377,000
Change from budget request	-427,869,000

The Committee recommends an appropriation of \$27,929,377,000 for Operation and Maintenance, Defense-Wide. The total amount recommended in the bill will provide the following program in fiscal year 2010:

Military Intelligence Service Historic Learning Center		1,000	

JOINT CHIEFS OF STAFF

The Committee provides \$432,169,000 for the Joint Chiefs of Staff, \$25,000,000 below the fiscal year 2010 request. The Department of Defense requested an additional \$25,000,000 for the Combatant Commanders Initiative Fund (CCIF), which the Committee has not provided. The Committee understands that, to allow Combatant Commanders to respond to urgent and emerging humanitarian, economic, and security challenges in their areas of operation, the CCIF program must be as flexible as possible. Furthermore, the Committee is satisfied with the Joint Chiefs of Staff's management and oversight of CCIF projects to date. However, the Committee is concerned that increasing the funding available for CCIF will eliminate the incentive for the Department to carefully scrutinize proposed projects and ensure that only those of the highest priority receive funding.

AFGHANISTAN INFORMATION COMMUNICATIONS TECHNOLOGY

The Committee is concerned about the slow rate of progress in connecting the Afghanistan fiber-optic communications backbone to the global information-technology network. As highlighted in a 2009 National Defense University study titled, "Information Communications Technology for Reconstruction and Development: Afghanistan Challenges and Opportunities," multiple social, economic, and educational benefits will be realized once a reliable terrestrial network is installed in Afghanistan. Therefore, the Committee directs that \$20,000,000 within the Defense Information Systems Agency (DISA) account shall not be available for obligation until DISA, in coordination with the CENTCOM J-6, submits a report that examines the telecommunications infrastructure of Afghanistan to determine the feasibility of moving both Afghanistan's and parts of the Department of Defense's bandwidth requirements from expensive, high-latency satellite links to lower cost, low-latency terrestrial links such as fiber-optic and microwave technologies. This report shall be submitted to the congressional defense committees within 90 days of the enactment of this Act. The report should include a detailed "as-is" architecture of the existing terrestrial telecommunications infrastructure of Afghanistan, and it should include an analysis of alternatives (AoA) for terrestrial telecommunications capabilities to meet the Department's bandwidth requirements in Afghanistan, along with a "to be" architecture of how the Department will implement a Service-Oriented-Architecture software capability to provision, manage and track the utilization of bandwidth in support of Stability Operations in Afghanistan. The AoA will include, at a minimum, a review of issues and opportunities with: (1) leasing bandwidth from the Afghanistan Ministry of Communications using their existing fiber-optic backbone, (2) leasing bandwidth from the commercial cellular operators using their respective nation-wide microwave backbones, (3) leasing bandwidth from commercial satellite communications system providers, and (4) incentivizing the Government of Afghanistan to issue a new telecommunications license for a commercial fiber-optic backbone and international gateway for Afghanistan.

SECURITY AND STABILIZATION

The Committee has provided \$25,000,000 for the security and stabilization assistance program, a reduction of \$175,000,000 below the fiscal year 2010 request. Pursuant to section 1201 of the House-passed National Defense Authorization Act for Fiscal Year 2010 (H.R. 2647), additional funds for this program are not authorized.

OFFICE OF ECONOMIC ASSISTANCE

The Committee has provided an additional \$13,626,000 for the Office of Economic Assistance (OEA) to restore a proposed reduction in funding for Community Economic Assistance Grants. The Committee understands the Department's assumption that, with implementation of the 2005 Base Realignment and Closure (BRAC) recommendations approaching completion, community requirements for OEA assistance will diminish. However, the Committee is concerned that recent non-BRAC-related decisions, including the reduction of planned Army Brigade Combat Teams (BCTs) from 48 to 45, and the proposed retirement of 248 Air Force combat aircraft will impact communities across the country that will require the assistance of OEA in mitigating the effects of those decisions. Consequently, the Committee has restored funding for OEA Community Economic Assistance Grants to fiscal year 2009 levels.

FORT STEWART

The Committee has strong concerns about the impact on local communities as a result of a decision by the Secretary of Defense to reverse the planned growth in the number of Army Brigade Combat Teams (BCT) from 45 to 48. Nowhere has this impact been more severe than at Fort Stewart, Georgia. Beginning in December 2007, Army leaders met repeatedly with local government officials, private investors and builders and encouraged them to "build-out now," so facilities would be ready by 2011 to fully accommodate the projected influx of 5,000 soldiers and their family members. The Committee appreciates the difficulties and risks undertaken by the Fort Stewart community in securing and investing more than \$450,000,000 to welcome these additional troops and strongly commends this outstanding demonstration of local support for our military. Therefore, the Committee urges the Army and the Department of Defense to mitigate the impact of the change in basing plans on the Fort Stewart community. Further, the Committee directs the Secretary of Defense to provide a report on all mitigation efforts underway and on the feasibility of other combat or support units relocating to Fort Stewart. This report should be submitted no later than 60 days after enactment of this Act.

OFFICE OF THE UNDER SECRETARY OF DEFENSE (COMPTROLLER) AND
CHIEF FINANCIAL OFFICER

The Committee has provided \$2,348,000 for the Office of the Under Secretary of Defense (Comptroller) and Chief Financial Officer for the costs associated with the recruitment, hiring, training, retention and pay for additional federal employees to improve fiscal management and oversight. The Committee urges the Department

to exempt the Office of the Under Secretary of Defense (Comptroller) and Chief Financial Officer from internal Department headquarters personnel ceilings if necessary to ensure proper fiscal management and budget oversight.

OPERATION AND MAINTENANCE, ARMY RESERVE

Fiscal year 2009 appropriation	\$2,628,896,000
Fiscal year 2010 budget request	2,620,196,000
Committee recommendation	2,621,196,000
Change from budget request	1,000,000

The Committee recommends an appropriation of \$2,621,196,000 for Operation and Maintenance, Army Reserve. The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

FAMILY ASSISTANCE CENTERS/NATIONAL GUARD REINTEGRATION

The Committee has included \$20,000,000 for Family Assistance and Reintegration activities for Reserve Component soldiers. The Committee recognizes that Family Assistance and Reintegration activities present unique challenges for the Reserve Components; however, based on the number of issues being raised, the Committee is concerned whether the proper initiatives and support programs are in place. The Committee directs the National Guard to submit an implementation plan for these funds and that North Carolina, Mississippi, Maine, New Hampshire, New Jersey, and Minnesota be given priority for implementation of these programs.

PROCESS REFINEMENT AND IMPLEMENTATION INITIATIVE

The National Guard Bureau has identified Joint CONUS Communications Support Environment (JCCSE) Communications Enhancements as one of its top requirements, for which the Committee recommends \$1,600,000. The National Guard Bureau has stated that funding for furthering JCCSE Communications enhancements is essential as it enhances the National Guard's ability to support and respond under the homeland defense/civil support mission. The Committee supports the National Guard's efforts to enhance this technology, including providing an interface for communications between federal and state agencies concerning incidents involving homeland defense and disaster mitigation.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

Fiscal year 2009 appropriation	\$5,901,044,000
Fiscal year 2010 budget request	5,885,761,000
Committee recommendation	5,888,741,000
Change from budget request	2,980,000

The Committee recommends an appropriation of \$5,888,741,000 for Operation and Maintenance, Air National Guard. The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

OVERSEAS CONTINGENCY OPERATIONS TRANSFER FUND

Fiscal year 2009 appropriation	---
Fiscal year 2010 budget request	\$5,000,000
Committee recommendation
Change from budget request	- 5,000,000

The Committee recommends no funding in title II of this Act for the Overseas Contingency Operations Transfer Fund and addresses the funding in title IX.

UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

Fiscal year 2009 appropriation	\$13,254,000
Fiscal year 2010 budget request	13,932,000
Committee recommendation	13,932,000
Change from budget request

The Committee recommends an appropriation of \$13,932,000 for the United States Court of Appeals for the Armed Forces.

ENVIRONMENTAL RESTORATION, ARMY

Fiscal year 2009 appropriation	\$457,776,000
Fiscal year 2010 budget request	415,864,000
Committee recommendation	415,864,000
Change from budget request

The Committee recommends an appropriation of \$415,864,000 for Environmental Restoration, Army. The recommendation is a decrease of \$41,912,000 from the amount appropriated in fiscal year 2009 and fully funds the fiscal year 2010 request.

ENVIRONMENTAL RESTORATION, NAVY

Fiscal year 2009 appropriation	\$290,819,000
Fiscal year 2010 budget request	285,869,000
Committee recommendation	285,869,000
Change from budget request

The Committee recommends an appropriation of \$285,869,000 for Environmental Restoration, Navy. The recommendation is a decrease of \$4,950,000 from the amount appropriated in fiscal year 2009 and fully funds the fiscal year 2010 request.

ENVIRONMENTAL RESTORATION, AIR FORCE

Fiscal year 2009 appropriation	\$496,277,000
Fiscal year 2010 budget request	494,276,000
Committee recommendation	494,276,000
Change from budget request

The Committee recommends an appropriation of \$494,276,000 for Environmental Restoration, Air Force. The recommendation is a decrease of \$2,001,000 from the amount appropriated in fiscal year 2009 and fully funds the fiscal year 2010 request.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

Fiscal year 2009 appropriation	\$13,175,000
Fiscal year 2010 budget request	11,100,000
Committee recommendation	11,100,000
Change from budget request

The Committee recommends an appropriation of \$11,100,000 for Environmental Restoration, Defense-Wide. The recommendation is a decrease of \$2,075,000 from the amount appropriated in fiscal year 2009 and fully funds the fiscal year 2010 request.

**ENVIRONMENTAL RESTORATION, FORMERLY USED
DEFENSE SITES**

Fiscal year 2009 appropriation	\$291,296,000
Fiscal year 2010 budget request	267,700,000
Committee recommendation	277,700,000
Change from budget request	10,000,000

The Committee recommends an appropriation of \$277,700,000 for Environmental Restoration, Formerly Used Defense Sites. The recommendation is a decrease of \$13,596,000 from the amount appropriated in fiscal year 2009. The adjustment to the budget for Environmental Restoration, Formerly Used Defense Sites is shown below:

UXO Remediation	\$10,000,000
-----------------------	--------------

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

Fiscal year 2009 appropriation	\$83,273,000
Fiscal year 2010 budget request	109,869,000
Committee recommendation	109,869,000
Change from budget request

The Committee recommends an appropriation of \$109,869,000 for Overseas Humanitarian, Disaster, and Civic Aid.

COOPERATIVE THREAT REDUCTION ACCOUNT

Fiscal year 2009 appropriation	\$434,135,000
Fiscal year 2010 budget request	404,093,000
Committee recommendation	404,093,000
Change from budget request	---

The Committee recommendation provides a total of \$404,093,000 for fiscal year 2010.

**DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE
DEVELOPMENT FUND**

Fiscal year 2009 appropriation	---
Fiscal year 2010 budget request	\$100,000,000
Committee recommendation	100,000,000
Change from budget request	---

The Committee recommendation provides a total of \$100,000,000 for the Department of Defense Acquisition Workforce Development Fund for fiscal year 2010.

TITLE III

PROCUREMENT

The fiscal year 2010 Department of Defense procurement budget request totals \$105,213,426,000. The table below summarizes the budget estimates and the Committee's recommendations.

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

	=====	=====	=====

GOVERNMENT ACCOUNTABILITY OFFICE

The Government Accountability Office (GAO) has been directed by Congress to perform an annual assessment of the performance of the Department's portfolio of major acquisition programs, as well as individual programs. The GAO relies on data from the Department's Selected Acquisition Reports (SAR) for its cost and schedule analyses. In the absence of a complete set of annual SARs prior to the fiscal year 2011 budget submission, the Secretary of Defense is directed to provide GAO with SAR-like data (including cost, schedule, and funding data that reflects the program of record, including the estimated outyear funding requirements) for each major defense acquisition program. This information should be provided to the GAO in a timely manner to support the March 30, 2010 report to Congress.

JOINT STRIKE FIGHTER NON-RECURRING EQUIPMENT

The Joint Strike Fighter program budgets for and procures equipment and tooling to outfit the manufacturing facility with sufficient capacity to produce aircraft in larger quantities as the production program ramps up. Since the program began production in fiscal year 2007, the Congress has appropriated over \$900,000,000 for this effort. However, in actuality, the program has executed just over \$700,000,000, largely because the production ramp up has been lower than originally predicted. Therefore, the recommendation reduces the request for non-recurring equipment by \$232,000,000 to fund this activity at a level consistent with historical execution.

C-130 FIREFIGHTING CAPABILITY

The Committee directs the Secretary of the Air Force and the Director of the National Guard Bureau within 60 days of enactment of this Act, to create an Integrated Working Group (IWG) in conjunction with the U.S. Forest Service (USFS) for the purpose of coordinating the joint use of federal forest firefighting assets, and within 90 days after formation of the IWG, to submit a report to the congressional defense committees and the House Appropriations Interior Subcommittee detailing the following:

1. The viability of the Air National Guard and the U.S. Forest Service jointly operating a fleet of new C-130s procured for the primary purposes of firefighting duties at the request of the U.S. Forest Service, and equipped with the latest proven firefighting technology.

2. Any and all prior analysis done in the past ten years by the Department of the Air Force, the National Guard Bureau or the USFS concerning the recapitalization of the national firefighting fleet.

3. A new business case analysis which examines the cost and operational effectiveness of procurement of new C-130 aircraft and joint co-operation between the Department of the Air Force, the National Guard Bureau and the USFS for the firefighting mission as compared to the present approach of utilizing the current fleet of aging firefighting aircraft available via commercial operator contracts.

4. Any existing legislative impediments to interagency cooperation and joint operation of a dedicated firefighting fleet by the Department of the Air Force, the National Guard Bureau, and the USFS.

5. An assessment and accounting of public/private property losses as well as taxpayer expenses spent annually fighting forest and wildfires and how such losses can be mitigated by the described joint firefighting business model with respect to the Department of the Air Force, the National Guard Bureau, and the USFS.

An interim report shall be submitted to Congress no later than 90 days after enactment of this Act detailing the progress made on the final report.

SPECIAL OPERATIONS FORCES—PROCESSING, EXPLOITATION, AND
DISSEMINATION CAPABILITIES MODERNIZATION

The Committee is concerned about the urgent need for the modernization of Special Operations Forces' (SOF) capabilities to process, exploit, and disseminate critical operational intelligence from deployed locations overseas and specifically within the theater of operations. The immediacy of this requirement was communicated to the Committee by SOF operators during multiple visits to both Afghanistan and Iraq. Ongoing SOF operations demonstrate the ability to collect significant amounts of pocket litter, hard copy documents, hard drives, cell phones, and other important hard copy and electronic media with significant intelligence value. However, without specialized expeditionary processing, this information becomes inaccessible and of no value to SOF in immediate urgent operational missions, and over the longer term to the war fighter, the intelligence community and others in need of access. To address this requirement, the Committee has provided an additional \$14,900,000 in funding for acquisition and development of improved processing, exploitation, and dissemination capabilities—\$6,900,000 in “Procurement, Defense-Wide”, and \$8,000,000 in “Research, Development, Test and Evaluation, Defense-Wide”.

Procurement funding is provided for acquisition of multi-discipline intelligence processing, exploitation and dissemination capabilities intended to meet Special Operations Command's unfunded requirement for full motion video exploitation. The funding will enable SOF to rapidly search and exploit accumulated tactical intelligence in support of operational decision-making and planning.

Funding provided for Distributed Common Ground/Surface System (DCGS) capabilities modernization in the DCGS research, development, test and evaluation program shall be used to address requirements for integrating multi-function intelligence processing, exploitation and dissemination capabilities into the SOF information enterprise and the DCGS architecture. This funding is also provided to develop a DCGS tool for SOF to expand the capability to exploit documents and media for tactical and timely intelligence in forward deployed operations. The Committee believes that allowing larger volumes of data to be captured and processed more quickly while in the field will enable vastly improved support to not just SOF but all deployed war fighter operations.

SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional interest items for the purpose of the Base for Reprogramming (DD 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, specifically addressed in the conference report. These items remain special interest items whether or not they are repeated in a subsequent conference report.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Committee directs the Department of Defense to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations Bill (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement, and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

REPROGRAMMING REPORTING REQUIREMENTS

The Committee directs the Under Secretary of Defense, Comptroller, to continue to provide the congressional defense committees quarterly, spreadsheet-based DD 1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the Conference report on the Department of Defense Appropriations Act, 2006.

FUNDING INCREASES

The Committee directs that the funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in a classified annex accompanying this report.

AIRCRAFT PROCUREMENT, ARMY

Fiscal year 2009 appropriation	\$4,900,835,000
Fiscal year 2010 budget request	5,315,991,000
Committee recommendation	5,144,991,000
Change from budget request	– 171,000,000

This appropriation finances acquisition of tactical and utility airplanes and helicopters, including associated electronics, electronic warfare equipment for in-service aircraft, ground support equipment, components and parts such as spare engines, transmission gear boxes, and sensor equipment. It also funds related training devices such as combat flight simulators and production base support.

The total amount recommended in the bill will provide the following program in fiscal year 2010:

CH-47 CHINOOK HELICOPTER

The budget request proposed \$860,087,000 for 16 new build CH-47F helicopters and 11 remanufactured helicopters. The Committee notes that Congress provided funding for five new build helicopters in the Supplemental Appropriations Act, 2009, one above the number requested in order to better support the training base and home station training for units that are not deployed. The Committee recommends funding of \$825,087,000, a reduction of \$35,000,000, for 15 new build CH-47F helicopters and 11 remanufactured aircraft.

EXTENDED RANGE/MULTI-PURPOSE UNMANNED AIRCRAFT SYSTEM

The fiscal year 2010 budget request proposed \$401,364,000 for 24 Extended Range/Multi-Purpose Unmanned Aircraft. The Committee is a strong supporter of unmanned aircraft and the flexibility and persistence they bring to the battlefield in both the reconnaissance and strike missions. However, the budget justification materials provided to the Committee indicate that the aircraft will be delivered over a 24 month time period. Accordingly the Committee recommends funding for the first 12 aircraft only. The Committee recommends funding of \$238,364,000, a reduction of \$163,000,000 below the budget request.

MISSILE PROCUREMENT, ARMY

Fiscal year 2009 appropriation	\$2,185,060,000
Fiscal year 2010 budget request	1,370,109,000
Committee recommendation	1,358,609,000
Change from budget request	- 11,500,000

This appropriation finances the acquisition of surface-to-air, surface-to-surface, air-to-surface, and anti-tank/assault missile systems. Also included are major components, modifications, targets, test equipment and production base support.

The total amount recommended in the bill will provide the following program in fiscal year 2010:

45 INDUSTRIAL PREPAREDNESS	392	3,392	3,000
Arsenal Support Program Initiative		3,000	

STRYKER

The budget request proposed \$388,596,000 for Stryker program procurement. The funding requested would purchase safety and survivability upgrades but no additional vehicles. The Committee supports safety and survivability upgrades for the Stryker fleet; however, the Committee is concerned that \$170,461,000 of the requested funding would be used for program management support and system technical support. The Committee recommends a reduction of \$25,000,000 below the budget request for excessive program management costs. Additionally, the Committee has continuing concerns about the lack of production of additional Stryker vehicles. In the Supplemental Appropriations Act, 2009, Congress appropriated \$200,000,000 above the request for the production of needed Stryker vehicles and for sustainment of the production base. The Committee is aware that the Army is considering the fielding of additional Stryker brigades in order to improve the balance of heavy, medium and light forces to enable a sustained response to the full spectrum of potential threats. Additionally, the Committee understands that the 5th Brigade (Stryker) of the 2nd Infantry Division, will leave its set of Strykers in Afghanistan after completion of the brigade's combat tour. That set of Strykers will be the basis of a rotational Stryker brigade equipment set. The Army will reset the 5th Brigade (Stryker) of the 2nd Infantry Division with new production vehicles. In order to support the continued production of new Stryker vehicles, the Committee recommendation includes an additional \$250,000,000. In all, the Committee recommends \$613,596,000 for the procurement of Stryker vehicles, a net increase of \$225,000,000.

PROCUREMENT OF AMMUNITION, ARMY

Fiscal year 2009 appropriation	\$2,287,398,000
Fiscal year 2010 budget request	2,051,895,000
Committee recommendation	2,053,395,000
Change from budget request	1,500,000

This appropriation finances the acquisition of ammunition, modification of in-service stock, and related production base support including the maintenance, expansion, and modernization of industrial facilities and equipment.

The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

Fiscal year 2009 appropriation	\$10,684,014,000
Fiscal year 2010 budget request	9,907,151,000
Committee recommendation	9,293,801,000
Change from budget request	-613,350,000

This appropriation finances the acquisition of (a) tactical and commercial vehicles, including trucks, semi-trailers, and trailers of all types to provide mobility and utility support to field forces and the worldwide logistical system; (b) communications and electronic equipment of all types to provide fixed, semi-fixed, and mobile strategic and tactical communications; (c) other support equipment, generators and power units, material handling equipment, medical support equipment, special equipment for user testing, and non-system training devices. In each of these activities, funds are also included for the modification of in-service equipment, investment spares and repair parts, and production base support.

The total program recommended in the bill will provide the following in fiscal year 2010:

FAMILY OF MEDIUM TACTICAL VEHICLES

The budget request proposed \$1,158,522,000 for the procurement of Medium Tactical Vehicles. However, the Committee is aware that the contract award which was scheduled for July has been delayed at least until September. Accordingly, the Committee recommends funding for the Family of Medium Tactical Vehicles of \$965,522,000, a reduction of \$193,000,000 below the budget request.

FAMILY OF HEAVY TACTICAL VEHICLES

The budget request proposed \$812,918,000 for the procurement of Heavy Tactical Vehicles. However, the Committee is aware that the contract award for the Heavy Equipment Transporter System (HETS) M1070 Truck Tractor will not be made until January 2011. The Committee recommends funding for the Family of Heavy Tactical Vehicles of \$786,566,000, a reduction of \$26,352,000 below the budget request, with no funding for HETS Truck Tractors.

MINE PROTECTION VEHICLE FAMILY

The budget request proposed \$402,517,000 to procure vehicles for route clearance companies including 93 Medium Mine Protected Vehicles. The Committee is aware that the Medium Mine Protected Vehicle is essentially the same vehicle as the Mine Resistant Ambush Protected Vehicle (MRAP), and that the new vehicles proposed for purchase would not be delivered until fiscal year 2012. However, as Army units continue to depart Iraq, large numbers of MRAPs will become available for redistribution and may be used to fill the requirements for Medium Mine Protected Vehicles for engineer and explosive ordnance disposal units. Therefore, the Committee provides no funding for the procurement of Medium Mine Protected Vehicles.

JOINT TACTICAL RADIO SYSTEM

The budget request proposed \$90,204,000 for the procurement of Joint Tactical Radio System radios, including \$55,164,000 to procure Joint Tactical Radio System radios for use in Multi-Service Operational Test and Evaluation. However, the Committee is aware that the contract option covering procurement of these test units is not expected to be exercised until fiscal year 2011 due to schedule delays. Accordingly, the Committee recommends funding of \$35,040,000 in fiscal year 2010 for procurement of Joint Tactical Radio System radios, a reduction of \$55,164,000 below the budget request.

NIGHT VISION DEVICES (ENHANCED NIGHT VISION GOGGLES)

The budget request proposed \$366,820,000 for Night Vision Devices, including \$250,662,000 for Enhanced Night Vision Goggles. However, due to delays in the production of the Enhanced Night Vision Goggles, the Army has identified \$131,900,000 of fiscal year 2009 funds as excess and usable as reprogramming sources. Additionally, the Committee is aware that production delays will continue into fiscal year 2010, and that \$75,000,000 is the amount that is executable for Enhanced Night Vision Goggles. Accordingly,

the Committee recommends funding of \$191,158,000 for Night Vision Devices, including \$75,000,000 for Enhanced Night Vision goggles, a reduction of \$175,662,000 below the budget request.

AIRCRAFT PROCUREMENT, NAVY

Fiscal year 2009 appropriation	\$14,141,318,000
Fiscal year 2010 budget request	18,378,312,000
Committee recommendation,	18,325,481,000
Change from budget request	-52,831,000

This appropriation provides funds for the procurement of aircraft and related support equipment and programs, flight simulators; equipment to modify in-service aircraft to extend their service life, eliminate safety hazards and improve aircraft operational effectiveness; and spare parts and ground support equipment for all end items procured by this appropriation.

The total program recommended in this bill will provide the following in fiscal year 2010:

STRIKE FIGHTER SHORTFALL

Sustained, continued operations in overseas contingencies have resulted in the Department of the Navy's tactical aircraft fleet (primarily the F-18 variant aircraft) being flown at an extremely high operational tempo. This has caused the aircraft to age at a faster rate than the Navy had planned when determining the introduction of the follow on aircraft, the F-35 Lightning II Joint Strike Fighter. The net result of these sustained operations is that the Navy is forecasting critical shortfalls in its strike fighter inventory. Delays in the introduction of the F-35 from the original forecast have exacerbated this shortfall. Last year, the Department of the Navy predicted that the shortfall would peak at 125 aircraft in fiscal year 2017. Although the Department of the Navy has not provided an updated shortfall prediction with the submission of this year's budget, the Committee understands it is now over 200 aircraft. This is due to the fact that a key assumption in last year's prediction, the life extension of the older variant F-18 aircraft, is proving to be more problematic than anticipated. Additionally, the Navy has reduced the number of F-18 aircraft being purchased in fiscal year 2010 from what was predicted last year. This reduction is confusing, since it moves the tactical aircraft inventory in the exact opposite direction one would expect when faced with a shortage of aircraft.

Fortunately for the Navy, the production line for the F/A-18E/F variant aircraft is still open and producing aircraft. For the last ten years this program has produced cost effective aircraft under the umbrella of a multi-year procurement strategy, however the fiscal year 2010 aircraft are being purchased as a standalone, annually priced procurement. The unit price difference between an annual procurement and a multi-year procurement is substantial. Since the F-35 will not begin to deliver in significant quantities for several years, the Committee believes the Navy is letting a golden opportunity slip away by not entering into another multi-year procurement for F/A-18E/F aircraft. In addition to mitigating the strike fighter shortfall, the Navy would achieve significant savings by purchasing aircraft under a multi-year procurement. Therefore, the recommendation provides \$108,000,000 above the request for the procurement of long lead equipment in an economic order quantity and cost reduction initiatives for a five year, 150 aircraft multi-year procurement for the F/A-18E/F and EA-18G programs. Additionally, in an attempt to further mitigate the strike fighter shortfall, the recommendation provides \$495,000,000 for the procurement of an additional nine F/A-18E/F Aircraft.

F-35 LIGHTNING II JOINT STRIKE FIGHTER

Last year, the Congress appropriated advance procurement funding for 14 fiscal year 2010 F-35 Short Take-Off and Vertical Landing (STOVL) aircraft. However, this year's request contains full funding for the procurement of 16 STOVL aircraft. Without the proper advance procurement funding, two of the fiscal year 2010 aircraft will not execute until fiscal year 2011. Since these aircraft will execute as fiscal year 2011 aircraft, they should be funded in fiscal year 2011. Therefore, the recommendation removes

\$300,000,000, the cost of two STOVL aircraft, from the program. This adjustment is consistent with the Navy's own adjustments to other aircraft procurement programs.

WEAPONS PROCUREMENT, NAVY

Fiscal year 2009 appropriation	\$3,292,972,000
Fiscal year 2010 budget request	3,453,455,000
Committee recommendation	3,226,403,000
Change from budget request	-227,052,000

This appropriation provides funds for the procurement of strategic and tactical missiles, target drones, torpedoes, guns, associated support equipment, and modification of in-service missiles, torpedoes, and guns.

The total amount recommended in the bill will provide the following program in fiscal year 2010:

STANDARD MISSILE

The Standard Missile SM-6 Extended Range Active Missile (SM-6 ERAM) is being developed to provide the Navy with the ability to engage extended range, challenging targets well into the future. Funding for the initial procurement of the SM-6 ERAM was appropriated in fiscal year 2009. The contract award for the first SM-6 ERAM procurement was expected to occur in January 2009, but has slipped to at least September 2009 and will likely slip into fiscal year 2010. The initial procurement of SM-6 ERAM will execute as a fiscal year 2010 contract award and allow the fiscal year 2010 funding to be directed towards higher priority items. Therefore, the recommendation reduces the Standard Missile procurement program by \$117,629,000.

PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

Fiscal year 2009 appropriation	\$1,085,158,000
Fiscal year 2010 budget request	840,675,000
Committee recommendation	794,886,000
Change from budget request	- 45,789,000

This appropriation finances the acquisition of ammunition, ammunition modernization, and ammunition-related material for the Navy and Marine Corps.

The total program recommended in the bill will provide the following in fiscal year 2010:

(DOLLARS IN THOUSANDS)

SHIPBUILDING AND CONVERSION, NAVY

Fiscal year 2009 appropriation	\$13,054,367,000
Fiscal year 2010 budget request	13,776,867,000
Committee recommendation	14,721,532,000
Change from budget request	944,665,000

This appropriation provides funds for the construction of new ships and the purchase and conversion of existing ships, including hull, mechanical and electrical equipment, electronics, guns, torpedo and missile launching systems, and communication systems.

The total program recommended in the bill will provide the following in fiscal year 2010:

(DOLLARS IN THOUSANDS)

SHIPBUILDING

The Navy's fiscal year 2010 budget request for shipbuilding is moving closer to the goal of being able to reach and maintain the Navy's stated requirement of 313 ships. The Committee firmly believes that in order to reach a fleet size of 313 ships, a minimum of ten ships per year should be constructed. Over the last ten years, the requested ship quantities have averaged less than seven ships per year. Although still short of the nominal ten ship level, the fiscal year 2010 budget requested funding for eight ships. The last time the Navy built at least nine ships was in 1992 when eleven ships were constructed. While the Committee recognizes that the shipbuilding plan is extremely complex, it is the backbone of the Navy's future and the Navy is strongly encouraged to construct the quantity of ships necessary to maintain the required fleet size. In the interim, the Committee provides funding for two additional ships, as outlined below, to bring the fiscal year 2010 ship count up to the desired level of ten ships.

LITTORAL COMBAT SHIP

The Littoral Combat Ship is envisioned as a fast, agile, networked surface combatant with capabilities designed to meet asymmetric threats and assure access into littoral regions. The program has experienced numerous problems during construction of the first two vessels, resulting in cost growth and schedule slippage. Although the program appears to have most of the technical issues resolved, the cost of the fiscal year 2010 ships will be subject to a cost cap to better control the cost of the program. The request contains sufficient funding for the program costs that will be subject to the cost cap, however, it lacks certain costs that are outside of the cost cap (such as design work and government costs). Therefore, the recommendation provides \$2,160,000,000, an increase of \$780,000,000 above the request, to fully fund the construction of the three Littoral Combat Ships in the request, as well as an additional ship to provide an increase in the quantity of ships for fiscal year 2010.

JOINT HIGH SPEED VESSEL

The Joint High Speed Vessel (JHSV) is envisioned as a high speed, shallow draft vessel intended for the rapid intra-theater transport of personnel, equipment and supplies. The JHSV program is based on a commercial derivative design and uses a fixed price contracting method, which together should minimize cost and schedule growth. The Committee has a strong desire to increase stability to the Nation's shipbuilding industrial base by increasing the quantity of ships being constructed each year. Therefore, the recommendation provides \$357,956,000, an increase of \$180,000,000, for the procurement of two Joint High Speed Vessels, which is an increase of one vessel above the request.

SURFACE COMBATANTS

The Committee is concerned with the Navy's apparent lack of a surface combatant acquisition plan. In recent years, the Navy has halted production of the DDG-51 guided missile destroyer program

to start production of the DDG-1000 guided missile destroyer. After awarding only two construction contracts for DDG-1000 class ships, the Navy announced the termination of that program at three ships and made plans to restart the DDG-51 production line with no clear path for future surface combatant acquisition. The Committee is aware that surface combatants will be reviewed as part of the Quadrennial Defense Review and directs the Navy to review, as part of the Quadrennial Defense Review, the feasibility of using the technologies developed as part of the DDG-1000 program on future surface combatants to ensure the taxpayers get the maximum benefit from the significant funding that was sunk into the research and development phase of the DDG-1000 program.

LEASING OF FOREIGN BUILT SHIPS

The Committee remains very concerned with the Navy's practice of entering into extended leases for foreign built ships. Historically, these leases have met the intent of long term capital lease restrictions on an individual basis, but the recurring nature of several of the leases violates the spirit and intent of the 1990 Budget Enforcement Act. The Committee recognizes that the ships leased by the Navy fill an important role that must be continued through the near term and well into the future, but believes that ships that fill these roles can provide an economic opportunity for the domestic shipbuilding industry. Two years ago, the Committee received a report from the Navy on their practice of leasing foreign built ships and a plan for ending the practice of leasing foreign built ships by 2012. The basic conclusion of the report was that the dependence on foreign built ships would be significantly reduced by the year 2012, principally as a result of shifting requirements and modifications to existing Department of Defense assets. Since the administration is currently undertaking a review of future requirements, the Committee is extremely interested in how that review will affect the Navy's practice of leasing foreign built ships. Therefore, the Committee directs the Secretary of the Navy to update the report submitted in March 2008 regarding the practice of leasing foreign built ships. The report should include the Navy's updated plan for terminating the practice of leasing foreign built ships to supplement the fleet and using only domestic built ships by 2012. Additionally, the report should include the necessary budget and funding plans that may be required to accomplish this. This report should be submitted no later than March 31, 2010.

OTHER PROCUREMENT, NAVY

Fiscal year 2009 appropriation	\$5,250,627,000
Fiscal year 2010 budget request	5,661,176,000
Committee recommendation	5,395,081,000
Change from budget request	-266,095,000

This appropriation provides funds for the procurement of major equipment and weapons other than ships, aircraft, missiles and torpedoes. Such equipment ranges from the latest electronic sensors for updates of naval forces, to trucks, training equipment, and spare parts.

The total program recommended in the bill will provide the following in fiscal year 2010:

48 PHYSICAL SECURITY EQUIPMENT	12,169	13,169	1,000
Portable Armored Wall System		1,000	

155MM LIGHTWEIGHT TOWED HOWITZER

The budget request proposed \$7,420,000 for 155mm Lightweight Towed Howitzers. The Committee notes that Congress provided \$186,000,000 in the Supplemental Appropriations Act, 2009, \$117,000,000 greater than the requested amount of \$69,000,000. Since the Congress previously provided for this request, the recommendation provides no funding for this appropriations request. The Committee recommendation is a reduction of \$7,420,000.

COMMUNICATION SWITCHING AND CONTROL SYSTEMS

The budget request proposed \$98,254,000 for communication switching and control systems. The Committee notes that Congress provided \$22,400,000 in the Supplemental Appropriations Act, 2009, \$6,000,000 greater than the requested amount of \$16,400,000. Since the Congress previously provided for this request, the recommendation reduces the request by \$6,000,000.

MOTOR TRANSPORT MODIFICATIONS

The budget request proposed \$6,111,000 for motor transport modifications. The Committee notes that Congress provided \$38,355,000 in the Supplemental Appropriations Act, 2009, \$22,500,000 greater than the requested amount of \$15,855,000. Since the Congress previously provided for this request, the recommendation provides no funding for this appropriations request.

AMPHIBIOUS SUPPORT EQUIPMENT

The budget request proposed \$39,876,000 for amphibious support equipment. The Committee notes that Congress provided \$11,545,000 in the Supplemental Appropriations Act, 2009, \$11,000,000 greater than the requested amount of \$545,000. Since the Congress previously provided for this request, the recommendation reduces the request by \$11,000,000.

AIRCRAFT PROCUREMENT, AIR FORCE

Fiscal year 2009 appropriation	\$13,112,617,000
Fiscal year 2010 budget request	11,966,276,000
Committee recommendation	11,956,182,000
Change from budget request	- 10,094,000

This appropriation provides for the procurement of aircraft, and for modification of in-service aircraft to improve safety and enhance operational effectiveness. It also provides for initial spares and other support equipment to include aerospace ground equipment and industrial facilities. In addition, funds are provided for the procurement of flight training simulators to increase combat readiness and to provide for more economical training.

The total program recommended in the bill will provide the following in fiscal year 2010:

C-130 AVIONICS MODERNIZATION PROGRAM

The Committee provides no funding for the C-130 Avionics Modernization Program. The fiscal year 2008 funds were not placed on contract until September 2008 and the fiscal year 2009 funds have not yet been put on contract due to a delayed Milestone C decision. Based on these delays, the funding requested for fiscal year 2010 is early to need. The Committee strongly encourages the Undersecretary of Defense (Acquisition, Technology and Logistics) to make a decision on the acquisition strategy and proceed expeditiously with the program of record.

UNDEFINITIZED CONTRACT ACTIONS

The Committee has become aware of the excessive use of undefinitized contract actions (UCA's) by the Air Force. Based on information obtained by the Committee, it is apparent that the Air Force has not provided the proper oversight of contracting activities within various programs. Specifically, the C-17 aircraft program has billions of dollars in undefinitized contracts. The Defense Federal Acquisition Regulations (DFAR) very clearly stipulate in subpart 217.74 that UCA's are to be used as the exception not as the rule for urgent needs. It is common practice for the C-17 program to place all of its funding on a UCA and then immediately obligate up to 50 percent of the not-to-exceed price at the award which is a disincentive to definitize the contract. Further, the DFAR requires that the contract must be definitized within 180 days after the issuance of initial undefinitized action unless it is extended by another 180 days after the contractor submits a qualifying proposal. The C-17 program has numerous contracts well in excess of these timelines with proposal times for fiscal year 2007 funds ranging from 373 to 975 days and on average 688 days to definitize. This use of UCA's places the taxpayer at a severe disadvantage when negotiating contracts since the contractor has little incentive to control costs while performing work under a UCA.

Even more concerning to the Committee, is that this excessive use of UCA's is not just isolated to procurement and modernization programs but has migrated to operation and maintenance programs. Based on information supplied by the Air Force, a Deputy Assistant Secretary of the Air Force for Contracting memorandum dated 28 November 2001 authorized the waiver of the limitations in the DFAR for definitization schedule and obligations for UCAs that support overseas operations. With this memorandum as justification, the Air Force has placed the fiscal year 2009 C-17 depot funding on a UCA which is still not definitized in the fourth quarter of the fiscal year even though the Air Force has obligated 89.7 percent of the \$1,118,679,167 not-to-exceed price. This rationale for the use of a undefinitized contracts for routine activities is abusive. The Committee directs the Secretary of the Air Force to address this situation within 30 days of enactment of this Act to include the cancellation of the November 2001 memorandum. The Committee further directs the Air Force to provide a detailed report to the congressional defense committees of all undefinitized UCA's in excess of \$50,000,000 within 30 days of enactment of this Act. The report shall include the date the UCA was initiated, the not-to-exceed

price, the amount obligated on the UCA, and the planned date for definitization.

While the Committee understands the need at times for programs to use this type of contracting mechanism, it appears that the Air Force has grossly abused it with respect to volume, value, and time to definitize. The Committee insists that the Air Force finalize all existing undefinitized contract actions in an expedited manner and to minimize the use of UCA's the future. To encourage a sense of urgency, the Committee has included a new proviso in the Aircraft Procurement, Air Force appropriating paragraph which specifies that for C-17 procurement and modernization efforts funded with Aircraft Procurement, Air Force the obligation of fiscal year 2010 procurement funds is prohibited until the existing UCA's are definitized. The Committee further directs the Undersecretary of Defense, Acquisition, Technology and Logistics (USD(AT&L)) to review contracting procedures within the Air Force and provide a report to the congressional defense committees within 90 days of enactment of this Act detailing a strategy to reduce current and minimize future undefinitized contracts in the Air Force.

C-17 AIRCRAFT

The C-17 Globemaster III aircraft has been the supply and logistics workhorse of the ongoing overseas conflicts. This platform has been responsible for the airlift of more cargo and personnel than any other platform. In recognition of the platform's contributions to the Nation's security, the Committee provides an additional \$674,100,000 for the procurement of three C-17 aircraft. The Committee recognizes that this is well below the minimum sustaining rate required for the production line. In an effort to avoid the extremely high costs associated with small production lots, the Committee's intent is that these aircraft be absorbed into the fiscal year 2009 production run that was funded from the Supplemental Appropriations Act, 2009, to create a full production run funded over a two year period. The Committee intends that the pricing for these aircraft be consistent with the 2009 aircraft, using methods such as a fixed price option to the fiscal year 2009 production contract.

COMBAT SEARCH AND RESCUE HELICOPTERS

The Committee recommends \$140,000,000 for the procurement of five HH-60M helicopters lost in combat since 2001. With the April 6th termination by the Secretary of Defense of the much delayed Combat Search and Rescue program, it is apparent to the Committee that a continued delay in replacing aircraft lost in combat is not acceptable. Accordingly, the Committee directs the Department of the Air Force to pursue replacement aircraft based upon currently fielded capabilities leveraging existing multi-service solutions and modifying the aircraft with the appropriate mission equipment.

Additionally, the Committee provides \$81,000,000 for forward looking infrared radars to provide existing HH-60G helicopters with common obstacle/terrain avoidance capability during night or adverse weather conditions and hover cues during rescue hoist/insertion operations. Furthermore, the recommendation includes

\$20,200,000 for new .50 caliber machine guns to replace legacy .50 caliber machine guns.

These investments continue the Committee’s long standing commitment to combat search and rescue, building on its fiscal year 2007 appropriation of \$99,000,000 which provided much needed upgrades to the HH–60G Pave Hawk aircraft.

MISSILE PROCUREMENT, AIR FORCE

Fiscal year 2009 appropriation	\$5,442,428,000
Fiscal year 2010 budget request	6,300,728,000
Committee recommendation	6,508,359,000
Change from budget request	207,631,000

This appropriation provides for procurement, installation, and checkout of strategic ballistic and other missiles, modification of in-service missiles, and initial spares for missile systems. It also provides for operational space systems, boosters, payloads, drones, associated ground equipment, non-recurring maintenance of industrial facilities, machine tool modernization, and special program support.

The total program recommended in the bill will provide the following in fiscal year 2010:

EVOLVED EXPENDABLE LAUNCH VEHICLE

In the fiscal year 2009 Defense Appropriations Act, the National Reconnaissance Office's (NRO) 30 percent share of the Evolved Expendable Launch Vehicle (EELV) Launch Capability (ELC) funds was transferred to the Air Force; however, there was no language specifying any further action. It was, and remains, the Committee's intent to make the Air Force responsible for the ELC in its entirety.

Consistent with the Explanatory Statement accompanying the fiscal year 2009 Appropriation Act, the Committee directs the transfer of the fiscal year 2010 NRO share of the ELC funds to the Air Force and directs that the Office of Management and Budget transfer the remaining ELC funds across the Future Years Defense Program from the NRO to the Air Force.

The Committee is concerned that the Air Force has not established a robust process for managing content on the ELC contract. Therefore, the Committee directs the Air Force Space and Missile Systems Center, Launch and Ranges Wing, to establish a formal systems engineering process, which includes NRO as the functional manager for space launch for the Intelligence Community, as a voting member, in order to prioritize and manage all efforts encompassed by the ELC contract. In addition, the NRO will continue its space launch partnership with the Air Force as a voting member for ELC award fee determinations.

MULTI-SATELLITE VEHICLE PROCUREMENT STRATEGIES

The Committee is concerned about the space system procurement strategies currently being employed by the Air Force. The current strategies have driven up costs significantly due to production breaks, inefficient supply chain procurement, inefficient production flow, and delays recognizing the need to replenish obsolete material. The Committee is interested in exploring options that would help to mitigate those inefficiencies in future satellite and launch vehicle purchases.

The Committee believes there are two space systems that show promise for multi-vehicle purchasing strategies, the Evolved Expendable Launch Vehicle (EELV) program and the Space Based Infrared Satellite (SBIRS) system. Therefore, the Committee directs the Secretary of the Air Force to provide the congressional defense committees with a five-year investment strategy for pursuing multi-vehicle purchase of the next block increment of the SBIRS highly elliptical orbit and geostationary orbit satellites and EELV systems by February 1, 2010.

PROCUREMENT OF AMMUNITION, AIR FORCE

Fiscal year 2009 appropriation	\$859,466,000
Fiscal year 2010 budget request	822,462,000
Committee recommendation	809,941,000
Change from budget request	- 12,521,000

This appropriation finances the acquisition of ammunition, modifications, spares, weapons, and other ammunition-related items for the Air Force.

The total program recommended in the bill will provide the following in fiscal year 2010:

OTHER PROCUREMENT, AIR FORCE

Fiscal year 2009 appropriation	\$16,052,569,000
Fiscal year 2010 budget request	17,293,141,000
Committee recommendation	16,883,791,000
Change from budget request	- 409,350,000

This appropriation provides for the procurement of weapon systems and equipment other than aircraft and missiles. Included are vehicles, electronic and telecommunications systems for command and control of operational forces, and ground support equipment for weapon systems and supporting structure.

The total program recommended in the bill will provide the following in fiscal year 2010:

TITLE IV

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The fiscal year 2010 Department of Defense Research, Development, Test and Evaluation budget request totals \$78,634,289,000. The table below summarizes the budget estimate and the Committee's recommendations.

SMALL BUSINESS TECHNOLOGY INSERTION

The Committee is well aware of the multitude of development problems experienced by numerous acquisition programs over the past several years. Although these problems have been caused by a variety of factors, the Committee believes that one significant factor is the rapid pace at which technology has been changing. The pace is so fast that the Department's acquisition programs have been unable to remain current. Therefore, the Committee is extremely supportive of initiatives that transform how weapons systems are developed and fielded. A good example of a transformational effort is the incorporation of open architecture technologies. Developing weapons systems with open architecture technologies allows these systems to keep pace with changing technologies and ultimately reduces the overall weapons system cost. Two years ago, the Committee began an initiative to tap into the innovative and creative processes that typify small business. The Navy in particular has been very aggressive in pursuing the benefits of small business innovation in the arena of open architecture. Since this initiative has been so successful, the recommendation provides an additional \$80,000,000 for small business technology insertion, placed in various Army, Navy, and Defense-Wide research and development programs.

JOINT STRIKE FIGHTER ALTERNATE ENGINE

The F-35 Lightning II Joint Strike Fighter program truly represents the Nation's future with respect to tactical aviation. The Navy, Marine Corps and Air Force plan to procure over 2,500 of these fifth generation stealthy aircraft and will fly them well into the future. The Department's original plan for the F-35 propulsion engine was to have two engine variants. Cost growth in other areas of the development program resulted in the Department abandoning the alternate engine program. Currently, all three variants of the F-35 aircraft will be powered by the same propulsion engine. Although this will make the logistics for the aircraft less complex, this practice presents problems. The Committee is extremely concerned that in the near future when the F-35 will comprise the majority of the Nation's tactical aircraft inventory any technical problems with the engine could theoretically ground the entire fleet of aircraft. If this situation were to arise in a time of crisis, the Commander-in-Chief's flexibility would be severely limited.

Another area of concern for the Committee is the lack of competition for the Joint Strike Fighter engine program. With over 2,500 aircraft envisioned for this program, the potential for cost savings through an engine competition is enormous. The Committee is aware that the Department conducted a business case analysis that compared the cost of the program of record (sole source engine provider) to a program using a dual source strategy for the engine program. The business case concluded that the costs of the two programs were essentially the same. Since the Congress has put several hundred million dollars into the development of an alternate engine program since this business case was published, the Committee is puzzled by the Department's decision to not fund the alternate engine. With the majority of the upfront development cost

having been sunk into the program, it seems clear that from this point forward the dual source strategy is the most cost effective method to acquire the propulsion engine for the Joint Strike Fighter. Therefore, the recommendation provides an additional \$430,000,000 for the continued development of the alternate engine and \$130,000,000 for alternate engine production costs for a total of \$560,000,000 above the request for the alternate engine program. Further, since a dual source engine strategy is the most cost effective method for acquiring engines from this point forward, the Secretary of Defense is directed to include funding for the alternate engine program in future budget requests.

EXECUTIVE AGENCY FOR ENERGETICS

The Committee is aware that executive agents can add bureaucracy and, in the absence of carefully considered responsibilities and authorities, detract from the efficiency of the Department of Defense. The Committee is also aware that the Services of the Department of Defense are well coordinated, through the Office of the Secretary of Defense, with the Department of Energy which has led to tremendous progress in the last decade advancing the state of energetics and revitalizing the energetics research and development workforce. Accordingly, the Committee directs that no funds be expended for the creation of a new Executive Agent or Executive Director for Advanced Energetics. The Committee recommends that the Department of Defense capitalize on existing best practices within the individual Services to advance the state of the energetics field to better meet the needs of the joint warfighter.

SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional interest items for the purpose of the Base for Reprogramming (DD 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, specifically addressed in the conference report. These items remain special interest items whether or not they are repeated in a subsequent conference report.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Committee directs the Department of Defense to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations Bill (H.R.109-110). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement, and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceed the identified threshold, the Department of Defense must submit a prior approval re-

programming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

REPROGRAMMING REPORTING REQUIREMENTS

The Committee directs the Under Secretary of Defense, Comptroller, to continue to provide the congressional defense committees quarterly, spreadsheet-based DD 1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the Conference report on the Department of Defense Appropriations Act, 2006.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

Fiscal year 2009 appropriation	\$12,060,111,000
Fiscal year 2010 budget request	10,438,218,000
Committee recommendation	11,151,884,000
Change from budget request	713,666,000

This appropriation finances the research, development, test and evaluation activities of the Department of the Army. The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

FUTURE COMBAT SYSTEMS

On April 6, 2009 the Secretary of Defense announced a restructuring of the Army Future Combat Systems (FCS). The restructured program will expand the spin out of technology enhancements for all Army combat brigades and cancel the manned ground vehicle component of the program. On June 23, 2009, the Under Secretary of Defense (Acquisition, Technology and Logistics) directed that due to the directive language found in Section 8085 of the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 pertaining to the independent development and fielding of the Non-Line of Sight Cannon component, work on the cannon component would be stopped but not terminated. However, the Committee has not retained this language in this bill, relieving the Army from the management and production requirements related to the Non-Line of Sight Cannon. Also, on June 23, 2009, the Under Secretary of Defense published a Future Combat Systems (FCS) Brigade Combat Team (BCT) Acquisition Decision Memorandum which cancels the FCS Brigade Combat Team acquisition program; holds the Non-Line of Sight Cannon component in a stop work status; and transitions to integrated acquisition programs that will spin out equipment sets to seven brigades; proceed with a brigade modernization effort to develop, produce and field unmanned systems, sensors and the communications network; and explore development of new ground combat vehicles.

The Committee supports the Army's efforts to promptly field proven advances in technology to all combat brigades while re-focusing efforts to modernize the equipment in brigade combat teams. The Committee supports Army efforts to harvest technology from the current manned ground vehicle program, and work with the Marine Corps to identify capability gaps and lessons learned from recent combat operations. The budget request proposes \$2,553,042,000 for FCS research, development, test and evaluation and \$327,921,000 in procurement funding; in all \$2,880,963,000. The Committee recommends \$2,669,963,000, as requested for FCS lines with the exception of the Non-Line of Sight Cannon and Manned Ground Vehicles, as discussed below.

NON-LINE OF SIGHT CANNON

The budget request proposed \$58,216,000 for termination of the Future Combat Systems (FCS) Non-Line of Sight Cannon program. The Committee is aware that as of the end of April 2009 the program had approximately \$236,500,000 in unexecuted fiscal year 2009 procurement and research, development, test and evaluation funding. Additionally, the Committee understands that the basis for the request for termination funding was uncertain and preliminary. Therefore, the Committee recommends funding of \$31,216,000 for termination costs, a reduction of \$27,000,000 below the budget request.

The Committee bill has not retained the directive language found in Section 8085 of The Consolidated Security, Disaster Assistance, and continuing Appropriations Act, 2009 pertaining to the independent development and fielding of the Non-Line of Sight Cannon component.

FUTURE COMBAT SYSTEMS MANNED GROUND VEHICLES

The budget request proposed \$368,557,000 for termination of the Future Combat Systems Manned Ground Vehicle component. However, the Committee is aware that as of the end of April 2009 the program had approximately \$740,000,000 in unexecuted fiscal year 2009 funds available. The Committee believes that a significant portion of termination requirements should be funded with available funding. The Committee recommends \$184,557,000 for termination costs, a reduction of \$184,000,000 below the budget request.

MANNED GROUND VEHICLE

The budget request proposed \$100,000,000 for a new Manned Ground Vehicle Program which is intended to capture the design effort and technological advances from the Future Combat Systems Manned Ground Vehicle component for leverage in a follow on program. The Committee is aware of the Army's desire to proceed quickly with the new Manned Ground Vehicle program; however, the Committee believes the estimate of funding required to initiate the effort is uncertain and accordingly, the Committee recommends funding of \$50,000,000, a reduction of \$50,000,000 below the request.

AEROSTAT JOINT PROGRAM OFFICE

The budget request proposed \$360,076,000 for the Aerostat Joint Program Office. However, the Joint Land Attack Cruise Missile Defense Elevated Netted Sensor System Development and Demonstration (SDD) program has been delayed 12 months, extending the SDD effort into fiscal year 2011. The Committee recommends funding of \$288,076,000, a reduction of \$72,000,000 below the request.

TACTICAL UNMANNED AERIAL SYSTEMS

The budget request proposed \$202,521,000 for Tactical Unmanned Aerial Systems research, development, test and evaluation. The Committee notes the ever increasing demand for Intelligence, Surveillance, and Reconnaissance products provided by unmanned aerial vehicles, including the Shadow and Predator series aircraft. In recognition of this requirement, the Congress in the Supplemental Appropriations Act, 2009 fully funded the requested amount for procurement of Tactical Unmanned Aerial Systems and provided \$80,000,000 in additional funding to enhance and accelerate capabilities. The Committee strongly supports advances in Intelligence, Surveillance, and Reconnaissance capability, but the Committee is concerned that the program growth proposed for fiscal year 2010 above the fiscal year 2009 appropriated amount of \$104,276,000 is unjustified and recommends funding of \$172,521,000, a reduction of \$30,000,000.

ARMY RESEARCH LABORATORY SMALL BUSINESS SPECIAL OPERATIONS
FORCES TECHNOLOGY INSERTION

The Committee recommends \$10,000,000 only for the Army Research Laboratory to establish a small business technology insertion program, using the Navy's very successful SBIR technology in-

sersion contracting approach, to identify technologies developed under the Army Research Laboratory SBIR program for Army Special Operations Forces and insert them into Army programs of record to reduce acquisition and operating costs. The program should identify advanced SBIR technologies developed in small numbers for the Special Operations Forces that can either be accelerated and/or broadened for use in the Army's weapon system development programs for active and reserve forces.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

Fiscal year 2009 appropriation	\$19,764,276,000
Fiscal year 2010 budget request	19,270,932,000
Committee recommendation	20,197,300,000
Change from budget request	926,368,000

This appropriation provides funds for the research, development, test and evaluation activities of the Department of the Navy, which includes the Marine Corps. The total amount recommended in the bill will provide the following program in fiscal year 2010:

BONE MARROW REGISTRY

The Committee has included \$31,500,000 for the Department of the Navy, to be administered by the C.W. Bill Young Marrow Donor Recruitment and Research Program, also known as and referred to within the Naval Medical Research Center as the Bone Marrow Registry. Funds appropriated for the C.W. Bill Young Marrow Donor Recruitment and Research Program shall remain available only for the purposes for which they were appropriated and may only be obligated for the C.W. Bill Young Marrow Program. This Department of Defense donor center has recruited more than 525,000 Department of Defense volunteers, and provides more marrow donors per week than any other donor center in the Nation. More than 3,360 servicemembers and other Department volunteers from this donor center have provided marrow to save the lives of patients. The success of this national and international life-saving program for military and civilian patients, which now includes more than 7,500,000 potential volunteer donors is admirable. Further, the agencies involved in contingency planning are encouraged to continue to include the C.W. Bill Young Marrow Donor Recruitment and Research Program in the development and testing of their contingency plans. The Department of Defense form (DD Form 1414) shall show this as a congressional interest item. The Department is further directed to release all the funds appropriated for this purpose to the C.W. Bill Young Marrow Donor Recruitment and Research Program within 60 days of the enactment of this Act.

VH-71 PRESIDENTIAL HELICOPTER

The Committee has included \$400,000,000 above the President's request to make the five Increment I VH-71 Presidential helicopters operational. Although the Navy would not respond to the Committee regarding costs to operationalize the previously purchased five aircraft, the Future Year's Defense Plan for fiscal year 2009 proposed \$328,000,000 for fiscal year 2010 and \$140,000,000 in fiscal year 2011 to complete testing and outfitting to make the aircraft operational.

The Navy has invested over \$3,200,000,000 in the VH-71 Presidential helicopter program. On April 6, 2009, the Secretary of Defense announced the cancellation of the program. To date, the Navy has provided no plan for the disposition of the five aircraft that were intended to provide interim service in the Presidential helicopter fleet due to the age of the current fleet. If these aircraft are not made operational, the previously appropriated funds will have been wasted.

The Committee directs the Secretary of Defense to submit a report on progress toward making the five Increment I VH-71 Presidential helicopters operational. The report shall be submitted to the congressional defense committees no later than 30 days after the enactment of this Act.

EXPEDITIONARY FIGHTING VEHICLE

The budget request proposed \$293,466,000 for the continued development of the Marine Corps' Expeditionary Fighting Vehicle

(EFV). The Committee notes that the Secretary of Defense statement regarding program cancellations reiterated that the “department . . . must stop programs that significantly exceed their budget” and “modernization goals should be tied to the actual and prospective capabilities of known future adversaries—not by what might be technologically feasible for a potential adversary given unlimited time and resources.” Research and development cost estimates for the EFV increased from \$1,500,000,000 in 2000 to \$3,600,000,000 in 2009, according to the Government Accountability Office, and per-vehicle costs have increased from \$8,000,000 to \$23,000,000, while the number of vehicles to be procured was reduced by one-half.

The Expeditionary Fighting Vehicle has experienced cost growth, schedule slips and technical issues throughout its development cycle. Given the nearly 15 years and billions of dollars invested in the EFV program, the Committee has serious reservations whether the program will ever meet a standard for completion, with initial operational capability now projected at 2015, and full operational capability now projected at 2025. Therefore, the recommendation reduces the request by \$50,000,000.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

Fiscal year 2009 appropriation	\$27,084,340,000
Fiscal year 2010 budget request	27,992,827,000
Committee recommendation	27,976,278,000
Change from budget request	- 16,549,000

This appropriation finances the research, development, test and evaluation activities of the Department of the Air Force. The total amount recommended in the bill will provide the following program in fiscal year 2010:

AERIAL REFUELING TANKER REPLACEMENT PROGRAM

The Committee firmly believes that the Department must act promptly to recapitalize the aging Air Force aerial refueling fleet. The Department's current program has been beset with countless setbacks, from allegations of corruption to a protest of the previous source selection decision. In the meantime, our nation's aerial refueling tankers continue to age, with the average age of a KC-135 being almost 50 years old today. The aerial refueling replacement program (KC-X, KC-Y and KC-Z) plans to procure between 12 and 15 aircraft per year to eventually replace the current fleet of 513 aircraft. This method of recapitalization will take decades to complete, with the current fleet of Eisenhower-era tankers being 80 years old by the time the last legacy aircraft is retired. During this period, the Air Force will invest billions of taxpayer dollars in maintenance of an ever aging and increasingly unreliable fleet. Based on studies conducted by the Department of Defense, total fleet costs are anticipated to increase from \$2.1 billion per year to \$3 billion per year by 2040 due to increasing depot maintenance and forecasted modernization programs in avionics and aircraft systems. Additionally, the Department anticipates depot maintenance costs increasing from \$320,000,000 to \$1,100,000,000 in 2040 due to aging aircraft related maintenance. Never in the history of our Nation has the military purposely planned to maintain aircraft past 50 years, much less 80 years of operation so even these estimates may understate the actual cost. In addition to the cost of maintaining the aging tanker fleet, the cost per flying hour of a new tanker is almost half the cost of the existing fleet. The lower cost per flying hour alone will save the taxpayer \$1,795,500,000 per year for a fleet of 513 aircraft (current total aircraft inventory) or \$3,500,000 per plane per year replaced.

To address these concerns, the Committee recommendation includes a general provision providing \$439,615,000 and the option for choosing one vendor or dual sourcing for the aerial refueling Tanker replacement program. Along with this authority, the Committee believes that it is in the best interest of the taxpayer to pursue recapitalization at a rate of 36 aircraft per year vice 12 or 15 aircraft. This quantity will allow for recapitalization in one-third the time and thus allow for a rapid retirement of the current KC-135 aircraft. This plan will result in avoiding a large sustainment and modernization cost of the legacy KC-135 fleet by allowing them to retire earlier than is currently programmed. Additionally, having more than one aircraft provider will allow for competition to help control the procurement cost, promote cost reduction measures, and allow for a faster aircraft replacement rate.

Further, the Committee directs the Secretary of Defense to, prior to the release of a draft or final request for proposal soliciting bids for an aerial tanker replacement aircraft, submit a report to the congressional defense committees that includes a description of key mission requirement and performance parameters that will be used as the basis for determining the key selection criteria in the source selection process; a full and complete characterization and definition of "best value"; a description of the process that the Department of Defense intends to use to ensure open, balanced and trans-

parent communications with potential offerors; and a full description of the corrections made to the source selection process that addresses the issues raised by the Government Accountability Office in its "Statement Regarding the Bid Protest Decision Resolving the Aerial Refueling Tanker Protest by the Boeing Company, B311344 et. al, June 18, 2008".

COMMON VERTICAL LIFT SUPPORT PROGRAM

The request includes \$9,513,000 for the Common Vertical Lift Support Program to address vertical lift support for nuclear weapon convoy escort, emergency security response and other missions. This program was initiated as a new start in fiscal year 2009 to study the recapitalization of the Air Force H-1 Helicopter fleet with plans for a commercial-off-the-shelf platform with initial operational capability in fiscal year 2013. Estimates provided by the Air Force indicate that the average procurement unit cost will be approximately \$60,000,000. This estimate is far greater than the costs for platforms similar to H-1 helicopters currently in production with the Army, Navy and Marine Corps. The Committee recommends \$2,000,000 for program management support for the Common Vertical Lift Support Program and urges the Air Force to pursue programs currently in production with other Services to address their requirements instead of pursuing a costly new development program.

BOMBER CREW SAFETY STUDY

The Committee has provided an additional \$1,200,000 for the Air Force to conduct a B-52H seat re-engineering study to improve the capabilities of the current seat. The study should provide a plan for improving existing seats or equipping the aircraft with the newest technology resulting in significant performance and safety improvements and commonality with other aircraft in the Air Force fleet such as the T-38, T-6 and the F-35.

JOINT STARS DEMONSTRATION

The Committee has directed the permanent transfer of a SYERS-3 sensor to the Air Force for completion of the SYERS Demonstration Program initiated in the Defense Appropriations Act, 2008. The Committee directs that the Air Force notify the congressional defense committees upon formal receipt of the sensor and expects that this transfer of ownership will expedite completion of the demonstration program. In addition, the Committee directs that the Air Force submit a written report to the congressional defense committees on the results of the demonstration program, and any proposed future use of the SYERS-3 sensor in any Air Force program, not later than 30 days after completion of the demonstration.

EVOLVED EXPENDABLE LAUNCH VEHICLE SUSTAINMENT PLANS

The Committee directs the Secretary of the Air Force, in consultation with the Director of the National Reconnaissance Office, to submit an Evolved Expendable Launch Vehicle (EELV) sustainment plan to the congressional defense committees by Janu-

ary 4, 2010. This plan should include time-phased actions necessary to sustain the EELV program until 2030. It should also include the actions to insure that EELV launch capabilities and industrial base are maintained. In addition, the plan should include a roadmap for the infusion of new technology as well as increased reliability, maintainability and producibility of Pre-Planned Product Improvement efforts.

In particular, the state of the liquid rocket propulsion industrial base should be addressed in the plan. The report should identify the minimum level of investments and areas of technology development required to ensure the United States has a robust and viable liquid rocket engine industrial base beyond 2015 with focus on upper stage engine development. The report should identify technology development areas and annual funding requirements to support these technology areas.

In addition to the EELV sustainment plan, the Committee directs the Department of Defense's Cost Assessment and Program Evaluation group to perform a follow-up assessment of the United Launch Alliance merger and assess the status of the projected cost savings suggested at the time of the merger.

30-YEAR SPACE SYSTEM INVESTMENT STRATEGY

The Committee is concerned that there is no clear path for space system investment. The Committee strongly believes that an annual long-range plan for space system investment will provide a necessary roadmap for future government and industrial base investments. The Committee envisions this long-range plan be structured like the Annual Long-Range Plan for Construction of Naval Vessels. Similarly, this plan should contain information on the research, development, test and evaluation, as well as, the procurement, including schedule and funding profiles, for all Department of Defense and Intelligence Community National Security Space Systems, including ground systems for the next 30 years.

The Committee also expects the plan to include individual acquisition plans that provide descriptions of the programs and how these systems will meet the national security needs described in the most recent Quadrennial Defense Review and Space Posture Review. The report should also include the estimated levels of annual funding necessary to carry out the programs as well as a discussion of the acquisition strategies on which such estimated levels of annual funding are based to include both military and national intelligence funding.

Because the long-range space investment strategy is dependent on the state of the space industrial base, the Committee recommends the Department of Defense Cost Assessment and Program Evaluation (CAPE) office continue with the current studies and projects on the Space Industrial Base and begin other industrial base analysis efforts such as shipbuilding.

The Committee directs the Secretary of the Air Force and the Director of the National Reconnaissance Office, in coordination with the Secretary of Defense and the Director of National Intelligence, to deliver the 30-year Space System Investment Strategy to the congressional defense and intelligence committees by March 1, 2010. As necessary, the report should contain a classified appendix.

Finally, the Committee also recognizes that good planning requires good budgeting and oversight mechanisms. For the past two years, the Committee has directed the Secretary of Defense to create a major force program category for space. The Committee expects that the space major force program will be implemented by the submission of the fiscal year 2011 budget.

OPERATIONALLY RESPONSIVE SPACE FULL COST AND PERFORMANCE ACCOUNTING

Operationally Responsive Space (ORS) proposals are currently not evaluated using Department of Defense oversight mechanisms for assessing cost, schedule and performance as it relates to requirements and investment strategies. The Committee directs that all current and future ORS projects be independently assessed as it pertains to performance against validated Joint Requirements Oversight Council or Mission Requirements Board requirements to assess the proposed capabilities in relation to current acquisitions, existing material solutions, laboratory initiatives, and tactics, techniques and procedures. In addition, these proposals should also be independently assessed by the Department's Cost Assessment and Program Evaluation group for cost and schedule reliability.

NATIONAL POLAR-ORBITING OPERATIONAL ENVIRONMENTAL SATELLITE SYSTEM

The Committee remains concerned that the memorandum of agreement (MOA) signed December 18, 2008 is not being adhered to by the National Polar-orbiting Operational Environmental Satellite System (NPOESS) Executive Committee participants. Therefore, the Committee directs that none of the funds made available to the Department of Defense for the NPOESS program shall be obligated or expended until the Undersecretary of Defense for Acquisition, Technology, and Logistics certifies in writing to the congressional defense committees that the NPOESS program is being managed in compliance with the Department of Defense 5000-series acquisition guidelines and that the participants are complying with the MOA signed on December 18, 2008. The Committee also expects the Department's Cost Analysis and Program Evaluation group to perform an updated independent review of the program cost estimate and schedule profile.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

Fiscal year 2009 appropriation	\$21,423,338,000
Fiscal year 2010 budget request	20,741,542,000
Committee recommendation	20,721,723,000
Change from budget request	- 19,819,000

The appropriation provides funds for the research, development, test and evaluation activities of the Department of the Defense for defense-wide activities. The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

HISTORICALLY BLACK COLLEGES AND UNIVERSITIES AND MINORITY
INSTITUTIONS

The budget request proposed \$15,164,000 for Historically Black Colleges and Universities and Minority Institutions (HBCU/MI). On February 6, 2009, a Federal Court of Appeals decision ruled that the HBCU account was unconstitutional. The “Rothe” decision on 10 USC 2323 ended the program when it ruled that 2323 was unconstitutional in its entirety. The program is contingent upon an appeal by the Department of Justice and the Department of Defense or the enactment of new legislation that allows the Department of Defense HBCU/MI program to continue.

In the absence of a final decision on the appeal, the Committee rescinds \$34,457,000, the amount remaining from the fiscal year 2009 appropriation, and appropriates \$49,621,000, an amount equal to the amount rescinded, plus the amount proposed in the budget request, plus an additional \$9,400,000 recommended by the Committee. In total, the Committee recommendation for HBCU/MI is \$65,521,000.

VOICE ANALYSIS FOR TRUTH VERIFICATION AND DETECTION OF DECEIT

The Secretary of Defense shall provide a report to the congressional defense committees on memos, letters, and After Action Field Reports supporting the use of security level technologies designed for truth verification and detection of deceit through voice analysis. The report shall be submitted not later than 90 days after enactment of this Act.

DEFENSE ADVANCED RESEARCH PROJECTS AGENCY

The Committee has included \$3,048,054,000 for the Defense Advanced Research Projects Agency (DARPA), which is a decrease of \$200,000,000 from the fiscal year 2010 request and a decrease of \$81,970,000 from the amount appropriated in fiscal year 2009. Based on historic under execution in several program elements, the Committee has reduced this funding level.

MISSILE DEFENSE AGENCY REPORTING REQUIREMENTS AND
JUSTIFICATION MATERIALS

The budget justification provided by the Missile Defense Agency (MDA) continues to be insufficient to conduct proper oversight of MDA’s programs. However, the Committee commends the Agency for establishing the two new procurement lines that were created in Public Law 110–369 and anticipates additional adjustments to budget documentation to include an operation and maintenance account in fiscal year 2011 and beyond. MDA programs have historically changed significantly from the time the budget is submitted to the time funding is appropriated, making it extremely difficult to understand what is actually in the budget on an annual basis. The justification materials must provide more detailed schedules, quantities, and break-outs of funding for each activity. MDA is directed to report according to the existing acquisition laws to improve accountability and transparency of the programs.

BALLISTIC MISSILE DEFENSE TEST AND TARGETS

In December 2008, the Director of the Missile Defense Agency initiated a review of the entire Ballistic Missile Defense test program. The Integrated Master Test Plan's primary purpose is to establish and document the executable test baseline program for fiscal years 2010 through 2015 including testing beyond fiscal year 2015 to satisfy critical engagement conditions and empirical measurement events data collection requirements. To date the Integrated Master Test Plan has neither been approved by the Missile Defense Agency, Joint Interoperability Test Command, Joint Functional Component Command-Integrated Missile Defense, nor the Army, Navy or Air Force Operational Test and Evaluation Centers. The Committee is aware and concerned that a test scheduled for fiscal year 2010 has already slipped to the first quarter of fiscal year 2011 and that target synchronization with the test schedule remains an open issue. Therefore, the Committee has reduced the budget request by \$26,000,000 for a total of \$940,752,000 available in fiscal year 2010. Finally, of the funding provided, \$470,376,000 shall not be available for obligation until the Director of the Missile Defense Agency provides notification of its intent to obligate any additional funding above \$470,376,000 and receives prior approval of the congressional defense committees.

ISRAELI MISSILE DEFENSE COOPERATIVE PROGRAMS

The Committee has provided an additional \$82,800,000 for a total of \$202,434,000 for Israeli Missile Defense Cooperative Programs and supports efforts to develop an upper-tier follow-on to the Arrow Weapons System. After numerous changes to the requirements of the program, the United States and Israel continue to move forward in the development of the Arrow-3 Interceptor. The Committee understands that the Department is currently discussing the project agreement with the Israeli Ministry of Defense to make certain that the agreement will contain clear knowledge points and a schedule that will outline the development of the program. Once an agreement has been reached, the Committee directs the Department to submit a report to the congressional defense committees not later than January 29, 2010, that outlines the agreed knowledge points, schedule and an assessment of whether the program is currently meeting the outlined milestones.

AEGIS BALLISTIC MISSILE DEFENSE

The Aegis Ballistic Missile Defense (BMD) system is the first mobile, global, deployable and proven capability that can destroy missiles both above and within the atmosphere as well as providing a forward-deployed surveillance capability in support of homeland defense. However, the Committee is concerned that there are large unobligated and unexpended balances and that two tests planned, FTM-16 and FTX-08, have the potential to slip into the first quarter of fiscal year 2011. Additionally, within the budget request six additional ships are to be upgraded for BMD operations. However the configuration for the upgrades has yet to be determined, and the Block 5.2 Aegis BMD will incorporate a new missile type which

still needs to be determined. Therefore, the Committee reduces the budget request by \$50,000,000.

SPACE TRACKING AND SURVEILLANCE SYSTEM (STSS)

It is premature for the Missile Defense Agency (MDA) to move forward with a follow-on STSS constellation until after a successful launch and thorough analysis of the STSS demonstrator data. Therefore, the Committee reduces the fiscal year 2010 request by \$20,000,000 and directs MDA to provide a detailed report to the congressional defense committees not later than 30 days after a successful launch of both satellites has been completed.

KINETIC ENERGY INTERCEPTOR

The Committee is aware that the Kinetic Energy Interceptor (KEI) has completed research and development of certain technologies and that the Missile Defense Agency (MDA) is determining how to make the best use of the current technologies and their technical worth as well as the possible benefits of integrating these developments with other MDA programs. Therefore, the Committee has provided \$80,000,000 to enable the continuation of the program and the leveraging of KEI products and expertise for early intercept capability and other missile defense applications.

SEA-BASED X-BAND RADAR

The mission of the Sensors Program is to efficiently develop, acquire, test, field and operate an integrated sensor enterprise. However, the Committee is concerned that there are large unobligated and unexpended balances after fiscal year 2009, the first year of execution for the program element. The Committee is also concerned that GTD-04 has already slipped to the first quarter of fiscal year 2011. Therefore, the Committee has reduced the Sea-Based X-Band Radar request by \$13,000,000.

GROUND BASED MID-COURSE DEFENSE

The Committee is concerned with the uncertainty of the Missile Defense Agency's (MDA) plans regarding Ground Based Mid-Course Defense (GMD). MDA currently plans to maintain a 30 missile fleet instead of a 44 missile fleet as indicated in previous budget submissions. MDA estimates that emplacement of the 30 Ground Based Interceptors, plus testing and refurbishment, would actually require a total of 54 interceptors. With only 44 missiles currently under contract, the Committee is concerned that, without knowledge of the Department's position on GMD in fiscal year 2011 and beyond, this could cause a break in the production line which would increase any funding requirements in future budget submissions.

The Committee is concerned that MDA has not sufficiently addressed future requirements for GMD and therefore directs MDA to provide an unclassified report within 30 days of enactment of this Act that specifies what is needed in order to continue the industrial base. The report should include recommendations from the prime contractor and a discussion of MDA's Analysis of Alter-

natives based on U.S. Northern Command's ballistic missile defense study provided to MDA in October 2008.

OPERATIONAL TEST AND EVALUATION, DEFENSE

Fiscal year 2009 appropriation	\$188,772,000
Fiscal year 2010 budget request	190,770,000
Committee recommendation	190,770,000
Change from budget request	---

The appropriation provides funds for the research, development, test and evaluation activities of the Department of the Defense for defense-wide activities. The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

TITLE V
REVOLVING AND MANAGEMENT FUNDS
DEFENSE WORKING CAPITAL FUNDS

Fiscal year 2009 appropriation	\$1,489,234,000
Fiscal year 2010 budget request	1,455,004,000
Committee recommendation	1,455,004,000
Change from budget request	—

This appropriation finances, through the receipt of funded reimbursable orders, the operation of industrial, commercial and support-type activities such as depot maintenance, supply operations, distribution depots, transportation services, Navy research, finance and accounting services, information systems and telecommunication services. Working capital fund accounts use cost accounting and business management techniques to provide managers with information that can be used to monitor, control, and minimize costs of operations.

NATIONAL DEFENSE SEALIFT FUND

Fiscal year 2009 appropriation	\$1,666,572,000
Fiscal year 2010 budget request	1,642,758,000
Committee recommendation	1,692,758,000
Change from budget request	50,000,000

This appropriation provides funds for the lease, operation, and supply of pre-positioning ships, operation of the Ready Reserve Force, and acquisition of ships for the Military Sealift Command, the Ready Reserve Force, and the Marine Corps.

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget re- quest	Committee recommended	Change from request
Strategic Ship Acquisition	1,089,902	1,089,902
Mobilization Assets	199,595	199,595
Strategic Sealift Support	4,794	4,794
Sealift Research and Development	72,983	72,983
Ready Reserve Force Operations and Maintenance	275,484	275,484
Maritime Administration Ship Financing Guarantee Program	0	50,000	50,000

SHIP FINANCING LOAN GUARANTEE PROGRAM

The Ship Financing Loan Guarantee Program administered by the Maritime Administration provides an effective means to stimulate the domestic shipbuilding industrial base. The recommendation provides \$50,000,000 for the ship financing loan guarantee program. The Secretary of the Navy is directed to work in conjunction with the Administrator of the Maritime Administration to en-

sure this funding is used for the loan guarantee program established under chapter 537 of title 46, United States Code.

DEFENSE COALITION SUPPORT FUND

Fiscal year 2009 appropriation	---
Fiscal year 2010 budget request	\$22,000,000
Committee recommendation	0
Change from budget request	-22,000,000

The Committee provides no funding for a new appropriation to finance the acquisition of defense articles and defense services in anticipation of their temporary use or transfer to eligible foreign countries and international organizations, including the support of coalition or international military stability or counter-terrorism operations. Funding for this purpose is included in title IX under "Operation and Maintenance, Defense-Wide".

TITLE VI
OTHER DEPARTMENT OF DEFENSE PROGRAMS
DEFENSE HEALTH PROGRAM

Fiscal year 2009 appropriation	\$25,825,832,000
Fiscal year 2010 budget request	27,903,163,000
Committee recommendation	29,891,109,000
Change from the budget request	1,987,946,000

This appropriation funds the Defense Health Program of the Department of Defense. The total amount recommended in the bill will provide the following program in fiscal year 2010:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

Defense Health Program:

Wound Care Research		13,000	

DEFENSE HEALTH PROGRAM DIRECT (OR IN-HOUSE) CARE

The Department of Defense created the “efficiency wedge” to enable the Services to receive funding for increasing work load that returned to the Military Treatment Facilities (MTFs). The Committee is concerned that the Navy and Air Force are not properly executing the efficiency wedge reimbursement and, therefore, are not accurately budgeting for MTF costs. The Navy and Air Force only used a small portion of the efficiency wedge for the Direct Care Budget Activity Group (BAG) while disseminating the majority of the funding to other BAGs, research and development and military construction. This demonstrates a lack of use of the MTFs by the Navy and Air Force with more reliance on outside provided health care for their populations. The Committee directs the Assistant Secretary of Defense for Health Affairs to review whether or not the efficiency wedge should be continued as a mechanism for reimbursement in fiscal year 2011 and beyond. The Assistant Secretary of Defense for Health Affairs should report on the findings of this review within 30 days of enactment of this Act.

In addition, the Committee directs the Department of Defense to review budget execution data for all of the Defense Health Program accounts and to adequately reflect changes to the budget activities requested by the Services in future budget submission beginning in fiscal year 2011 and beyond.

PRIVATE SECTOR CARE SHORTFALL

The Committee has been briefed on the funding shortfall that exists in the fiscal year 2009 Private Sector Care Budget Activity Group (BAG) for which the Department is using allowed operation and maintenance carryover and prior approval reprogramming authority to correct. The Committee has been made aware of a similar shortfall in fiscal year 2010. The shortfall is due to a workload increase for the Army, increased usage by Active Duty, Reserve Components and their dependents, in conjunction with the current economic situation and the lack of pharmaceutical rebates collected by the Department for federal pricing. The beneficiary population for TRICARE is currently 9.5 million beneficiaries while the budget is based on a 9.2 million beneficiary population. Therefore, the Committee has provided an additional \$1,281,716,000 to the Private Sector Care BAG to help alleviate the shortfall in anticipation of the Department collecting the \$1,000,000,000 in rebates that are currently owed. The Committee directs the Secretary of Defense to report to the congressional defense committees by August 30, 2009, on the status of additional rebates that have been collected.

CARRYOVER

The Committee has provided two percent carryover for operation and maintenance funding for fiscal year 2010 and directs the Assistant Secretary of Defense for Health Affairs to submit a detailed spend plan for fiscal year 2009 designated carryover funds to the congressional defense committees 30 days after enactment of this Act. Given the complex nature of the Defense Health Program, the Committee expects the Department of Defense and the Office of Management and Budget to be fiscally responsible in budgeting for

the Defense Health Program and coordinate required justification material submitted to Congress.

TRAUMATIC BRAIN INJURY AND PSYCHOLOGICAL HEALTH

Traumatic Brain Injury (TBI) and psychological health issues have emerged as a significant cause of death to the warfighters in Iraq and Afghanistan. Whether mild, moderate or severe brain injury, the level of assessment and standard of care provided to the warfighter is in need of enhancement. Diagnosis, treatment, and rehabilitation must be at a level to ensure the best possible outcome. To this end, the bill includes \$500,000,000, which is \$127,800,000 above the budget request, to address all levels of brain injury and psychological health issues that servicemembers and their families experience.

The Department provides specialized treatment and rehabilitation for brain injured troops, but much more is needed. The Department is expected to continue to provide the necessary care and treatment to servicemembers and their families. The vast majority of disabled troops will ultimately return to their home communities, which may be far removed from specialized centers. Therefore, the identification of local services is crucial to an appropriate rehabilitation plan. The Department of Defense Military Centers and the Department of Veterans Affairs should coordinate with civilian centers to guarantee that optimal treatments and assistance are available throughout the country.

The Committee is aware of gaps within TBI and psychological treatment methods that need to be addressed. The Department is expected to continue working with the Department of Veterans Affairs, Department of Health and Human Services, academia and industry to focus on the research and treatment necessary to address the gaps that have been identified.

An area of particular interest is the provision of appropriate and accessible counseling to servicemembers and their families who live in locations that are not close to military treatment facilities, other Military Health System health facilities or TRICARE providers. Funding provided in this bill is also to be used for the development and operation of the Defense Center of Excellence (DCoE) and the various centers, programs and initiatives that fall within its purview and resources to support the service medical departments as they continue to build and expand their TBI and psychological health capacity through initiatives and supportive programs. Other initiatives, such as telehealth, clinical standards supporting TBI and psychological health, and training and education outreach should also be included.

Funding has also been provided to continue medical research and development on TBI and psychological health. The following research topics are recommended for consideration under this program: therapeutic drug discovery; optical imaging of blood flow; headache disorders; research into neural prosthesis; studies of mental health disorders and Post Traumatic Stress Disorder (PTSD) to include neuropsychiatric studies, biochemical mechanisms that underlie human emotional reactions to combat stress and resulting clinical disorders, metrics for mental health assessment and methods to evaluate and improve PTSD rehabilitation efforts; studies of

Traumatic Brain Injury (TBI) including basic research on neural injury treatments, cell replacement and regrowth strategies, specific therapies to prevent and reverse spinal cord and other neuro-traumatic damage, pharmaceutical interventions to stimulate neural circuits, “activity-based” physical therapy, and extended rehabilitation focused on impairments in vision and cognitive functioning; clinical research of blast-related cell damage and the resulting effects on neurological response; 3D models of IED blast waves to develop equipment to mitigate injury to service members; a fully automated, self contained, disposable chip to diagnose TBI at the point of onset; DA-EEG assessment and MRI quantization to allow an accurate assessment of TBI; computational approaches to integrate global transcriptomics and proteomics information to identify the biological networks altered following TBI; studies of PTSD and/or TBI including basic research in neurorehabilitation, the integration of informatics, and advanced computational research to analyze brain tissue and activities, the use of advanced neuroimaging, behavioral and genetic information to develop biomarkers, diagnostics, and treatments for semi-acute and chronic injury stages. Funding provided for research and development shall incorporate all aspects of research in the areas of TBI and psychological health by conducting basic science and translational research for the purposes of understanding the etiology, developing preventive interventions and new treatments, and evaluating the outcomes to arrive at best-practice solutions. This requirement includes incorporating training, combat theater operations, post deployment evidence-based preventive and early intervention measures, practices, or procedures to reduce the likelihood that personnel in combat will develop PTSD or other stress-related conditions or sustain traumatic brain injuries.

TRAVEL EXPENSES

The Committee is aware that from October 1, 2008, through June 30, 2009, the Defense Center of Excellence for Psychological Health and Traumatic Brain Injury recorded travel expenses of \$345,474.68. The Committee is concerned at the amount of funding from the Defense Health Program, operation and maintenance account that has been spent in only nine months and that over \$100,000 was spent from May 20, 2009, to June 30, 2009. With significant known shortfalls in the Defense Health Program, the Committee directs the Office of the Secretary of Defense for Health Affairs to curtail unnecessary and extraneous travel and events. The Committee also directs Health Affairs to justify the travel in a report to the congressional defense committees on the dates, location and reason for travel within 30 days of the enactment of this Act.

DEPARTMENT OF DEFENSE ELECTRONIC HEALTH RECORD AND ENTERPRISE ARCHITECTURE APPROACH

The fiscal year 2010 budget includes \$1,584,700,000 for information management and information technology. The Department has been involved in development of an electronic health care record (EHR) in conjunction with the Department of Veterans Affairs (VA) since January 2009 and has agreed upon a service oriented architecture (SOA) approach that is adaptive to the changing world of

health care and has inclusive interoperability between the two agencies. A blueprint for the SOA was finalized at the end of May 2009 and submitted to the Office of the Secretary of Defense, Comptroller for review and funding analysis on June 12, 2009. It is the Committee's understanding that the additional funding needed to accelerate completion and deployment of the SOA in 28 months, by February 2011, is \$712,500,000 for fiscal year 2010 and \$441,700,000 for fiscal year 2011.

The Department of Health and Human Services was provided funding in the stimulus package for electronic health care record improvement across the civilian sector. The Committee is concerned that the Department of Defense may now lag behind the civilian entities and its ability to share electronic information with the VA. The Committee also understands that the Under Secretary of Defense, Comptroller is currently reviewing internally what funds may be available to alleviate the unfunded requirement in order to accelerate deployment of the system. Therefore, the Committee directs the Secretary of Defense to report to the Committees on Appropriations of the House of Representatives and the Senate by September 14, 2009, on the status of availability of funding from programs within the Department of Defense.

GUIDANCE FOR THE DEVELOPMENT OF THE FORCE (2010–2015)

The fiscal year 2010 budget submission included \$372,200,000 for traumatic brain injury, psychological health, eye injury, prosthetics, and other battlefield injuries research. The Committee has supported these types of research since 2007 and is encouraged that the Department has for the first time included funding for this type of research. The Committee urges the Department to utilize the established congressional directed medical research program and to work with the U.S. Army Medical Research and Materiel Command in finding the most efficient way of utilizing the unique and military relevant research available.

SPINAL CORD INJURY MEDICAL RESEARCH AND TREATMENT

Spinal cord injuries are one of the many serious wounds resulting from conflicts in Iraq and Afghanistan that require many levels of research and treatment. Significant funding has been provided for research and treatment for neuro-traumatic wounds. However, given the complexity of these types of injuries and the steep learning curve associated with establishing effective treatment regimes, there is much more to be done.

For the coming years, research into regenerating damaged spinal cords, arthritis research, and improving rehabilitation therapies offers real promise for enhancing the long-term care of wounded soldiers. Therefore, the Committee provides \$15,000,000 to continue a competitive, peer-reviewed spinal cord injury research and treatment program. The Secretary of Defense is directed to submit a report to the congressional defense committees not later than 120 days after enactment of this Act on how these funds are to be allocated.

PEER-REVIEWED LUNG CANCER RESEARCH

The Committee has included \$15,000,000 for peer-reviewed lung cancer research. Lung cancer, continues to be the most lethal of all cancers, taking more lives annually than all other major cancers combined. The five year survival rate is only 15 percent and a major contributor is that 70 percent of the diagnoses are late stage. Furthermore, military personnel have increased exposure to lung cancer carcinogens and are thus more susceptible to lung cancer than the general population. These funds, in conjunction with the funds provided in fiscal year 2009, are primarily for an early detection program for military beneficiaries. It is expected that this early detection regimen will be initially implemented in Military Medical Treatment facilities in the National Capital Region.

CENTERS OF EXCELLENCE AT WRAMC/WRNMMC

The Committee includes a total of \$40,000,000 for the following Centers of Excellence at the current Walter Reed Army Medical Center: Breast Care, Gynecologic, Prostate, Pain and Neuroscience, and Integrated Cardiac Health (Wellness). These Centers are in the forefront of the advancement of modern medical care.

It is encouraging that the Department has recognized the importance of these centers to the welfare of our servicemembers and their families and has included them in the construction plans for the new Walter Reed National Military Medical Center and provided a portion of funding in the fiscal year 2010 budget submission. However, the Committee directs the Secretary of Defense to include full funding for these centers beginning with the fiscal year 2011 budget submission.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The Committee provides \$20,000,000 for a peer-reviewed cancer research program that would research cancers not addressed in the breast, prostate, lung and ovarian cancer research programs currently executed by the Department of Defense, and specifically the U.S. Army Medical Research and Materiel Command (USAMRMC).

The funds provided are directed to be used to conduct research in the following areas: melanoma and other skin cancers, pediatric brain tumors within the field of childhood cancer research, genetic cancer research and genomic medicine, kidney cancer, blood cancer, colorectal cancer, Listeria Vaccine for infectious disease and cancer, and radiation protection utilizing nanotechnology.

The funds provided under the Peer-Reviewed Cancer Research Program shall be used only for the purposes listed above. The Department of Defense is directed to provide a report by February 8, 2010, to the congressional defense committees on the status of the peer-reviewed cancer research program as to the relevance of this type of research for servicemembers and their families.

VISION RESEARCH

The Committee commends the Department on including operation and maintenance funding for the Vision Center of Excellence however, the Department did not specifically identify any funding for vision research and development to continue assessing new

technologies and therapies to address the ocular issues of servicemembers. Current research targets the causes, effects, and treatment of eye damage and diseases that, despite their different mechanisms and pathogenesis, all have a common end result: degeneration of the critical components of the eye and impairment or loss of vision. In order to implement therapeutic strategies to prevent or treat visual problems common to combat soldiers, the Army needs to develop and validate compounds and strategies. Therefore, the Committee provides \$5,000,000 for vision research and directs the Army to target the various causes, effects and treatment of visual injury resulting from exposures to the elements during combat operations, and damage from explosive devices. This type of research will ultimately be used to ensure and sustain combat readiness.

JOINT PATHOLOGY CENTER

Section 722 of the National Defense Authorization Act of 2008 (Public Law 110–181) directs the Department of Defense to continue maintenance and modernization of the Armed Forces Institute of Pathology Tissue Repository and to utilize the Repository for conducting activities in support of the Joint Pathology Center established in the same Act. The Committee is aware that in 2007 the Uniformed Services University of the Health Sciences commissioned an assessment of the Repository that resulted in specific recommendations for modernizing the Repository by improving the quality and accessibility of the collections contained therein. The Committee directs that within 90 days of enactment of this Act, the Secretary of Defense shall report to the congressional defense committees on the status of implementation of those recommendations.

PEER-REVIEWED NEUROTOXIN EXPOSURE TREATMENT PARKINSON'S RESEARCH PROGRAM

The United States Army Medical Research and Materiel Command (USAMRMC) is advancing research in investigating the underlying biologic mechanisms and therapeutic interventions of neuro-degenerative effects caused by deployment, environmental and occupational exposures. Therefore, \$25,000,000 is recommended for the continuation of this vital research and other neurological disorders through collaborative work between the military, a non-profit organization and an academic laboratory with distinguished scientific credentials in this field.

MEDICAL CARE IN THE NATIONAL CAPITAL REGION

The Committee has expressed concerns over whether the current approach to the replacement hospitals at both the new Walter Reed National Military Medical Center (WRNMMC) and Fort Belvoir will result in “world class” hospitals, but even more so will result in a “world class” medical care system in the National Capital Region. At present there are 439,000 beneficiaries in the region and the two major Military Medical Centers in the area, Walter Reed Army Medical Center and the National Naval Medical Center, are the “flagship” hospitals for their respective services.

The Committee has outlined concerns about the excessive cost growth for the two new facilities, which has increased from \$835,000,000 to \$2,400,000,000, the inadequate parking at the new WRNMMC, ingress and egress challenges at both facilities, and the transition of the workforce, patients, and equipment from the current facilities to the new hospitals. These are a few of the issues that currently remain and must be addressed. The Joint Task Force National Capital Region Medical established on September 14, 2007, has worked diligently to make up for a lack of adequate prior planning. However the Committee still believes these projects are primarily schedule driven in order to meet the September 15, 2011 date and that quality control measures to ensure minimal accreditation and optimal configuration are being neglected.

The Committee recently received the congressionally mandated independent review of the design plans for the Walter Reed National Military Medical Center and the Fort Belvoir Community Hospital titled "Achieving World Class".

A review of the report indicates it is truly comprehensive and corroborates many of the concerns mentioned by the Committee. Furthermore, it goes much further and surfaces organizational, budgetary, and service related cultural challenges that must be overcome if medical care in the National Capital Region is to be truly "world class".

The Committee awaits the Secretary of Defense's 30 day assessment of the findings and recommendations of the independent review panel in accordance with provisions in the Public Law 110-417 and the plans for addressing the findings and recommendations.

VACCINE RESEARCH

The development of vaccines that can protect military personnel against exposure from infectious pathogens as a result of natural exposure or as a result of weaponized attacks continues to be a high priority research area for the Walter Reed Army Institute of Research (WRAIR). In order to enhance WRAIR's capabilities, the Committee encourages collaborative efforts with institutes of higher learning that possess state-of-the-art laboratory equipment and containment facilities that will ensure the rapid application of basic research results and the development of vaccines necessary for the protection of force health. These collaborative efforts will ensure that WRAIR remains the premier biomedical and vaccine research and development organization within the Department of Defense.

TRICARE OUTPATIENT PROSPECTIVE PAYMENT SYSTEM

The Committee is aware of concerns that the TRICARE Outpatient Prospective Payment System (OPPS) implemented this year include an appropriate transition period, especially for hospitals with a high volume of TRICARE patients. The Committee is aware that the Department made improvements to its initial plan based on input received during the vetting process but understands that there is still concern among high volume hospitals. Therefore, the Committee directs the Department to continue with multi-year phase-in adjustments to assist hospitals in transitioning to a fair

reimbursement system, consistent with law, that will reimburse reasonable costs and permit an appropriate return on investment.

UMBILICAL CORD BLOOD RESEARCH

Research has shown that cord blood transplantation can achieve unique and striking results in treating leukemia, lymphoma, and other cancerous blood diseases, immunodeficiency syndromes, bone marrow failure syndromes, sickle cell anemia, thalassemia and some inherited metabolic diseases. The Committee is aware of a pilot project underway at Womack Army Medical Center in Fayetteville, NC, in collaboration with the Carolinas Cord Blood Bank and the National Cord Blood Inventory, to create the nation's first military collection site for cord blood. This initiative will increase the national cord blood inventory and enhance the national capacity to identify suitable transplant donors, particularly among minority communities. The Committee commends the Womack Army Medical Center and encourages the Army to consider extending this pilot to all of its obstetrical healthcare facilities.

CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

Fiscal year 2009 appropriation	\$1,505,634,000
Fiscal year 2010 budget request	1,560,760,000
Committee recommendation	1,510,760,000
Change from budget request	-50,000,000

This appropriation funds the Chemical Agents and Munitions Destruction activities of the Department of Defense.

The Committee recommends an appropriation of \$1,510,760,000 for the Chemical Agents and Munitions Destruction, Defense program. The recommendation is \$50,000,000 below the request, and an increase of \$5,126,000 from the amount appropriated in fiscal year 2009.

The total program recommended in the bill will provide the following in fiscal year 2010:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget request	Committee recommended	Change from request
Chem Demilitarization—Operation and Maintenance	1,146,802	1,146,802
Chem Demilitarization—Procurement	12,689	12,689
Chem Demilitarization—Research, Development, Test and Evaluation	401,269	351,269	-50,000

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

Fiscal year 2009 appropriation	\$1,096,743,000
Fiscal year 2010 budget request	1,058,984,000
Committee recommendation	1,237,684,000
Change from the budget request	178,700,000

This appropriation provides funds for military personnel, operation and maintenance, procurement; and research, development, test and evaluation for drug interdiction and counter-drug activi-

ties of the Department of Defense to include activities related to narcoterrorism.

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget request	Committee recommended	Change from request
Counter Narcotics	1,058,984	1,237,684	178,700
PC8804 Demand Reduction-Civilian Agency Drug Testing—NSA		– 1,000
PC9205 EUCOM CN Operational Support—excessive growth		– 2,000
PC9206 AFRICOM CN Operational Support—excessive growth		– 2,000
PC9301 CENTCOM Counterthreat Finance Unit		– 2,000
Delaware National Guard Counter-Drug Task Force		300	
Western Region Counter-Drug Training Center		2,500	
Kentucky National Guard Counter-Drug Program		3,500	
Florida Counter-Drug Program		2,900	
Nevada National Guard Counter-Drug Program		4,000	
North Carolina Counter-Drug Task Force		1,000	
Tennessee National Guard Appalachia High Intensity Drug Trafficking Area		4,000	
Regional Counter-Drug Training Academy		1,500	
Indiana National Guard Counter-Drug Program		3,000	
Young Marines Program		4,000	
Digital Communications		160,000	

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

Fiscal year 2009 appropriation	
Fiscal year 2010 budget request	\$564,850,000
Committee recommendation	364,550,000
Change from budget request	– 200,300,000

This appropriation funds the Joint Improvised Explosive Device Defeat Organization (JIEDDO).

The Committee recommends an appropriation of \$364,550,000 for the Joint Improvised Explosive Device Defeat Organization. The recommendation is a decrease of \$200,300,000 from the amount requested, and an increase of \$364,550,000 from the amount appropriated in fiscal year 2009.

The Committee is aware that JIEDDO has become a standing institution of the Department of Defense. To this effect, the Committee believes that sustaining costs, such as staff and infrastructure and enduring science and technology initiatives, should be funded in the budget. However, the Committee believes that this funding should be properly accounted for and should be given the same time limitations as traditional funding accounts. Therefore, funds provided for the Attack the Network line of operation are available for two years; funds provided for the Defeat the Device line of operation are available for three years; funds provided for the Train the Force line of operation are available for one year; and funds provided for the Staff and Infrastructure line of operation are available for one year.

Furthermore, the Committee continues to direct JIEDDO to follow standard reprogramming procedures when transferring a cumulative amount of \$20,000,000 or more between lines of operation.

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget request	Committee recommended	Change from request
Attack the Network	203,100	183,000	- 20,100
Defeat the Device	199,100	25,000	- 174,100
Train the Force	41,100	35,000	- 6,100
Staff and Infrastructure	121,550	121,550

RAPID ACQUISITION FUND

Fiscal year 2009 appropriation
Fiscal year 2010 budget request	\$79,300,000
Committee recommendation
Change from budget request	- 79,300,000

The Committee recommends no funding for the Rapid Acquisition Fund in title VI. The Rapid Acquisition Fund will be addressed in title IX of this Act.

OFFICE OF THE INSPECTOR GENERAL

Fiscal year 2009 appropriation	\$271,845,000
Fiscal year 2010 budget request	272,444,000
Committee recommendation	288,100,000
Change from budget request	15,656,000

The Committee recommends an appropriation of \$288,100,000 for the Office of the Inspector General. The recommendation is an increase of \$15,656,000 above the amount requested and will allow the DoD Inspector General to provide additional oversight of Department of Defense contracted services.

TITLE VII
RELATED AGENCIES

NATIONAL AND MILITARY INTELLIGENCE PROGRAMS

The National Intelligence Program and the Military Intelligence Program budgets funded in the Department of Defense Appropriations Act consist primarily of resources for the Director of National Intelligence including the Intelligence Community Management staff, the Central Intelligence Agency (CIA), the Defense Intelligence Agency, the National Reconnaissance Office, the National Security Agency, the National Geospatial-Intelligence Agency, the intelligence services of the Departments of the Army, Navy, Air Force, and Marine Corps and the CIA Retirement and Disability fund.

CLASSIFIED ANNEX

The Committee's budget reviews are published in a separate detailed and comprehensive classified annex. The intelligence community, Department of Defense and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2010. As directed by House Resolution 35, the recommendations of the Select Intelligence Oversight Panel are incorporated as recommendations to the House Appropriations Committee, Subcommittee on Defense, in the accompanying classified annex.

**CENTRAL INTELLIGENCE AGENCY RETIREMENT AND
DISABILITY SYSTEM FUND**

Fiscal year 2009 appropriation	\$279,200,000
Fiscal year 2010 budget request	290,900,000
Committee recommendation	290,900,000
Change from request

This appropriation provides payments of benefits to qualified beneficiaries in accordance with the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (P.L. 88-643), as amended by Public Law 94-522. This statute authorized the establishment of the CIA Retirement and Disability System (CIARDS) for certain employees and authorized the establishment and maintenance of a fund from which benefits would be paid to those beneficiaries.

The Committee recommends the budget request of \$290,900,000 for the Central Intelligence Agency Retirement and Disability System fund. This is a mandatory account.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

Fiscal year 2009 appropriation	\$710,042,000
Fiscal year 2010 budget request	672,812,000
Committee recommendation	611,002,000
Change from request	-61,810,000

The Committee recommends an appropriation of \$611,002,000 for the Intelligence Community Management Account, a decrease of \$61,810,000 below the budget request. Of the amount appropriated under this heading, \$24,000,000 may be transferred to the Executive Office of the President for the Program Manager for Information Sharing. The total program recommended in the bill will provide the following in fiscal year 2010:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[in thousands of dollars]

	Budget request	Committee recommended	Change from re- quest
Intelligence Community Management Account	672,812	611,002	-61,810
Classified Adjustment		-64,810	
Language Mentorship Program incorporating an electronic portfolio		1,000	
Counter-Threat Finance—Global		2,000	
Total, ICMA	672,812	611,002	-61,810

THE INTELLIGENCE COMMUNITY'S BUSINESS TRANSFORMATION OFFICE

The Committee appreciates the progress the Business Transformation Office (BTO) has made in the last year to the Intelligence Community's business systems and looks forward to continued progress to address these issues. The Committee has included a funding transfer of the Financial Improvement Group to the BTO and the Committee supports the efforts made by BTO in creating the May 2009 BTO strategy. The Committee is concerned that recent changes to place the BTO under the Chief Information Office may not result in the necessary level of emphasis and attention to these issues by senior management within the Office of the Director of National Intelligence and within the Intelligence Community. The Committee requests that the Director of National Intelligence review this recent change and take the necessary steps to ensure that BTO initiatives are successfully implemented. The Director of National Intelligence is directed to report to the Committee on the actions taken to ensure that these concerns are addressed.

The Committee remains concerned that the Office of the Director of National Intelligence, the National Geospatial-Intelligence Agency, the Central Intelligence Agency, the National Security Agency, the Defense Intelligence Agency, and the National Reconnaissance Office cannot receive unqualified or "clean" financial audit opinions. This reality is even more concerning considering the Intelligence Community spends over a quarter billion dollars annually on "financial management," which does not include other business systems and processes like procurement, human resources, or logistics. Therefore, within 90 days of enactment of this Act, the Committee directs the Director of National Intelligence to submit a report that: 1) addresses the acquisition challenges facing the Business Transformation Office; 2) explains where the most efficient

and secure place to store the Community's business data will be for the foreseeable future; and 3) review the process for hiring highly qualified experts and provide recommendations that streamline the current bureaucratic process to one that allows the Director of the Business Transformation Office to efficiently build an effective staff. Finally, the report should provide a target date when all National Intelligence Program funds will achieve a sustainable unqualified audit opinion.

INTELLIGENCE COMMUNITY EDUCATION AND TRAINING STRATEGIC DESIGN

The Committee continues to be concerned with the lack of a strategic plan when it comes to the Intelligence Community's professional education curriculum and supporting training programs. The current patchwork of academies, courses, language training efforts and schools is the result of multiple programs and initiatives instead of a coherent strategy. The Director of National Intelligence needs to benchmark successful programs like the Department of Defense's National Defense University and develop an appropriate educational and professional development strategy for the Intelligence Community that creates an innovative and competitive 21st century professional intelligence workforce. The Committee would like to see steps taken to establish the Intelligence Community's cap-stone school in a manner that takes best advantage of opportunities for learning synergies and a transformative learning environment with other national security students. Also, the Committee directs that steps be taken to evolve the National Defense Intelligence College to a fee-for-service program so that both Congress and the executive branch can be assured that there is still a true demand for the product being provided.

HUMAN LANGUAGE TECHNOLOGY

The Committee directs the Director of National Intelligence to submit to the congressional intelligence committees within 120 days of enactment of this Act, a report on the status of Human Language Technology (HLT) within the Intelligence Community. The report shall identify an intelligence community executive agent responsible for the coordination of research, development, and implementation of HLT initiatives, identify current HLT capabilities and their return on investment, project future HLT requirements, and describe efforts to implement community licensing.

TITLE VIII
GENERAL PROVISIONS

The accompanying bill includes 119 general provisions. Most of these provisions were included in the Department of Defense Appropriations Act for fiscal year 2009 and many have been included in the Defense Appropriations Acts for a number of years. A description of each provision follows.

Section 8001 provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Section 8002 provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Section 8003 provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless expressly provided for a greater period of availability is provided elsewhere in the Act.

Section 8004 provides a 20 percent limitation on the obligation of funds provided in this Act during the last two months of the fiscal year.

Section 8005 has been amended and provides for the general transfer authority of working capital funds to other military functions.

Section 8006 provides for the incorporation of project level tables.

Section 8007 provides for the establishment of a baseline for application of reprogramming and transfer authorities for fiscal year 2010.

Section 8008 has been amended and provides for limitations on the use and transfer authority of working capital fund cash balances.

Section 8009 provides that none of the funds appropriated in this Act may be used to initiate a special access program without prior notification to the congressional defense committees.

Section 8010 has been amended and provides limitations and conditions on the use of funds made available in this Act to initiate multi-year contracts.

Section 8011 provides for the use and obligation of funds for humanitarian and civic assistance costs under Chapter 20 of title 10, United States Code.

Section 8012 has been amended and provides that civilian personnel of the Department may not be managed on the basis of end strength or be subject to end strength limitations.

Section 8013 prohibits funds made available in this Act from being used to influence congressional action on any matters pending before the Congress.

Section 8014 prohibits compensation from being paid to any member of the Army who is participating as a full-time student

and who receives benefits from the Education Benefits Fund when time spent as a full-time student is counted toward that member's service commitment.

Section 8015 temporarily suspends studies and public-private competitions regarding conversion of any activity or function performed by civilian employees of the Department of Defense to contractor performance with certain exceptions.

Section 8016 provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protégé Program.

Section 8017 provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Section 8018 has been amended and prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of surplus firearms.

Section 8019 provides a limitation on funds being used for the relocation of any Department of Defense entity into or within the National Capital Region.

Section 8020 provides for incentive payments authorized by section 504 of Indian Financing Act of 1974 (25 U.S.C. 1544).

Section 8021 has been amended and provides that no funds made available in this Act for the Defense Media Activity may be used for national or international political or psychological activities.

Section 8022 has been amended and clarifies the time period funds may be used to perform cost studies under OMB Circular A-76.

Section 8023 provides for the obligation of funds for purposes specified in section 2350j(c) of title 10, United States Code.

Section 8024 has been amended and provides that, of the funds made available in this Act, not less than \$34,756,000 shall be available for the Civil Air Patrol Corporation.

Section 8025 has been amended and provides for the number of staff years of technical effort that may be funded for defense Federally Funded Research and Development Centers (FFRDC).

Section 8026 provides for the Department of Defense to procure carbon, alloy or armor steel plate melted and rolled only in the United States and Canada.

Section 8027 defines the congressional defense committees as being the Armed Services Committees and the Subcommittees on Defense of the Committees on Appropriations of the House of Representatives and the Senate.

Section 8028 provides for competitions between private firms and Department of Defense Depot Maintenance Activities for modification, depot maintenance, and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles.

Section 8029 provides for revocation of blanket waivers of the Buy American Act upon a finding that a country has violated a reciprocal trade agreement by discriminating against products produced in the United States that are covered by the agreement.

Section 8030 provides for the availability of funds for purposes specified in section 2921(c)(2) of the 1991 National Defense Author-

ization Act, namely facility maintenance and repair and environmental restoration at military installations in the United States.

Section 8031 provides for the conveyance, without consideration, of relocatable housing units located at Grand Forks, Malmstrom, Mountain Home and Minot Air Force Bases to Indian Tribes located in Nevada, Idaho, North and South Dakota, Montana, and Minnesota.

Section 8032 provides authority to use operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000, or upon determination by the Secretary of Defense that the operational requirements of a Commander of a Combatant Command engaged in contingency operations overseas can be met, funds may be used to purchase items having an investment item unit cost of not more than \$500,000.

Section 8033 prohibits the use of Working Capital Funds to purchase specified investment items.

Section 8034 has been amended and provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Working Capital Fund, or other certain programs authorized under section 503 of the National Security Act.

Section 8035 provides that funds available for the Defense Intelligence Agency may be used for intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

Section 8036 provides for the availability of funds for the mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

Section 8037 provides for the Department of Defense to comply with the Buy American Act (title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes").

Section 8038 provides conditions under which contracts for studies, analyses or consulting services may be entered into without competition on the basis of an unsolicited proposal.

Section 8039 provides for the limitations of funds made available in this Act to establish Field Operating Agencies.

Section 8040 provides grant authorities for the Department of Defense acting through the Office of Economic Adjustment.

(RESCISSIONS)

Section 8041 has been amended and provides for the rescission of \$1,391,339,000 from the following programs:

2009 Appropriations:	
Other Procurement, Army:	
Night Vision Devices	\$131,900,000
Shipbuilding and Conversion, Navy:	
LHA (Replacement)	177,767,000

Section 8042 prohibits funds made available in this Act from being used to reduce authorized positions for military (civilian) technician of the Army National Guard, Air National Guard, Army Reserve and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Section 8043 provides that none of the funds made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of Korea unless appropriated for that purpose.

Section 8044 provides for reimbursement to the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counterintelligence support to the Combatant Commands, Defense Agencies and Joint Intelligence Activities.

Section 8045 prohibits funds made available in this Act from being used to reduce civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003, level unless the Service Surgeons General certify to the congressional defense committees that it is a responsible stewardship of resources to do so.

Section 8046 provides that Defense and Central Intelligence Agencies' drug interdiction and counter-drug activity funds may not be transferred to other agencies unless specifically provided in an appropriations law.

Section 8047 prohibits the use of funds appropriated by this Act for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Section 8048 provides for the Department of Defense to purchase supercomputers manufactured only in the United States.

Section 8049 prohibits the use of funds made available in this or any other Act to transfer administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without expressed authorization of the Congress.

Section 8050 provides for prior Congressional notification of article transfers to international peacekeeping organizations.

Section 8051 prohibits the use of funds made available in this Act for contractor bonuses from being paid due to business restructuring.

Section 8052 provides for the transfer of funds to be used to support personnel supporting approved non-traditional defense activities.

Section 8053 provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Section 8054 provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Section 8055 provides for the availability of funds appropriated in this Act to implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community, Germany.

Section 8056 provides for the limitation on the use of funds appropriated in title IV to procure end-items for delivery to military forces for operational training, operational use or inventory requirements.

Section 8057 prohibits the use of funds made available in this Act from being used to approve or license the sale of the F-22A advanced tactical fighter to any foreign government.

Section 8058 provides for a waiver of the "Buy America" provisions for certain cooperative programs.

Section 8059 prohibits the use of funds made available in this Act to support the training of members of foreign security forces who have engaged in gross violations of human rights.

Section 8060 provides for the Department to develop, lease or procure T-AKE class ships with main propulsion engines and propulsors manufactured only in the United States by a domestically operated entity.

Section 8061 prohibits the use of funds made available in this Act for repairs or maintenance to military family housing units.

Section 8062 provides obligation authority for new starts for advanced concept technology demonstration projects only after notification to the congressional defense committees.

Section 8063 provides that the Secretary of Defense shall provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Section 8064 prohibits the use of funds made available to the Department of Defense to provide support to an agency that is more than 90 days in arrears in making payments to the Department of Defense for goods or services provided on a reimbursable basis.

Section 8065 provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Section 8066 prohibits the use of funds made available in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and is designated as "armor piercing" except for demilitarization purposes.

Section 8067 provides for a waiver by the Chief of the National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of less than one year.

Section 8068 prohibits funds made available in this Act from being used to purchase alcoholic beverages.

Section 8069 provides for the use of funds made available to the Department of Defense for the Global Positioning System.

Section 8070 has been amended and provides for the transfer of funds made available in this Act under “Operation and Maintenance, Army” to other activities of the Federal Government for classified purposes.

Section 8071 provides for the forced matching of disbursement and obligations made by the Department of Defense in fiscal year 2010.

Section 8072 has been amended and provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Section 8073 has been amended and provides funding and transfer authority for the Arrow missile defense program.

Section 8074 has been amended and provides for the transfer of funds to properly complete prior year shipbuilding programs.

Section 8075 prohibits the obligation of funds available to Department of Defense to modify command and control relationships to give Fleet Forces Command administrative and operational control of U.S. Navy forces assigned to the Pacific Fleet.

Section 8076 has been amended and provides for the noncompetitive appointments of certain medical occupational specialties, as prescribed by section 7403(g) of title 38, United States Code.

Section 8077 has been amended and provides that funds made available in this Act are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947.

Section 8078 prohibits the use of funds made available in this Act to initiate a new start program without prior written notification.

Section 8079 provides authority for the Secretary of the Army to make a grant only to the Center for Military Recruitment, Assessment and Veterans Employment.

Section 8080 provides that the budget of the President for fiscal year 2011 shall include separate budget justification documents for costs of the United States Armed Forces’ participation in Operation Iraqi Freedom (OIF) and Operation Enduring Freedom (OEF) for military personnel, operation and maintenance, and procurement accounts.

Section 8081 prohibits funds made available in this Act from being used for the research, development, test, evaluation, procurement or deployment of nuclear armed interceptors of a missile defense system.

Section 8082 provides for use of Operation and Maintenance, Navy funds for flood control system adjacent to the Pacific Missile Range Facility.

Section 8083 has been amended and provides the Secretary of Defense the authority to make grants in the amounts specified.

Section 8084 prohibits funds made available in this Act from being used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Section 8085 prohibits funds made available in this Act from being used for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Section 8086 provides that, at the time members of Reserve components of the Armed Forces are called or ordered to active duty, each member shall be notified in writing of the expected period during which the member will be mobilized.

Section 8087 provides that the Secretary of Defense may transfer funds from any available Department of the Navy appropriation to any available Navy ship construction appropriation to liquidate costs caused by rate adjustments or other economic factors.

Section 8088 provides for the use of current and expired Shipbuilding and Conversion, Navy subdivisions to reimburse the Judgment Fund.

Section 8089 prohibits transfer program authorities relating to current tactical unmanned aerial vehicles (TUAV) from the Army.

Section 8090 provides authority to the Secretary of Defense to adjust wage rates for civilian employees hired for certain health care occupations.

Section 8091 provides the U.S. Pacific Command authority to obligate funds for humanitarian and security assistance within the theater of operation.

Section 8092 has been amended and limits the obligation authority of funds provided for the Director of National Intelligence to the current fiscal year except for research and technology which shall remain available for the current and the following fiscal years.

Section 8093 provides for the adjustment of obligations within the Shipbuilding and Conversion, Navy appropriation.

Section 8094 provides that not more than 35 percent of the funds made available in this Act for environmental remediation may be obligated under indefinite delivery/indefinite quantity contracts with a total contract value of \$130,000,000 or higher.

Section 8095 provides for the creation of a major force program category for space for the Future Year Defense Program of the Department of Defense.

Section 8096 has been amended and directs the Director of National Intelligence to follow the Department of Defense format for yearly submissions of congressional budget documentation.

Section 8097 has been amended and provides limitations on the use of funds made available in this Act to pay negotiated indirect cost rates on agreements or arrangements between the Department of Defense and nonprofit institutions.

Section 8098 directs the Secretary of Defense to maintain on the Department of Defense website a link to Office of the Inspector General of the Department of Defense.

Section 8099 has been amended and prohibits transfers of funds until the Director of National Intelligence submits a baseline for application of reprogramming and transfer authorities.

Section 8100 requires the Director of National Intelligence to submit a future years intelligence program.

Section 8101 defines congressional intelligence committees.

Section 8102 directs that the Department continue to report incremental contingency operations costs for Operation Iraqi Freedom (OIF) and Operation Enduring Freedom (OEF) on a monthly basis in the Cost of War Execution Report as required by Department of Defense Financial Management Regulation.

Section 8103 has been amended and provides for stop loss special pay and clarifies section 310 of P.L. 111-32 regarding eligibility.

Section 8104 has been added and provides for the purchase of armored vehicles.

Section 8105 has been added and provides for up to \$10,000,000 to be transferred from operation and maintenance appropriation accounts for the Army, Navy and Air Force.

Section 8106 has been amended and provides for transfer authority for the Program Manager, Information Sharing Environment.

Section 8107 has been added which specifies the terms and conditions governing reprogramming of funds for the National Intelligence Program in accordance to section 102A(d)(4) of the National Security Act of 1947 (50 U.S.C. 403-1(d)(4)).

Section 8108 has been added and prohibits the use of funds to award to a contractor or convert to performance by a contractor any functions performed by federal employees pursuant to a study conducted under OMB Circular A-76, as of the date of enactment of this Act.

Section 8109 has been added and permits transfer of prior year unobligated balances from the operation and maintenance and military personnel accounts to the foreign currency fluctuation account.

Section 8110 has been added and reduces funds to reflect excess cash balances in Department of Defense Working Capital Funds due to fuel costs.

Section 8111 has been added and restricts funding for business management information technology systems.

Section 8112 is added and provides \$439,615,000 for the "Tanker Replacement Transfer Fund".

Section 8113 is added and provides for benefits under the Post-Deployment/Mobilization Respite Absence Program.

Section 8114 has been added and provides resettlement support and other benefits for certain Iraqi refugees.

Section 8115 has been added and requires full and open competition.

Section 8116 has been added and reduces specific accounts in Title II.

Section 8117 has been added and provides that the Secretary of Defense shall have equal representation on the CDMRP Peer-Reviewed Breast Cancer panel.

Section 8118 has been added and prohibits the elimination of personnel positions from the 194th Regional Support Wing of the United States Air National Guard.

Section 8119 has been added and provides for the disposition of detainees at Naval Station Guantanamo Bay, Cuba.

TITLE IX
OVERSEAS DEPLOYMENTS AND OTHER ACTIVITIES

COMMITTEE RECOMMENDATION

In title IX the Committee recommends total new appropriations of \$128,246,985,000 in Iraq, Afghanistan and elsewhere. A detailed review of the Committee's recommendations for programs funded in this title is provided in the following pages.

OVERSEAS CONTINGENCY OPERATIONS TRANSFER FUND

The Committee has reduced the Service's Overseas Contingency Operations request for operation and maintenance funding by 20 percent and has added an equal amount to the Overseas Contingency Operations Transfer Fund (OCOTF). The nature of military action in Operations Enduring Freedom and Iraqi Freedom is expected to change significantly in fiscal year 2010. Therefore, the Services cannot accurately budget for these operations. The OCOTF account provides flexibility to transfer funds to the needed appropriation account once costs are known. The OCOTF account also carries the protection that these funds cannot be used to correct poor base budget decisions, such as underfunding military personnel pay accounts.

CLASSIFIED ANNEX

The Committee's recommendations for intelligence activities are published in a separate and detailed classified annex. The intelligence community, Department of Defense and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying this Act.

REPORTING REQUIREMENTS

The Committee directs the Secretary of Defense to provide a report to the congressional defense committees within 30 days of enactment of this Act on the allocation of the funds within the accounts listed in this title. The Secretary shall submit updated reports 30 days after the end of each fiscal quarter until funds listed in this title are no longer available for obligation. The Committee directs that these reports shall include: a detailed accounting of obligations and expenditures of appropriations provided in this title by program and subactivity group for the continuation of military operations in Iraq and Afghanistan and a listing of equipment procured using funds provided in this title. The Committee expects that, in order to meet unanticipated requirements, the Department of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The Committee directs the Department of Defense to follow normal

prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this title.

Additionally, the Committee directs that the Department continue to report incremental contingency operations costs for Operation Iraqi Freedom and Operation Enduring Freedom on a monthly basis in the Cost of War Execution report as required by Department of Defense Financial Management Regulation, Chapter 23, Volume 12. The Department is encouraged to do supplementary reporting via the Contingency Operations Status of Funds report, but shall not terminate or replace the Cost of War Execution report.

MILITARY PERSONNEL

The Committee recommends an additional appropriation of \$16,224,549,000 for Military Personnel.

To more accurately reflect the significant Military Personnel costs of U.S. Overseas Contingency Operations, the Committee recommendation has transferred some funding from title I of this Act into title IX. The Committee recommends a transfer of \$56,383,000 in Special Pays for Military Personnel, Army; \$28,116,000 in Special Pays for Military Personnel, Navy; \$34,748,000 in Special Pays for Military Personnel, Marine Corps; and \$78,961,000 in Special Pays for Military Personnel, Air Force. In addition, the Committee recommends an undistributed transfer of \$1,390,000,000 for Military Personnel, Army; \$419,000,000 for Military Personnel, Navy; \$292,000,000 for Military Personnel, Marine Corp; and \$331,000,000 for Military Personnel, Air Force.

The Committee's recommendations for each military personnel account are shown below:

PROGRESS IN AFGHANISTAN

The Committee welcomes the administration's decision to refocus U.S. military, diplomatic and development efforts on Afghanistan after six years of conflict in Iraq. However, the Committee is concerned about the prospects for an open-ended U.S. commitment to bring stability to a country that has a decades-long history of successfully rebuffing foreign military intervention and attempts to influence internal politics. To help ensure that U.S. operations in Afghanistan remain focused, Congress requires the administration to submit a report every 180 days outlining the U.S. security, governance, development, counter-narcotics and regional strategy in Afghanistan, providing a detailed update on progress on these elements of the U.S. strategy, and performance indicators for measuring the results of our efforts. The Committee closely reviews the "Report on Progress toward Security and Stability in Afghanistan", required by section 1230 of the 2008 National Defense Authorization Act (Public Law 110-181), and finds it an extremely useful oversight tool, particularly when delivered on time. However, the Committee is concerned that absent from this report is a discussion of how much time and resources the United States will commit in Afghanistan if security and stability remain out of reach, despite incremental success toward achieving elements of the strategy the administration has set forward. Accordingly, the Committee directs the Secretary, in consultation with the National Security Advisor, to include in the next report submitted in accordance with section 1230 of Public Law 110-181 an assessment of the overall prospects for lasting stability in Afghanistan given the accomplishments and failures of the reporting period, the major impediments toward success encountered during the reporting period, and an estimation of the time table for assessing success in Afghanistan given developments during the reporting period.

COMMANDER'S EMERGENCY RESPONSE PROGRAM

The Committee has provided \$1,300,000,000 for the Commander's Emergency Response Program (CERP) in fiscal year 2010, a reduction of \$200,000,000 below the request. Pursuant to section 1212 of the House-passed National Defense Authorization Act for Fiscal Year 2010 (H.R. 2647), additional funds are not authorized. Of the funds provided for CERP, the Committee withholds \$500,000,000 pending completion and submission of the report described below.

While the Committee understands the value of CERP for our combatant commanders, it is deeply concerned that CERP has grown from an incisive counter-insurgency tool to an alternative U.S. development program with few limits and little management. The U.S. Army and U.S. Central Command have failed to justify ever-growing CERP budget requests or to execute proper management or oversight of those funds. Recent reports indicate intense pressure on Provincial Reconstruction Teams and combatant commanders to "rush to spend" hundreds of millions of dollars in the last quarter of the fiscal year. They have submitted a barrage of multi-million dollar CERP proposals that seem designed primarily to ensure that that all available funds are spent. The Committee

is particularly concerned that this practice could put the Department of Defense in conflict with section 8004 of the fiscal year 2009 Defense Appropriations Act, which prohibits more than 20 percent of the appropriations in that Act limited for obligation in the current fiscal year from being obligated in the last two months of the year.

Given these concerns, the Committee believes a fundamental review of CERP is now urgently required. Therefore, the Committee directs the Secretary of Defense, in consultation with the National Security Advisor, to conduct a thorough review of CERP, its purpose, use and scope, and to report to the congressional defense committees not later than 90 days after enactment of this Act. That review and report should include, at a minimum: a review and explanation of the process by which CERP budget requests are generated and justified; a review of the practice of obligating a significant amount of CERP funding in the last quarter of the fiscal year; a review of existing management and oversight of CERP funds by the Department of the Army and CENTCOM that includes an assessment of whether there are sufficient, appropriately-trained personnel to oversee this program at both the department level and in the area of operations; a separate assessment for Iraq and Afghanistan of the goals, purpose and expected requirement for CERP funds in the coming year; a separate assessment for Iraq and Afghanistan of the appropriate use of CERP funds, including an assessment of the appropriate mix of infrastructure projects and smaller-scale humanitarian projects; and a review of the appropriate relationship between projects funded with CERP and development projects carried out by the U.S. Agency for International Development.

COMMANDER EMERGENCY RESPONSE PROGRAM MANAGEMENT AND OVERSIGHT

The Committee is concerned that the Department's plan to significantly increase the use of CERP in Afghanistan does not yet include an increase in the number of personnel qualified to conduct proper oversight and management of those funds. The Committee understands that Joint Contracting Command has requested 28 additional contracting officers, though these are not specifically dedicated to CERP. The Committee also understands that three additional Joint Manning Document billets to exclusively manage CERP have been requested and that U.S. Forces—Afghanistan (USFOR—A) has a pending Request for Forces seeking additional warranted Contracting Officers and Civil Affairs specialists specifically to oversee CERP projects. The Committee directs the Secretary of Defense to report to the congressional defense committees within 30 days of enactment of this Act on the status of these requests and the number of additional personnel being deployed to Afghanistan specifically in support of CERP.

COALITION SUPPORT FUNDS

The Committee has provided \$1,540,000,000 for Coalition Support Funds (CSF) for fiscal year 2010, \$60,000,000 below the requested level. This funding level takes into account the current

\$120,000,000 monthly average of CSF reimbursements to Pakistan and provides an additional \$100,000,000 for CSF payments to other key cooperating nations. While the Committee strongly supports the anti-Taliban operations begun by Pakistani security forces in Spring 2009, the Committee is concerned about the impact of those operations on the size of reimbursements requested by the Government of Pakistan under CSF. While the Committee supports the use of CSF to reimburse Pakistan for military operations conducted in support of U.S. operations in Afghanistan, the Committee is concerned that CSF will be used to fund Pakistani security operations undertaken in response to the existential threat posed to that government by indigenous Taliban and other insurgent forces. The Committee urges U.S. Central Command and the Office of the Defense Representative, Pakistan (ODRP) to work with the Government of Pakistan to establish clear guidelines for the use of CSF that avoid the use of American taxpayers' dollars to fund Pakistan's internal counterinsurgency campaign.

GUANTANAMO BAY NAVAL BASE

The Committee has not provided the \$100,000,000 requested to support the relocation and disposition of individuals detained at the Guantanamo Bay Naval Base. The Department of Defense is still awaiting a decision by the Administration on the future of the detention facility at Guantanamo Bay, and these funds are not needed at this time.

PROCUREMENT

The Committee recommends an additional appropriation of \$20,384,128,000 for Procurement. The Committee's recommendations for each procurement account are shown below:

JAVELIN MISSILE

The budget request proposed \$140,979,000 for Javelin missiles. The Army received \$109,327,000 in the Supplemental Appropriations Act, 2009 for the procurement of approximately 550 missiles. However the Committee notes that only 83 missiles were expended in combat operations in fiscal year 2008 and that only 40 missiles had been expended through mid-fiscal year 2009. Accordingly, the Committee recommends funding of \$115,979,000 for Overseas Contingency Operations funding for Javelin missiles, a reduction of \$25,000,000 below the request.

TOW 2 MISSILE

The budget request included \$59,200,000 for TOW 2 missiles. The Army received \$317,584,000 in the Supplemental Appropriations Act, 2009, to fund the procurement of approximately 6,200 missiles. However, the Committee understands that only 262 TOW 2 missiles were expended in fiscal year 2008 in Iraq and Afghanistan combined, and that TOW 2 expenditures for fiscal year 2009 are not expected to be significantly higher. Accordingly, the Committee recommends \$34,200,000 in Overseas Contingency Operations funding for TOW 2 missiles, a reduction of \$25,000,000 below the request.

SINGLE CHANNEL GROUND AND AIRBORNE RADIO SYSTEM (SINCGARS)

The budget request for Overseas Contingency Operations proposed funding of \$128,180,000 for SINCGARS radios in support of combat operations in Iraq and Afghanistan. However, the requirement for additional SINCGARS radios remains vague as the Army adjusts requirements based on the decision by the Secretary of Defense to support 45 Army brigade combat teams instead of 48. Additionally, the Committee continues to have concerns that the Army may not be taking full advantage of advances in technology for tactical radios including greater compliance with Joint Tactical Radio System technology. Accordingly, the Committee recommends no funding for SINCGARS radios.

FAMILY OF HEAVY TACTICAL VEHICLES (FHTV)

The budget request proposed \$623,230,000 for the Family of Heavy Tactical Vehicles. This funding line includes heavy trucks ranging from Heavy Equipment Transporters to the Heavy Expanded Mobility Tactical Truck. The Committee strongly supports funding the trucks needed by units in the field and for necessary training. However, the Committee understands that the contract for the Heavy Equipment Transporter System (HETS) M1070 Truck Tractor will be delayed until January 2011. Accordingly, the Committee recommends funding of \$520,750,000, a reduction of \$102,480,000 below the request, with no funding for HETS Truck Tractors.

155MM LIGHTWEIGHT TOWED HOWITZER

The budget request proposed \$54,000,000 for new 155mm Lightweight Towed Howitzers. The Committee notes that Congress provided \$186,000,000 in the Supplemental Appropriations Act, 2009,

\$117,000,000 greater than the requested amount of \$69,000,000. Since the Committee advance funded this request in the Supplemental Appropriations Act, 2009, the recommendation provides no funding for Overseas Contingency Operations, a reduction of \$54,000,000.

MOTOR TRANSPORT MODIFICATIONS

The budget request proposed \$10,177,000 for motor transport modifications. The Committee notes that Congress provided \$38,355,000 in the Supplemental Appropriations Act, 2009, \$22,500,000 greater than the requested \$15,855,000. Since the Committee advance funded this request in the Supplemental Appropriations Act, 2009, the recommendation provides no funding for Overseas Contingency Operations, a reduction of \$10,177,000.

NATIONAL GUARD AND RESERVE EQUIPMENT

The recommendation for the National Guard and Reserve Equipment Account is \$500,000,000. Of that amount, \$300,000,000 is for the Army National Guard; \$50,000,000 for the Air National Guard; \$80,000,000 for the Army Reserve; \$25,000,000 for the Navy Reserve; \$20,000,000 for the Marine Corps Reserve; and \$25,000,000 for the Air Force Reserve to meet urgent equipment needs that may arise this fiscal year. This funding will allow the Guard and reserve components to procure high priority equipment that will complement the combined State and Federal missions.

MINE RESISTANT AMBUSH PROTECTED VEHICLE VIRTUAL TRAINER

The Committee provides \$3,606,000,000 for the Mine Resistant Ambush Protected Vehicle (MRAP) Fund. Because of the large size and complexity created when operating an MRAP, special training is needed. The services offer a specific training course devoted to teaching servicemembers the necessities of MRAP operation prior to conducting missions in the new vehicle. Unfortunately, because many of the MRAP Virtual Trainers (MRAP-VVT) have limited availability, many pre-deploying National Guard units have little opportunity to train on this equipment prior to movement overseas. Therefore, of the funds provided, \$25,000,000 shall be provided for Mine Resistant Ambush Protected Vehicle Virtual Trainers.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The Committee recommends an additional appropriation of \$241,354,000 for Research, Development, Test and Evaluation. The Committee's recommendations for each research, development, test and evaluation account are shown below:

MINE RESISTANT AMBUSH PROTECTED VEHICLE FUND

The Committee recommends an additional appropriation of \$3,606,000,000 for the Mine Resistant Ambush Protected Vehicle Fund.

OFFICE OF THE INSPECTOR GENERAL

The Committee recommends an additional appropriation of \$8,876,000 for the Office of the Inspector General.

GENERAL PROVISIONS

The accompanying bill includes nine general provisions, many of which extend or modify war-related authorities included in previous Acts. A description of each provision follows.

Section 9001 provides that funds made available in this chapter are in addition to amounts appropriated or made available for the Department of Defense for fiscal year 2010.

Section 9002 is amended and provides for additional transfer authority

Section 9003 provides for construction projects in Iraq and Afghanistan funded with operation and maintenance funds, supervisory and administrative costs may be obligated when the contract is awarded.

Section 9004 provides for the procurement of passenger motor vehicles for use by military and civilian employees of the Department of Defense in Iraq and Afghanistan.

Section 9005 provides \$1,300,000,000 under "Operation and Maintenance, Army" to fund the Commander's Emergency Response Program and requires quarterly reports to the congressional defense committees.

Section 9006 provides for the use of funds to lift and sustain coalition forces supporting military and stability operations in Iraq and Afghanistan and requires quarterly reports to the congressional defense committees.

Section 9007 provides for transfers from the Defense Cooperation Account.

Section 9008 has been added and prohibits the use of funds made available in this Act to establish any permanent military installation or base in Iraq or Afghanistan.

Section 9009 has been added and prohibits the use of funds made available in this Act to contravene laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.

Section 9010 has been added and requires a report on Iraq troop draw down.

HOUSE OF REPRESENTATIVES REPORTING REQUIREMENTS

The following items are included in accordance with various requirements of the Rules of the House of Representatives:

CHANGES IN THE APPLICATION OF EXISTING LAW

Pursuant to clause 3(f)(1) of rule XIII of the Rules of the House of Representatives, the following statements are submitted describing the effect of provisions in the accompanying bill which directly or indirectly change the application of existing law.

Language is included in various parts of the bill to continue ongoing activities which require annual authorization or additional legislation, which to date has not been enacted.

The bill includes a number of provisions which place limitations on the use of funds in the bill or change existing limitations and which might, under some circumstances, be construed as changing the application of law.

The bill includes a number of provisions, which have been virtually unchanged for many years, which are technically considered legislation.

The bill provides that appropriation shall remain available for more than one year for some programs for which the basic authorizing legislation does not presently authorize each extended availability.

In various places in the bill, the Committee has allocated funds within appropriation accounts in order to fund specific programs.

Changes in the application of existing law found within appropriations headings:

Language is included that provides not more than \$50,000,000 for the Combatant Commander Initiative Fund.

Language is included that provides not less than \$29,732,000 for the Procurement Technical Assistance Cooperative Agreement Program, of which not less than \$3,600,000 shall be available for centers.

Language is included for the various Environmental Restoration accounts that provides that the Service Secretaries may transfer such funds for the purposes of the funds provided under such appropriations headings.

Language is included that provides for specific construction, acquisition or conversion of vessels under the heading "Shipbuilding and Conversion, Navy".

Language is included that provides none of the available funding under Aircraft Procurement, Air Force for C-17 modernization or procurement may be obligated before prior year contracts are definitized.

Language is included that provides not less than \$80,000,000 of funds provided under Research, Development, Test and Evaluation, Defense-Wide for the Kinetic Energy Program.

Language is included that prohibits the use of funds provided under "National Defense Sealift Fund" to award new contracts that provide for the acquisition of major components unless such components are made in the United States.

Language is included that provides that the exercise of an option in a contract award through the obligation of previously appropriated funds shall not be considered to be the award of a new contract.

Language is included that provides waiver authority of the Buy America provisions under “National Defense Sealift Fund” under certain circumstances.

Language is included that provides that not less than \$10,000,000 of funds provided under “Defense Health Program” shall be available for HIV/AIDS prevention education activities.

Language is included that provides for the carry-over of two percent of the Operation and Maintenance account under the “Defense Health Program”.

Language is included that provides for the transfer of funds within the Operation and Maintenance account under the “Defense Health Program”.

Language is included that provides for the transfer of Drug Interdiction and Counter-Drug Activities. Such transfer authority shall be in addition to other transfer authority provided elsewhere in the Act.

Language is included that allows the Director of the Joint Improvised Explosive Defeat Organization to undertake certain activities.

Language is included that requires that within 60 days of enactment of this Act, a plan for the intended management and use of the Joint Improvised Explosive Defeat Fund is to be provided to the congressional defense committees.

Language is included that requires the Secretary of Defense to submit a report to the congressional defense committees providing assessments of the evolving threats, service requirements to counter threats, pre-deployment training strategy and funds execution of the Joint Improvised Explosive Defeat Fund.

Language is included under the Joint Improvised Explosive Defeat Fund to transfer funds. Such transfer authority shall be in addition to other transfer authority provided elsewhere in the Act.

Language is included that provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Language is included that provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Language is included that provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless express provision for a greater period of availability is provided elsewhere in this Act.

Language is included that provides a 20 percent limitation on the obligation of funds provided in this Act during in last two months of the fiscal year.

Language is included that provides for the general transfer authority.

Language is included that provides for the incorporation of project level tables.

Language is included that provides for the establishment of a baseline for application of reprogramming and transfer authorities for fiscal year 2009 and prohibits certain reprogrammings until after submission of a report.

Language is included that provides for limitations on the use and transfer authority of working capital fund cash balances.

Language is included that provides that none of the funds appropriated in this Act may be used to initiate a special access program without prior notification to the congressional defense committees.

Language is included that provides limitations and conditions on the use of funds made available in this Act to initiate multi-year contracts.

Language is included that provides for the use and obligation of funds for humanitarian and civic assistance costs under Chapter 20 of title 10, United States Code.

Language is included that provides that civilian personnel of the Department may not be managed on the basis of end strength or be subject to end strength limitations.

Language is included that prohibits funds made available in this Act from being used to influence congressional action on any matters pending before the Congress.

Language is included that prohibits compensation from being paid to any member of the Army who is participating as a full-time student and who receives benefits from the Education Benefits Fund when time spent as a full-time student is counted toward that member's service commitment.

Language is included that provides for the limitations on the conversion of any activity or function of the Department of Defense to contractor performance.

Language is included that provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protégé Program.

Language is included that provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Language is included that prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of surplus firearms.

Language is included that provides a limitation on funds being used for the relocation of any Department of Defense entity into or within the National Capital Region.

Language is included that provides for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544).

Language is included that provides that no funds made available in this Act for the Defense Media Activity may be used for national or international political or psychological activities.

Language is included that restricts funds from being used to perform cost studies under OMB Circular A-76.

Language is included that provides for the obligation of funds for purposes specified in section 2350j(c) of title 10, United States Code.

Language is included that provides funding for the Civil Air Patrol Corporation.

Language is included that provides for the number of staff years of technical effort that may be funded for defense Federally Funded Research and Development Centers (FFRDC).

Language is included that provides for the Department of Defense to procure carbon, alloy or armor steel plate melted and rolled only in the United States and Canada.

Language is included that defines congressional defense committees as being the Armed Services Committees and the Subcommittees on Defense of the Committees on Appropriations of the House and Senate.

Language is included that provides for competitions between private firms and Department of Defense Depot Maintenance Activities for modification, depot maintenance, and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles.

Language is included that provides for revocation of blanket waivers of the Buy American Act upon a finding that a country has violated a reciprocal trade agreement by discriminating against products produced in the United States that are covered by the agreement.

Language is included that provides for the availability of funds for purposes specified in section 2921(c)(2) of the 1991 National Defense Authorization Act, namely facility maintenance and repair and environmental restoration at military installations in the United States.

Language is included that provides for the conveyance, without consideration, of relocatable housing units located at Grand Forks, Malmstrom, Mountain Home and Minot Air Force Bases to Indian Tribes located in Nevada, Idaho, North and South Dakota, Montana, and Minnesota.

Language is included that provides authority to use operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000, or upon determination by the Secretary of Defense that the operational requirements of a Commander of a Combatant Command engaged in contingency operations overseas can be met, funds may be used to purchase items having an investment item unit cost of not more than \$500,000.

Language is included that prohibits the purchase of specified investment items within Working Capital Fund.

Language is included that provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Working Capital Fund, or other certain programs authorized under section 503 of the National Security Act.

Language is included that provides that funds available for the Defense Intelligence Agency may be used for intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

Language is included that provides that not less than \$12,000,000 within "Operation and Maintenance, Defense-Wide" shall be for mitigation of environmental impacts on Indian lands.

Language is included that provides for the Department of Defense to comply with the Buy American Act (title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes").

Language is included that provides conditions under which contracts for studies, analyses or consulting services may be entered into without competition on the basis of an unsolicited proposal.

Language is included that provides for the limitations of funds made available in this Act to establish Field Operating Agencies.

Language is included that provides grant authorities for the Department of Defense acting through the Office of Economic Adjustment.

Language is included that provides for the rescission of previously appropriated funds.

Language is included that prohibits funds made available in this Act from being used to reduce authorized positions for military (civilian) technician of the Army National Guard, Air National Guard, Army Reserve and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Language is included that provides that none of the funds made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of Korea unless appropriated for that purpose.

Language is included that provides for reimbursement to the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counterintelligence support to the Combatant Commands, Defense Agencies and Joint Intelligence Activities.

Language is included that prohibits funds made available in this Act from being used to reduce civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003, level unless the Service Surgeons General certifies to the congressional defense committees that it is a responsible stewardship of resources to do so.

Language is included that provides that Defense and Central Intelligence Agencies' drug interdiction and counter-drug activity funds may not be transferred to other agencies unless specifically provided in an appropriations law.

Language is included that prohibits the use of funds appropriated by this Act for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Language is included that provides for the Department of Defense to purchase supercomputers manufactured only in the United States.

Language is included that prohibits the use of funds made available in this or any other Act to transfer administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without expressed authorization of the Congress.

Language is included that provides for prior Congressional notification of article transfers to international peacekeeping organizations.

Language is included that prohibits the use of funds made available in this Act for contractor bonuses from being paid due to business restructuring.

Language is included that provides for the transfer of funds to be used to support personnel supporting approved non-traditional defense activities.

Language is included that provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Language is included that provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Language is included that provides for the availability of funds provided by this Act to implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community, Germany.

Language is included that provides for the limitation on the use of funds appropriated in title IV to procure end-items for delivery to military forces for operational training, operational use or inventory requirements.

Language is included that prohibits the use of funds made available in this Act from being used to approve or license the sale of the F-22A advanced tactical fighter to any foreign government.

Language is included that provides for a waiver of the “Buy America” provisions for certain cooperative programs.

Language is included that prohibits the use of funds made available in this Act to support the training of members of foreign security forces who have engaged in gross violations of human rights.

Language is included that provides for the Department to develop, lease or procure T-AKE class ships with main propulsion engines and propulsors manufactured only in the United States by a domestically operated entity.

Language is included that prohibits the use of funds made available in this Act for repairs or maintenance to military family housing units.

Language is included that provides obligation authority for new starts for advanced concept technology demonstration projects only after notification to the congressional defense committees.

Language is included that provides that the Secretary of Defense shall provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Language is included that prohibits the use of funds made available to the Department of Defense to provide support to an agency that is more than 90 days in arrears in making payments to the Department of Defense for goods or services provided on a reimbursable basis.

Language is included that provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Language is included that prohibits the use of funds made available in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center—fire cartridge and is designated as “armor piercing” except for demilitarization purposes.

Language is included that provides for a waiver by the Chief, National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of less than one year.

Language is included that prohibits funds made available in this Act from being used to purchase alcoholic beverages.

Language is included that provides for the use of funds made available to the Department of Defense for the Global Positioning System.

Language is included that provides for the transfer of funds made available in this Act under "Operation and Maintenance, Army" to other activities of the Federal Government for classified purposes.

Language is included that has been amended and provides for the forced matching of disbursement and obligations made by the Department of Defense in fiscal year 2010.

Language is included that provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Language is included that provides funding and transfer authority for the Arrow missile defense program.

Language is included that provides for the transfer funds to properly complete prior year shipbuilding programs.

Language is included that provides none of the funds available to the Department of Defense may be obligated to modify the command and control relationship to give the Fleet Forces Command Administration and Operations Control U.S. Naval Forces assigned to the Pacific Fleet.

Language is included that provides for the noncompetitive appointments of certain medical occupational specialties, as prescribed by section 7403(g) of title 38, U.S.C.

Language is included that provides that funds made available in this Act are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947.

Language is included that prohibits the use of funds made available in this Act to initiate a new start program without prior written notification.

Language is included that provides authority for the Secretary of the Army to make a grant only to then Center for Military Recruitment, Assessment and Veterans Employment.

Language is included that provides that the budget of the President for fiscal year 2010 shall include separate budget justification documents for costs of the United States Armed Forces' participation in Operation Iraqi Freedom (OIF) and Operation Enduring Freedom (OEF) for Military Personnel, Operation and Maintenance, and Procurement accounts.

Language is included that prohibits funds made available in this Act from being used for the research, development, test, evaluation, procurement or deployment of nuclear armed interceptors of a missile defense system.

Language is included that provides for the use of operation and maintenance, Navy funds for flood control system adjacent to the Pacific Missile Range facility.

Language is included that provides the Secretary of Defense the authority to make grants in the amounts specified.

Language is included that prohibits funds made available in this Act from being used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Language is included that prohibits funds made available in this Act from being used for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Language is included that provides that at the time members of Reserve components of the Armed Forces are called or ordered to active duty, each member shall be notified in writing of the expected period during which the member will be mobilized.

Language is included that provides that the Secretary of Defense may transfer funds from any available Department of the Navy appropriation to any available Navy ship construction appropriation to liquidate costs caused by rate adjustments or other economic factors.

Language is included that provides for the use of current and expired "Shipbuilding and Conversion, Navy" subdivisions to reimburse the Judgment Fund.

Language is included that prohibits the transfer of program authorities related to tactical unmanned aerial vehicles (TUAV) from the Army.

Language is included that provides authority to the Secretary of Defense to adjust wage rates for civilian employees hired for certain health care occupations.

Language is included that provides U.S. Pacific Command authority to delegate funds for humanitarian and security assistance within Theater of Operation..

Language is included that limits the obligation authority of funds provided for the Director of National Intelligence to the current fiscal year except for research and technology which shall remain available for the current and the following fiscal years.

Language is included that provides for the adjustment of obligations within the "Shipbuilding and Conversion, Navy" appropriation.

Language is included that provides that not more than 35 percent of the funds made available in this Act for environmental remediation may be obligated under indefinite delivery/indefinite quantity contracts with a total contract value of \$130,000,000 or higher.

Language is included that provides for the creation of a major force program category for space for the Future Year Defense Program of the Department of Defense.

Language is included that directs the Director of National Intelligence to follow the Department of Defense format for yearly submissions of congressional budget documentation.

Language is included that provides limitations on the use of funds made available in this Act to pay negotiated indirect cost rates on agreements or arrangements between the Department of Defense and nonprofit institutions.

Language is included that requires the Secretary of Defense to maintain a link on the Defense Department website to the office of the Inspector General.

Language is included that directs the Director of National Intelligence to follow the Department of Defense format for yearly submissions of congressional budget documentation.

Language is included that requires the Director of National Intelligence to submit a future years Intelligence Program.

Language is included that defines the congressional intelligence committees.

Language is included that directs the Department of Defense to report on the Cost of War Execution Report on a monthly basis.

Language is included that provides for stop loss special pay and clarifies section 310 of Public Law 111-32 regarding eligibility.

Language is included that provides for the purchase of armored vehicles.

Language is included that provides for up to \$10,000,000 to be transferred from operation and maintenance appropriation accounts for the Army, Navy and Air Force.

Language is included that provides for transfer authority for the Program Manager, Information Sharing Environment.

Language is included that specifies the terms and conditions governing reprogramming of funds for the National Intelligence Program in accordance to section 102A(d)(4) of the National Security Act of 1947 (50 U.S.C. 403-1(d)(4)).

Language is included that prohibits the use of funds to award to a contractor or convert to performance by a contractor any functions performed by federal employees pursuant to a study conducted under OMB Circular A-76, as of the date of enactment of this Act.

Language is included that permits transfer of prior year unobligated balances from the operation and maintenance and military personnel accounts during the third, fourth, and fifth years prior year to the foreign currency fluctuation account.

Language is included that reduces funds to reflect excess cash balances in Department of Defense Working Capital Funds due to fuel costs.

Language is included that restricts funding for Business Management Information Technology Systems.

Language is included that provides \$439,615,000 for the "Tanker Replacement Transfer Fund".

Language is included that provides for benefits under the Post-Deployment/Mobilization Respite Absence Program.

Language is included that provides resettlement support and other benefits for certain Iraqi refugees.

Language is included that requires full and open competition.

Language is included that reduces specific accounts in Title II.

Language is included that requires CDMRP to have equal representation.

Language is included that prohibits the elimination of personnel positions from the 194th Regional Support Wing of the United States Air National Guard.

Language is included that provides for the disposition of detainees at Naval Station Guantanamo Bay, Cuba.

Language is included that provides that funds made available in this chapter are in addition to amounts appropriated or made available for the Department of Defense for fiscal year 2010.

Language is included that provides for general transfer authority.

Language is included that allows construction projects in Iraq and Afghanistan funded with operation and maintenance funds, supervisory and administrative costs may be obligated when the contract is awarded.

Language is included that provides for the procurement of passenger motor vehicles for use by military and civilian employees of the Department of Defense in Iraq and Afghanistan.

Language is included that provides \$1,300,000,000 under "Operation and Maintenance, Army" to fund the Commander's Emergency Response Program (CERP) and requires quarterly reports to the congressional defense committees.

Language is included that provides for the use of funds to lift and sustain coalition forces supporting military and stability operations in Iraq and Afghanistan and requires quarterly reports to the congressional defense committees.

Language is included that provides for transfers from the Defense Cooperation Account.

Language is included that prohibits the use of funds made available in this Act to establish any permanent military installation or base in Iraq or Afghanistan.

Language is included that prohibits the use of funds made available in this Act to contravene laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.

Language is included that requires a report on Iraq troop draw down.

APPROPRIATIONS NOT AUTHORIZED BY LAW

APPROPRIATIONS NOT AUTHORIZED BY LAW

Pursuant to clause 3(f)(1) of rule XIII of the Rules of the House of Representatives, the following table lists the appropriations in the accompanying bill which are not authorized by law:

[In thousands of dollars]

Agency/Program	Last year of authorization	Authorization Level	Appropriations in last year of authorization	Appropriations in this bill
DEPARTMENT OF DEFENSE.....				
Military Personnel, Army.....	2009	(1)	36,382,736	39,901,547
Military Personnel, Navy.....	2009	(1)	24,037,553	25,095,581
Military Personnel, Marine Corps.....	2009	(1)	11,792,974	12,528,845
Military Personnel, Air Force.....	2009	(1)	25,103,789	25,938,850

1/ The FY 2009 National Defense Authorization Act authorizes \$124,791,336,000 for military personnel

Note: The bill includes several transfers of funds which may or may not be specifically authorized in law.

TRANSFER OF FUNDS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following is submitted describing the transfer of funds provided in the accompanying bill.

Language has been included in "Operation and Maintenance, Defense-Wide" which provides for the transfer of funds for certain classified activities.

Language has been included in "Environmental Restoration, Army" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris or for similar purposes.

Language has been included in "Environmental Restoration, Navy" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris or for similar purposes.

Language has been included in "Environmental Restoration, Air Force" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris or for similar purposes.

Language has been included in "Environmental Restoration, Defense-Wide" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris or for similar purposes.

Language has been included in "Environmental Restoration, Formerly Used Defense Sites" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris or for similar purposes.

Language has been included in "Defense Health Program" which provides for the transfer of funds within operation and maintenance.

Language has been included in "Drug Interdiction and Counter-Drug Activities, Defense" which provides for the transfer of funds to other appropriations accounts of the Department of Defense for military personnel of the reserve components, for operations and maintenance, procurement, and for research, development, test and evaluation.

Language has been included in "Joint Improvised Explosive Device Defeat Fund" which provides for the transfer of funds for operations and maintenance, procurement, and for research, development, test and evaluation, to accomplish the inherent mission of the Joint Improvised Explosive Device Defeat Organization.

Language has been included in "General Provisions, Sec. 8005" which provides for the transfer of working capital funds to other appropriations accounts of the Department of Defense for military functions between appropriations.

Language has been included in "General Provisions, Sec. 8008" which provides for the transfer of funds between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation accounts.

Language has been included in "General Provisions, Sec. 8016" which provides for the transfer of funds from the Department of Defense Pilot Mentor-Protégé Program may be transferred to any

other appropriation for the purposes of implementing the Mentor-Protégé Program development assistance agreement.

Language has been included in “General Provisions, Sec. 8052” which provides for the transfer of funds from “Operation and Maintenance, Defense-Wide” to appropriations available for the pay of military personnel to be used in support of for eligible organizations and activities outside the Department of Defense.

Language has been included in “General Provisions, Sec. 8070” which provides for the transfer of funds from “Operation and Maintenance, Army” for the acquisition of real property, construction, personal services, and operations related to purposes of this section.

Language has been included in “General Provisions, Sec. 8073” which provides for the transfer of funds from “Research, Development, Test and Evaluation, Defense-Wide” for the Arrow missile components.

Language has been included in “General Provisions, Sec. 8074” which provides for the transfer of funds within the “Shipbuilding and Conversion, Navy” appropriation.

Language has been included in “General Provisions, Sec. 8087” which provides for the transfer of funds for Navy ship construction appropriations for the purpose of liquidating necessary changes resulting from inflation, market fluctuations and rate adjustments.

Language has been included in “General Provisions, Section 8103” which provides for the transfer of funds for stop loss.

Language has been included in “General Provisions, Section 8105” which provides for the transfer of funds from operation and maintenance accounts.

Language has been included in “General Provisions, Section 8106” which provides for the transfer of funds from the “Intelligence Community Management Account.”

Language has been included in “General Provisions, Section 8109” which provides for the transfer of funds for foreign currency fluctuations.

Language has been included in “General Provisions, Section 8112” which provides for the transfer of funds from the “Tanker Replacement Transfer Fund.”

Language has been included in “Overseas Contingency Operations Transfer Fund” which provides for the transfer of funds between various accounts in Title IX of this Act.

Language has been included in “Rapid Acquisition Fund” which provides for the transfer of funds to various accounts.

Language has been included in “Mine Resistant Ambush Protected Vehicle Fund” which provides for the transfer of funds to various accounts.

Language has been included in “Drug Interdiction and Counter-Drug Activities” which provides for the transfer of funds to various accounts.

Language has been included in “Joint Improvised Explosive Device Defeat Fund” which provides for the transfer of funds to various accounts.

Language has been included in “General Provisions, Sec. 9002” which provides for general transfer authority.

Language has been included in “General Provisions, Sec. 9007” which provides for the transfer of funds from the Defense Cooperation Account.

RESCISSIONS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following table is submitted describing the rescissions recommended in the accompanying bill:

Other Procurement, Army, 2009/2011	131,900,000
Shipbuilding and Conversion, Navy, 2009/2013	177,767,000
Other Procurement, Navy, 2009/2011	18,844,000
Aircraft Procurement, Air Force, 2009/2011	687,071,000
Missile Procurement, Air Force, 2009/2011	60,000,000
Other Procurement, Air Force, 2009/2011	36,400,000
Research, Development, Test and Evaluation, Navy, 2009/2010	20,000,000
Research, Development, Test and Evaluation, Air Force, 2009/2010	70,000,000
Research, Development, Test and Evaluation, Defense-Wide, 2009/2010	189,357,000

TRANSFER OF UNEXPENDED BALANCES

Pursuant to clause 3(f)(2) of rule XIII, the bill contains a general provision which allows for the transfer of unexpended balances within the Operation and Maintenance and Military Personnel accounts to the “Foreign Currency Fluctuation, Defense” account to address shortfalls due to foreign currency fluctuation.

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

Pursuant to clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the following is a statement of general performance goals and objectives for which this measure authorizes funding:

The Committee on Appropriations considers program performance, including a program’s success in developing and attaining outcome-related goals and objectives, in developing funding recommendations.

COMPLIANCE WITH RULE XIII, CL. 3(e) (RAMSEYER RULE)

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italics, existing law in which no change is proposed is shown in roman):

SECTION 310 OF THE SUPPLEMENTAL APPROPRIATIONS ACT, 2009

(Public Law 111–32)

SEC. 310. (a) * * *

* * * * *

(i) *EFFECT OF SUBSEQUENT REENLISTMENT OF VOLUNTARY EXTENSION OF SERVICE.*—*Members of the Armed Forces, retired members, and former members otherwise described in subsection (a) are not eligible for a payment under this section if the members—*

- (1) voluntarily reenlisted or extended their service after their enlistment or period of obligated service was extended, or after their eligibility for retirement was suspended, pursuant to a stop-loss authority; and
- (2) received a bonus for such reenlistment or extension of service.

SECTION 1244 OF THE REFUGEE CRISIS IN IRAQ ACT OF 2007

SEC. 1244. SPECIAL IMMIGRANT STATUS FOR CERTAIN IRAQIS.

(a) * * *

* * * * *

(g) RESETTLEMENT SUPPORT.—Iraqi aliens granted special immigrant status described in section 101(a)(27) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)) shall be eligible for resettlement assistance, entitlement programs, and other benefits available to refugees admitted under section 207 of such Act (8 U.S.C. 1157) **for a period not to exceed eight months** to the same extent, and for the same periods of time, as such refugees.

* * * * *

SECTION 602 OF THE AFGHAN ALLIES PROTECTION ACT OF 2009

SEC. 602. PROTECTION FOR AFGHAN ALLIES.

(a) * * *

(b) SPECIAL IMMIGRANT STATUS FOR CERTAIN AFGHANS.—

(1) * * *

* * * * *

(8) RESETTLEMENT SUPPORT.—A citizen or national of Afghanistan who is granted special immigrant status described in section 101(a)(27) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)) shall be eligible for resettlement assistance, entitlement programs, and other benefits available to refugees admitted under section 207 of such Act (8 U.S.C. 1157) **for a period not to exceed 8 months** to the same extent, and for the same periods of time, as such refugees.

* * * * *

CONSTITUTIONAL AUTHORITY

Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives states that:

Each report of a committee on a bill or joint resolution of a public character, shall include a statement citing the specific powers granted to the Congress in the Constitution to enact the law proposed by the bill or joint resolution.

The Committee on Appropriations bases its authority to report this legislation from Clause 7 of Section 9 of Article I of the Constitution of the United States of America which states:

No money shall be drawn from the Treasury but in consequence of Appropriations made by law . . .

Appropriations contained in this Act are made pursuant to this specific power granted by the Constitution.

COMPARISON WITH THE BUDGET RESOLUTION

Clause 3(c)(2) of rule XIII of the Rules of the House of Representatives requires an explanation of compliance with section 308(a)(1)(A) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344), as amended, which requires that the report accompanying a bill providing new budget authority contain a statement detailing how that authority compares with the reports submitted under section 302 of the Act for the most recently agreed to concurrent resolution on the budget for the fiscal year from the Committee’s section 302(a) allocation. This information follows:

[In millions of dollars]

	302(b) allocation		This bill	
	Budget authority	Outlays	Budget authority	Outlays
Discretionary	508,046	577,769	636,293	¹ 647,968
Mandatory	291	291	291	291

¹ Includes outlays from prior year budget authority.

NOTE.—The amounts in this bill are technically in excess of the subcommittee section 302(b) allocation. However, section 423(a)(1) of the Concurrent Resolution on the Budget for fiscal year 2010 authorizes an increase to the Committee’s section 302(a) allocation to reflect funding in the reported bill for overseas deployments and other activities. After the bill is reported to the House, the Chairman of the Committee on the Budget will provide an increased section 302(a) allocation consistent with the funding provided in the bill. That new allocation will eliminate the technical difference prior to Floor consideration.

FIVE-YEAR OUTLAY PROJECTIONS

In compliance with section 308(a)(1)(B) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344), as amended, the following table contains five-year projections associated with the budget authority provided in the accompanying bill.

[In millions of dollars]

	Outlays			
2010	N/A	N/A	N/A	¹ 403,910
2011	N/A	N/A	N/A	147,780
2012	N/A	N/A	N/A	48,567
2013	N/A	N/A	N/A	15,699
2014 and future years	N/A	N/A	N/A	10,668

¹ Excludes outlays from prior year budget authority.

N/A: Not applicable.

FINANCIAL ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

In accordance with section 308(a)(1)(C) of the Congressional Budget Act of 1974, as amended, the Congressional Budget Office has provided the following estimates of new budget authority and outlays provided by the accompanying bill for financial assistance to State and local governments.

[In millions of dollars]

	Budget au- thority	Outlays
Financial assistance to State and local governments for 2010	2	¹ 2

¹ Excludes outlays from prior year budget authority.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

The Committee has taken unprecedented action to increase transparency and reduce funding for earmarks. In fiscal year 2009, this bill reduced earmarks by 42 percent from the fiscal year 2006 level. The bill continues to reduce earmarks in fiscal year 2010. For fiscal year 2010, earmarks are expected to be 50 percent below the fiscal year 2006 level. It should also be noted that under the policies adopted by the Committee, member earmarks will no longer be provided to for-profit entities as a functional equivalent of no-bid contracts. In cases where the Committee is funding an earmark designated by a member for a for-profit entity, the Committee includes legislative language requiring the Executive Branch to nonetheless issue a request for proposal that gives other entities an opportunity to apply and requires the agency to evaluate all bids received and make a decision based on merit. This gives the original designee an opportunity to be brought to the attention of the Department, but with the possibility that an alternative entity may be selected.

2006 Enacted		2008 Enacted		2009 Enacted		2010 Committee	
\$ in millions	#	\$ in millions	#	\$ in millions	#	\$ in millions	
\$8,400	2,048	\$4,982	2,025	\$4,866	1,102	\$2,709	

The following table is submitted in compliance with clause 9 of rule XXI, and lists the congressional earmarks (as defined in paragraph (e) of clause 9) contained in the bill or in this report. Neither the bill nor the report contain any limited tax benefits of limited tariff benefits as defined in paragraphs (f) or (g) of clause 9 of rule XXI.

ADDITIONAL VIEWS OF REPRESENTATIVES JERRY LEWIS
AND C.W. BILL YOUNG ON THE FISCAL YEAR 2010 DE-
FENSE APPROPRIATIONS BILL

The fiscal year 2010 Defense Appropriations bill, as reported out of the Appropriations Committee is an example of the bipartisan work that this Committee is capable of producing. In the long-standing tradition of the Defense Subcommittee, the Chairman and Ranking Member worked together as true partners to produce a bill that the Committee can be proud of. Chairman Murtha fully included the minority in the development of these funding recommendations. He treated us fairly, listened to our concerns, and found acceptable solutions when needed. We greatly appreciate his comity and bipartisanship, and strongly support the passage of this bill.

The President's fiscal year 2010 request for Defense funding, however, was completely inadequate. While other non-defense budgets received an average increase of 12 percent, some reaching as high as 33 percent, the Defense increase was barely 4.6 percent—and 1.5 percent of that was merely a shift of supplemental funding to the base budget. We feel that the President should not be shortchanging the troops during a time of war, especially as he asks for as many as 22,000 additional soldiers to help relieve the stress created by the renewed efforts in Afghanistan. This committee has long been a leading supporter of our military and remains committed to providing our men and women in uniform the resources they need to do the job our country is asking of them. Unfortunately, however, this bill, while providing \$508 billion for the Department of Defense, is \$3.5 billion below the amount requested by the President. While we must be fiscally responsible, we also must provide for and take care of our troops and their families—especially in a time of war.

We believe Chairman Murtha has indeed done the best he could with what little resources he had. Despite the reduced allocation, the bill provides funding for a 3.4 percent military pay raise; it funds \$1.3 billion in unexpected Defense Health Program shortfalls without increasing fees or premiums; and continues our investment in the National Guard and Reserve with an additional \$500 million. The bill also invests in the future of the Department, while addressing immediate needs. It accelerates the Navy's plan for a 313 ship fleet with an additional Littoral Combat Ship and Joint High Speed Vessel; and advances our investment in aircraft across the Department with advance procurement for 12 F-22s and 30 F-18s, and full funding for 3 C-17s, 28 F-35s and 9 additional F-18s above the request.

Unfortunately, the bipartisan nature that marked our interactions at the subcommittee and full committee levels in developing this bill, are likely to come to a sudden end during Rules Committee consideration. While we have little hope of seeing a return to regular order on the House floor this legislative season, we continue to urge our colleagues in the majority to allow the democratic process to proceed past committee markup. The practice of imposing closed or “structured” rules upon our bills once they reach the House floor denies Members of both parties who are not on the Appropriations Committee their due opportunity, and really their responsibility, to debate the bill and represent the interests of their constituents. There is no reason we should not consider the Defense bill, a bill with strong bipartisan support, under an open rule with an acceptable unanimous consent agreement in a day or two.

GUANTANAMO BAY

This January, the President signed the executive order to close the Guantanamo Bay Detention Facility. More than five months later there is still no evidence of a plan to carry out this order, and there has been no consultation with the Congress. In fact, just this week the Administration announced that they are extending their Detention Policy Task Force for another six months, because they were not able to sort it all out within the President’s timetable. Despite these difficulties, the suspected plotter of the 1998 Embassy bombings in Africa has already been moved to New York to face trial. The Government of Palau has announced that they will accept some Uighur detainees, and press accounts linked that action to a \$200 million payoff by the U.S. Government that the State Department will not confirm or deny. Finally, four Uighur detainees have already been released to Bermuda. Congress and the American public found out about these actions and diplomatic efforts after the fact.

And there is more—detainee transfers have also been made to Saudi Arabia, Chad, and Iraq. We have heard rumors about deals with Yemen, Italy, and Albania. All of this is being done without an assessment of the risks to American people at home and abroad, or an assessment of risk to our U.S. forces, especially since the detainees at Guantanamo include the perpetrators of some of the most horrific terrorist acts against Americans, including 9/11, the USS Cole bombing, and the Embassy bombings in Africa.

Director Mueller of the FBI testified to Congress that bringing these detainees to the U.S. poses risks to national security, including providing financing, radicalizing others, and undertaking attacks in the U.S. Additionally, the Department of Defense has reported that at least 14 percent of former Guantanamo detainees have returned to terrorist activity. This Administration is ignoring or disregarding those risks, and they continue to stonewall the Congress. We need to stop the Administration from rushing to transfer or resettle detainees simply to fulfill a campaign promise.

We commend Chairman Murtha for the inclusion of Ranking Member Lewis's Guantanamo language in the Managers Amendment. This language, which contains the same requirements in the Commerce/Justice/Science bill that prohibits release or permanent transfer of detainees to the U.S. and requires a risk assessment prior to any transfer for purposes of prosecution, and the language in the Interior bill that expands those restrictions to U.S. territories, has enjoyed bipartisan support during the Fiscal Year 2010 Appropriations Process. It ensures that the Administration cannot act unilaterally and ignore the concerns of the Congress on such an important matter.

F-22

The bill, as approved by voice vote in the Subcommittee and Full Committee, includes \$368.8 million for the advanced procurement of long lead items for 12 new F-22 aircraft. Despite the threat of a veto of any bill that includes additional F-22 funding from the President, we fully support buying additional F-22s—the most advanced fighter aircraft in the world. We understand that our current military engagements do not necessarily require such an advanced aircraft, but we also understand that future conflicts cannot be predicted with any certainty. Today's enemy will not be tomorrow's enemy. Further, future adversaries are not holding back on developing and procuring the most advanced weapon systems they can . . . why should the United States?

Despite pledges that the conclusion was risk-based, the Defense Department's decision to stop F-22 production at 187 aircraft is as much about affordability as anything. They state that the future of Defense tactical aircraft is the F-35 Joint Strike Fighter (JSF), and do not want to trade JSF funding for additional F-22s. While a perfectly capable aircraft, the JSF program remains in a developmental stage. In fact, a recent GAO report on the JSF highlighted that "an independent joint DOD cost estimating team identified a need for as much as \$7.4 billion in additional funding for development through fiscal year 2005 and a three-year schedule extension. This would increase total system development costs to \$51.8 billion—a 17 percent increase from the estimate from December 2007—and delay completion of development to October 2016." We should not stop production of the only fifth generation aircraft until we have at least finished development and are confident in the JSF abilities and reliability.

In fact, Air Force leadership has repeatedly stated that stopping production of F-22s at 187 aircraft represents a medium to high risk level. For years the Air Force maintained that the minimum number of aircraft required to meet strategic national security goals was 381. That position, in part, cost the top civilian and military leaders of the Air Force their jobs. We believe those Air Force leaders had it right. We believe Chairman Murtha has it right. Additional F-22s are needed. Why would we jeopardize the safety and security of our nation simply over budget calculations? Of all the areas in the Federal budget that we should support, this is it!

CONCLUSION

This is a good bill, put together in the best example of bipartisanship. We appreciate being treated as true partners in the process. Despite the reduced allocation, Chairman Murtha did the best he could, with the resources he had. We strongly support the bill and encourage its quick passage through the traditional open amendment process.

JERRY LEWIS.
BILL YOUNG.
