CATSKILL MAP

STATE OF NEW YORK
NELSON A. ROCKEFELLER, Governor

DEPARTMENT OF ENVIRONMENTAL CONSERVATION
HENRY L. DIAMOND, Commissioner

1970 EDITION

• NOTE •

This map has been published with the intention of illustrating the general locations of State land on lying within the bounds of the various patents, knowledge, trusts, etc., and subdivisions of the Catskill area. While care has been employed in compiling and displaying the information shown herein, responsibility must be placed on the proprietors of this map as a general reference tool for location. Official records must be consulted in determining ownership or boundaries of particular parcels. The same is true with respect to the character and location of roads, trails, streams, etc. In the absence of accurate survey information in these areas, if such has been necessary for information to be incorporated from various sources, such as U.S.G.S. Quad ranges, county atlas, original allotment maps, etc. Frequent adjustments must be made when conflicting data is obtained from these sources. Consideration should also be given to the existence of many locations from which in distribution have these properties.

(No attempt has been made to indicate ownership of lands lying under water.)

Scale: 1" = 1/250,000' (MILES) 1" = 1/125,000' (CHAINS) 1" = 1/62,500' (FEET)
