

The background of the slide is a composite image of celestial bodies. On the left, a portion of Earth is visible, showing blue oceans and white clouds. To the right, the Moon is shown in a large, detailed view, highlighting its yellowish-brown surface and numerous dark spots (maria) and craters. Other planets or moons are visible in the background, including one with a reddish-orange hue and another with a blue and white pattern. The overall scene is set against a dark, starry space background.
