PRESIDENT'S REPORT

For the year ended 31 December 2010

This report is presented along with the Financial Statements of the organisation for the year ended 31 December 2010. The Financial Statements have been prepared in accordance with the accounting policies set out in Note 1 to the Financial Statements.

OBJECTIVES AND POLICIES

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organisation. We deliver emergency aid to people affected by armed conflict, epidemics, exclusion from healthcare and natural disasters. MSF offers assistance to people based on need and irrespective of race, religion, gender or political affiliation.

In order for MSF to get access to and care for those most in need, MSF's operational policies must remain scrupulously independent of governments, as well as religious and economic powers. We rely on private individuals for the majority of our funding. In the field, we conduct our own assessments, manage projects directly and monitor

the impact of our assistance. We also campaign for improved access to medicines and fund research into the development of drugs for neglected diseases.

MSF is a volunteer organisation. Each year about 6,600 doctors, nurses, logistics specialists and engineers of all nationalities leave on field assignments to join over 25,000 staff in the countries where we provide assistance.

ORGANISATIONAL STRUCTURE

Founded in Paris in 1971, MSF has become an international organisation with 19 national offices throughout the world. Each national office is an association. Twice a year the president of each national office attends the MSF International Council, an association registered in Switzerland. This Council has, among others, the responsibility to promote accountability and transparency within the MSF movement; these accounts are a reflection of that responsibility and illustrate the financial situation of the movement as a whole.

ALL THOSE WORKING WITH MSF AGREE TO ABIDE BY THE PRINCIPLES OF THE INTERNATIONAL CHARTER OF MSF AS FOLLOWS:

THE CHARTER OF MÉDECINS SANS FRONTIÈRES

Médecins Sans Frontières is a private international association. The association is made up mainly of doctors and health sector workers and is also open to all other professions that might help in achieving its aims. All of its members agree to honour the following principles:

- Médecins Sans Frontières provides assistance to populations in distress, to victims of natural or man-made disasters and to victims of armed conflict. They do so irrespective of race, religion, creed or political convictions.
- Médecins Sans Frontières observes neutrality and impartiality in the name of universal medical ethics and the right to humanitarian assistance and claims full and unhindered freedom in the exercise of its functions.
- Members undertake to respect their professional code of ethics and to maintain complete independence from all political, economic or religious powers.
- As volunteers, members understand the risks and dangers of the missions they carry out and make no claim for themselves of their assigns for any form of compensation other than that which the association might be able to afford them.

A YEAR IN REVIEW – 2010

The earthquake that hit Haiti on 12 January killed an estimated 222,000 people, injured more than 300,000, and left 1.5 million people homeless. Efforts to support the survival and recovery of the Haitian people following this disaster tested Médecins Sans Frontières (MSF) and the aid system as a whole to their limits. More than 8,000 MSF staff were mobilised to treat more than 358,000 patients. In October, a cholera epidemic took on overwhelming proportions. In less than three months, MSF treated more than 91,000 patients for the disease, around 60 per cent of all registered cases. The operating budget for MSF in Haiti in 2010 came to 106.1 million euros.

One year after the earthquake, however, significant needs were still not being met. As Stefano Zannini, Head of Mission for MSF in Haiti, said: “Our staff worked tirelessly over this last year, and in spite of that I feel uneasy and sort of uncomfortable about what is still a disaster situation for most of the population”. The aftermath of the earthquake in Haiti has exposed serious deficiencies in the wider aid system, deficiencies that have also been revealed in Afghanistan and Pakistan, raising the question of whether the international aid system in its current set-up is really meeting the needs of the people it claims to help.

A year of natural disasters

The Haitian earthquake was not the only major natural disaster MSF responded to in 2010. In Pakistan, MSF staff carried out more than 80,000 medical consultations, treated more than 4,500 children for malnutrition and distributed 1.8 million litres of clean water every day to people affected by flooding in the provinces of Khyber Pakhtunkhwa, Balochistan, Punjab and Sindh. Parts of Chad, Nigeria and Somalia also experienced the worst flooding in more than a decade. MSF distributed blankets, tarpaulins, plastic sheeting and mosquito nets, and set up clean water supplies to help the hundreds of thousands of displaced people. In central Chile, a powerful earthquake killed several hundred people and displaced more than a million others. Nearly every region of Guatemala was affected when a violent tropical storm hit just hours after a volcanic eruption. MSF assisted victims of both of these emergencies from project bases in Central and South America.

Securing care during conflict

Elsewhere, millions of civilians living in conflict zones continued to suffer the effects of armed violence. In 2009, MSF returned to Afghanistan to respond to mounting humanitarian needs as conflict spread to almost every region of the country. MSF has worked hard to find the space to provide independent and impartial assistance in an environment where, as MSF’s Afghanistan country representative Michiel Hofman said, “seeking help amounts to choosing sides in the war”. In 2010, MSF staff worked in hospitals in the Afghan cities of Kabul and Lashkargah, and we are continuing negotiations with all warring parties in order to extend our operations further.

In Pakistan, teams have been helping to improve the emergency response capacity of hospitals in conflict zones. On several occasions during the year, violent incidents resulted in massive numbers of casualties arriving at the District Headquarters hospital in Timurgara, near the border with Afghanistan.

Its independence, impartiality and needs-based approach have enabled MSF to reach and assist people living in conflict areas in Afghanistan, the Central African Republic, Kyrgyzstan, Pakistan and Somalia in 2010. Despite insecurity, MSF is generally able to assure the continuity of medical care. But incidents in parts of Sudan and the Democratic Republic of the Congo (DRC) have put MSF staff at unacceptable risk and restricted our ability to provide healthcare. Activities in Gumuruk

in south Sudan had to be suspended after therapeutic food was stolen from the clinic and MSF staff were violently robbed while travelling to another health centre. In DRC, soldiers from the Congolese army entered a hospital in the South Kivu region and abducted four patients. The complete absence of respect for medical structures and access to medical care forced MSF to evacuate its surgical team from the hospital.

Mismanaged healthcare system

MSF was obliged to suspend activities in Turkmenistan in 2010 for very different reasons. Having worked in the country since 1999, MSF decided it could no longer provide effective assistance in a country where national health authorities hide the true state of public health and disseminate misinformation, and where the system prevents health workers from providing adequate care. MSF drew attention to the problems facing people in need of medical care in Turkmenistan in the report *Turkmenistan’s Opaque Health System*.

Outbreaks new and old

Other countries where MSF works simply do not have the resources to provide adequate care. Measles is endemic in many developing countries, but in 2010 a number of countries that had seen a decline in cases were subjected to serious outbreaks of the disease: Malawi suffered its biggest epidemic in 13 years. MSF led a campaign that vaccinated 3.3 million children, and our staff provided care for 23,000 patients. Teams also provided assistance in responding to massive outbreaks of measles in Chad, DRC, Nigeria, South Africa, Swaziland, Yemen and Zimbabwe, supporting the immunisation of more than 500,000 children and treating thousands of patients.

Measles is not the only disease recurring, and faced with a “new” disease, people may be afraid or unaware of how to respond, and local medical staff may lack experience in treatment. Cholera had not been seen in Haiti for more than a century before the epidemic in 2010. Papua New Guinea also experienced its first cholera outbreak in 50 years; MSF treated thousands of patients and trained more than 1,000 health workers and volunteers in clinical management and infection control.

A global polio eradication campaign, begun in 1988, had met with significant success, and the disease remained endemic in only Afghanistan, India, Nigeria and Pakistan. However, in 2010 serious outbreaks have occurred in DRC, the Republic of the Congo and Tajikistan. MSF teams assisted with treatment and vaccination campaigns in DRC and the Republic of the Congo.

We faced new emergencies too. MSF treated almost 400 children for lead poisoning after seven villages in northwestern Nigeria were found to be contaminated with lead from small-scale gold mining activities.

Access to new vaccines, affordable medicines and adequate nutrition

2010 saw the roll-out of a new vaccine that could prevent the worst meningitis epidemics in Africa. MSF took part in vaccination campaigns in Niger and Mali and is actively advocating for widespread use of the vaccine. And after campaigning for improved food aid for several years, we are at last seeing international donors start to review and adjust their food aid policies. 2010 also saw establishment of the Medicines Patent Pool, which will allow generic manufacturers to produce patented medicines in exchange for royalty payments. For the mechanism to work, however, we need drug companies to step up and make their patents available.

Unfortunately, efforts to improve access to HIV/AIDS treatment are facing a setback. International donors are shifting their focus away from

continued overleaf ▶

HIV/AIDS and funding is stagnating, while new evidence demonstrates that providing better treatment earlier prevents severe illness and helps reduce transmission. MSF is urging governments to create reliable funding mechanisms to ensure that the progress made over the last decade is not put at risk, and that more patients can be treated more effectively.

Reaching “invisible” populations

In recent years, more and more migrants have made a long journey to escape violence, persecution or poverty, in search of a more secure life, only to find themselves in a prison cell. In 2010, the conditions in detention centres in Greece reached critical levels: undocumented migrants were being forced to live in converted warehouses or police cells crowded to three or four times their capacity. “No human being should be subjected to such treatment”, said Ioanna Pertsinidou, MSF’s emergency coordinator.

Appalling living conditions, police harassment, threats of xenophobic attacks and a lack of access to essential healthcare still define the desperate lives of thousands of these vulnerable people. In just two months, MSF staff in South Africa treated 71 Zimbabwean migrants who had been victims of sexual violence.

As 2010 comes to an end and MSF approaches its 40th year, it is clear that changing environments demand constant innovation, so that MSF can respond to the health needs of more people, more effectively. Thanks to our supporters and our dedicated staff, we are able to remain committed to assisting people in need of emergency humanitarian medical care.

Thank you.

FINANCIAL REPORT

COMBINED ACCOUNTS 2010

MSF is pleased to present its audited combined Financial Statements. The combined accounts represent an aggregation of the Financial Statements of the 19 main MSF national offices worldwide, together with the Financial Statements of the delegate offices, satellite organisations, and the international office of MSF. The combined Financial Statements provide a view of MSF's work internationally and are also a means of transparency and accountability.

INCOME

2010 saw an increase in income for MSF compared with 2009. Total incoming resources of 943 million euros for 2010 were 278 million euros more than in 2009, due mainly to private income received following the Haiti and Pakistan emergencies. Private and public institutions increased their donations by 49%. More than 5.1 million individual donors and private funders provided 91% of MSF's income in 2010.

EXPENDITURE

The total expenditure in 2010 was 813 million euros, an increase of 196 million euros over 2009 – equating to a 32% increase in activities. This expenditure can be broken down into two main categories: social mission and other expenses. The table below breaks down these categories still further.

EXPENDITURE SOCIAL MISSION

In millions of €

	2010	2009
Programmes	555	393
Headquarters programme support	79	69
Témoignage / awareness-raising	26	22
Other humanitarian activities	6	6
Total social mission	666	490

OTHER EXPENSES

Fundraising	104	87
Management, general and administration	43	39
Total other expenses	147	126

The result of the above is that MSF's total expenditure in 2010 is represented by 82% spent on social mission and 18% on other expenses (80% and 20% for 2009, respectively).

RESULT FOR THE YEAR AND RESERVES POLICY

The result for 2010, after adjusting for exchange gains / losses, shows a surplus of 136.8 million euros. MSF has a reserves policy, at an international level, of holding a minimum of three months and a maximum of twelve months of total expenditure as retained earnings. The level of reserves as at 31 December 2010 equates to approximately 9.1 months (9.1 months for 2009) of activity (see Note 2.14).

President, MSF International Council

AUDITORS' REPORT

Year ended December 31, 2010

To the Members of the MSF International Council,

We have audited the accompanying international combined financial statements of MSF, which comprise the international combined statement of financial position as at December 31, 2010, the international combined income statement, statement of changes in equity and cash-flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the international combined financial statements

MSF International's management is responsible for the preparation of these international combined financial statements in accordance with the basis of preparation set out in Note 1 to the financial statements and for such internal control as management determines is necessary to enable the preparation of the international combined financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these international combined financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the international combined financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the international combined financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the international combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the international combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the international combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the accompanying international combined financial statements are prepared, in all material respects, in accordance with the accounting policies described in Note 1 to the international combined financial statements.

NOTES TO THE FINANCIAL STATEMENTS

INTRODUCTION

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organisation that delivers emergency aid to people affected by armed conflict, epidemics, natural disasters and exclusion from healthcare. MSF offers assistance to people based on need and irrespective of race, religion, gender or political affiliation.

MSF's core work is providing emergency medical assistance in situations of armed conflict. MSF does not take sides but seeks to bring assistance to those who need it most urgently. MSF does not accept funds from governments or other parties who are directly involved in the conflicts to which MSF is responding.

MSF has a commitment to address the suffering people endure and the obstacles encountered in providing assistance. When MSF witnesses serious acts of violence, or neglected crises, it may speak out, either publicly or by raising the issue directly with other involved parties.

MSF also provides medical care to help people survive catastrophic situations, where communities and health structures may be overwhelmed. MSF provides assistance during epidemics, following natural disasters, and to people who are excluded from healthcare. MSF is constantly seeking to improve the quality, relevance and extent of its assistance, and is dedicated to the pursuit of innovation.

MSF is a not-for-profit organisation that was founded in Paris, France in 1971. Today, MSF is a worldwide movement with more than 19 national offices (in Australia, Austria, Belgium, Canada, Denmark, France, Germany, Greece, Holland, Hong Kong, Italy, Japan, Luxembourg, Norway, Spain, Sweden, Switzerland, the United Kingdom and the United States), entities in the Czech Republic, Ireland and South Africa, and an international office in Geneva, Switzerland.

The search for efficiency has led MSF to create ten specialised organisations – called “satellites” – in charge of specific activities such as humanitarian relief supplies, epidemiological and medical research studies, and research on humanitarian and social action.

These satellites, considered as related parties to the national offices, include: MSF-Supply, MSF-Logistique, Epicentre, Fondation MSF, Etat d'Urgence Production, MSF Assistance, SCI MSF, SCI Sabin, Ärzte Ohne Grenzen Foundation and MSF Enterprises Limited.

MSF is an independent and self-governed organisation. Its actions are guided by medical ethics and the principles of neutrality and impartiality. The work of MSF is carried out by thousands of health professionals, logistical and administrative staff. The vast majority of MSF staff come from the countries where the organisation provides medical assistance. Together they manage projects in over 60 countries worldwide.

1 SIGNIFICANT ACCOUNTING POLICIES

A combination aggregates the Financial Statements of several separate entities without investment relationships into a single group, whereas a consolidation collates different affiliates of a single parent entity in its Financial Statements.

SPECIFIC METHODS USED FOR COMBINED ACCOUNTS

Equity accumulation

Since the first combination of an entity does not result from the purchase of shares, combined equity represents the aggregated equity capital and the aggregated other equity from the combined entities and the group equity proportion from the companies that have been previously consolidated. Investments between group entities are eliminated against equity.

Minority interests

When equity and other equity from combined entities are aggregated, minority interests cannot be recognised. Minority interests from consolidated entities are presented separately on the liability side of the combined Statement of Financial Position.

Initial measurement of the combined entities' assets and liabilities

Since the first combination of an entity does not result from the purchase of shares but from a pooling of economic interests, neither goodwill nor fair value adjustments exist. Assets and liabilities of each combined entity are initially measured at net book value, adjusted according to the group accounting principles at the date of the first combination, by distinguishing gross value, depreciation and impairment. The variance due to the harmonisation of the group accounting principles is added or deducted from the combined equity.

Subsequent measurement of the combined entities' assets and liabilities

After the first combination, capital gains or losses, provision allowances and reversals contribute to the combined surplus or deficit. However, harmonised values that prove to be unjustified due to an error in the first combination have to be corrected, and result in a retrospective modification of combined equity.

All the previously listed entities are included in the combination perimeter. The resulting combined Financial Statements comprise the:

- Statement of Financial Position
- Statement of Financial Activities
- Statement of Functional Expenses
- Statement of Cash Flows
- Statement of Changes in Retained Earnings and Equities
- Notes to the Financial Statements

The combined Financial Statements have been prepared in accordance with and comply with MSF accounting policies. Although the International Accounting Standards (IAS) – also called International Financial Reporting Standards (IFRS) – do not contain specific guidelines for not-for-profit and non-governmental organisations concerning the accounting treatment (of non-reciprocal transfers, e.g. donations, in particular) and the presentation of the Financial Statements, MSF accounting policies are in compliance with most of the recognition and measurement requirements of the IFRS as adopted by the International Accounting Standards Board (IASB) and interpretations issued by the Standing Interpretations Committee (SIC) of the IASB.

The main deviations from the IFRS relate to IAS 19.

1.1 BASIS OF PRESENTATION

The Financial Statements are presented in euros, rounded to the nearest thousand. They are prepared in accordance with the historical cost convention, as modified by the revaluation of financial assets and financial liabilities, including derivative instruments at fair value through profit or loss.

The Financial Statements have been prepared and presented according to the principles of fair presentation, accruals, matching, going concern, consistency and prudence.

Figures are rounded and therefore may vary slightly from the amounts presented in other documents; or, rounding differences may exist within summations.

1.2 FOREIGN CURRENCY TRANSLATION

The individual statements of financial position of the combined entities are translated into euros at the year-end rate.

The individual statements of financial activities and statements of functional expenses of the combined entities are converted and translated at the average rate for the current year.

The main exchange rates compared to the euro are as follows:

	Closing rate 2010	Closing rate 2009	Average rate 2010	Average rate 2009
AUD	1.31	1.60	1.44	1.77
CAD	1.33	1.51	1.37	1.58
CHF	1.25	1.48	1.38	1.51
CZK	25.06	26.47	25.28	26.43
DKK	7.45	7.44	7.45	7.45
EUR	1.00	1.00	1.00	1.00
GBP	0.86	0.89	0.86	0.89
HKD	10.39	11.17	10.30	10.82
JPY	108.65	133.16	116.24	130.35
NOK	7.80	8.30	8.00	8.72
SEK	8.97	10.25	9.54	10.62
USD	1.34	1.44	1.33	1.39
ZAR	8.86	10.67	9.70	11.67

1.3 CHANGE IN ACCOUNTING POLICIES

The 2010 Financial Statements do not contain any changes in accounting policies compared with 2009.

1.4 INTANGIBLE ASSETS AND PROPERTY, PLANT AND EQUIPMENT

Intangible assets are recorded at cost (or historical value), net of accumulated amortisation and impairment losses. They are amortised on a straight-line basis over a period of three years.

continued overleaf ▶

Property, plant and equipment are recorded at their acquisition cost, including incidental expenses. They are depreciated using the straight-line method with estimated useful lives, using the component approach, as follows:

- Land: no depreciation
- Buildings: 20 to 50 years
- Fixtures: 5 years
- Furniture, computers, machinery and equipment: 3 to 5 years
- Other tangible assets: 3 to 10 years

The acquisition cost of fixed assets used in the field for programme purposes, such as vehicles and medical and communication equipment, is expended upon shipment to the field; or upon purchase, if purchased locally. This equipment is not depreciated given the accelerated useful life, and given that it is not removed from the programme country nor used for any other purpose. When a mission is closed, the remaining equipment is donated to the Ministry of Health of the country or another non-governmental organisation still present in the country, and thus does not generate any future economic benefit for MSF.

Finance leases

Assets acquired under long-term finance leases are capitalised and recorded in the Statement of Financial Position as tangible fixed assets. They are depreciated over the shorter of their estimated useful lives and the lease term. The associated obligations are included in financial debts.

1.5 FINANCIAL ASSETS

Long-term investments are stated at fair value. Financial assets are initially recognised at fair value, net of transaction costs recognised in the Statement of Financial Activities. Investments are recorded as financial assets at fair value through profit and loss and classified as current assets with any resultant gains or losses recognised in the Statement of Financial Activities. Other financial assets are recorded at fair value.

1.6 INVENTORIES

Inventories held at headquarters and by satellites are recorded at the weighted-average of the purchase price. All goods and materials present in the field are recognised as expenditure when transferred from the headquarters and satellites to the field, or when bought locally. Appropriate inventory reserves are recorded based on stock coverage, expiration date and damaged items.

1.7 RECEIVABLES AND OTHER ASSETS

Grants receivable correspond to funds owed to MSF by third parties according to a formal agreement. They result from the differences between the cumulative allowable expenses incurred and the funds received for each of these agreements. Contributions receivable include donations sent by donors before the closing for which the corresponding cash has been collected by MSF in the months following year-end. They are accounted for at fair value, at their cost net of impairment. Legacies and bequests are accounted for on a cash basis and are therefore not included in receivables (see Note 1.13, Legacies and bequests). Other receivables and other assets are recorded at their fair value.

1.8 CASH AND EQUIVALENTS

MSF considers short-term deposits, cash in headquarters and cash in the field as cash and equivalents. Amounts are valued at fair value with any resultant gains or losses recognised in the Statement of Financial Activities. For the Statement of Cash Flows, overdrafts are included as a negative component of cash and equivalents.

1.9 PROVISIONS

Provisions are valued at best estimate when MSF has a legal or constructive obligation as the result of a past event, and if it is probable that an outflow of assets will be required to settle the provision.

1.10 FINANCIAL DEBTS, ACCOUNTS PAYABLE AND ACCRUED EXPENSES

Financial debts are recorded at fair value. Trade accounts payable to suppliers are recorded on an invoice basis when the invoices are received by year-end, or valued at best estimate if no invoice is received by year-end. Staff costs and litigations in the field are recorded on the cash basis when there is not sufficient information available to evaluate the amount of any financial impact at year-end. No accruals for paid vacation of national field staff have been recorded as at 31 December 2010, as complete information was not available at year-end, except for the paid vacation of MSF Switzerland national staff. Grants payable and other debts are accounted for at their nominal value.

1.11 DEFERRED INCOME

Deferred income on public institutional and private grants is recognised on the basis of the difference between the cash received and the cumulative allowable expenses to date for each of the formal agreements concerned. Unspent donor-designated/restricted donations represent contributions received with a specific earmarking that have not been spent at year-end.

1.12 RETAINED EARNINGS AND EQUITIES

Retained earnings represent the cumulative surpluses and deficits of current and previous years. They comprise:

- Permanently restricted funds, which may be capital funds, where the assets are required by the donors to be invested or retained for actual use, rather than expended, or which may be the minimum compulsory level of retained earnings to be maintained in some countries.
- Unrestricted funds, which are unspent donor non-designated funds to be spent at the discretion of MSF's trustees to further our social mission.
- Other retained earnings and equities represent foundations' capital, combination restatements between certain sections and satellites, and translation adjustments arising from the translation of entities' financial statements into euros. Unspent donor-designated/restricted funds are treated as deferred income at year-end (see Note 1.11 above).

1.13 INCOME

MSF's income comprises contributions from public generosity and public institutional bodies, as well as revenues from other activities. Private income is provided by individuals and private organisations (companies, trusts and foundations, and other not-for-profit organisations). Public institutional income represents grants (i.e. contributions based on contracts for specific projects), subsidies and donations received or pledged directly from/by public institutional bodies, such as governments or various agencies. Income from other activities is mainly from merchandising, from equipment and services provided to other organisations and from financial transactions.

Restrictions

Income is considered as restricted only when subject to a donor-imposed restriction. Donors include all the external parties that contribute to MSF's resources. A donor-imposed restriction is a stipulation and limitation on the use of contributed assets or monetary donations. The restriction can be limited to purpose (country, project, type of intervention, specific activities), time or specific wishes (e.g. vaccines). Donations with donor-

imposed restrictions are reported as restricted for their full amount. Unspent restricted donations are carried forward as deferred income. Grants are reported as restricted for the allowable expenses incurred in the current year.

Donations

Donations are based on non-reciprocal transfers of cash or other assets, or cancellation of liabilities. They are recognised as income upon receipt of cash.

Legacies and bequests

If restricted by a donor's will for use by the organisation (selling or distribution forbidden), legacies and bequests are accounted for as restricted income and as the appropriate nature of asset (building, other financial assets, other inventories) when accepted by the entity's Board for their estimated amount. If not restricted by donors, legacies and bequests are accounted for upon receipt of cash.

Grants

Grants are recognised as income for the allowable expenses incurred in the current year. At year-end, the difference between the cash received and the cumulative expenses incurred is accounted for as grants receivable or deferred income.

In-kind donations and services

In addition to cash donations, MSF receives in-kind donations of goods and services in the field and at headquarters. In-kind donations and services are not accounted for in the Statement of Financial Activities. However, the value of goods and services received is disclosed in Note 3.1.4.

The act of volunteering to work in MSF's humanitarian projects is not recorded in the accounts because it represents one of the bases of the MSF Charter and principles.

1.14 EXPENDITURE

Expenses are allocated according to the full cost method. The principle of the full cost method is to collate under each expense category not only the direct costs that are specifically associated with it (direct allowable costs), but also an apportionment of the indirect costs (overheads). Therefore, all expenditure categories include salaries, direct costs and allocated overheads (e.g. building costs and depreciation).

1.15 FINANCIAL RISK MANAGEMENT

Foreign currency risk

Some MSF entities use forward foreign exchange contracts to hedge the exposure to foreign exchange risks arising from significant internal transfers denominated in a different currency to the one in which the expenditure will be incurred. One MSF logistics satellite also uses forward foreign exchange contracts to hedge against the risks arising from significant purchases in currencies different from those in which they are selling their goods.

Interest rate risk

MSF has no significant long-term loans.

Credit risk

MSF prioritises the security of its cash and equivalents. Investments are generally held in liquid securities, and in banks of high credit ranking. The receivables are mostly from governments with high credit ratings, where credit risk is low. Investments are allowed only in liquid securities and only with counterparties that have a high credit rating. Other positions are not material, or are covered by provisions. At year-end, there were no significant concentrations of credit risk.

Liquidity risk

Due to the nature of MSF's funding, together with its reserves policy, the liquidity risk is insignificant.

1.16 EMPLOYEE BENEFITS

The nature of pension plans for headquarters and international employees depends on the normal custom for the contracting country of the employee. Pension obligations are usually covered by an independent organisation with a defined contribution plan. Contributions to a defined contribution pension plan are recognised as an expense in the Statement of Financial Activities in the year in which they are incurred.

In the case of defined benefit plans, MSF has initiated a process in order to evaluate the potential liabilities based on an actuarial method compliant with IAS 19. As of 31 december 2010 employee benefits of MSF Switzerland have been estimated following an actuarial review. This showed that accounting for the employee benefits in accordance with IAS 19 would have an insignificant financial impact. MSF expects that the financial impact of post-employment benefits in the other MSF offices is unlikely to be significant due to the high staff turnover and young population.

2 NOTES TO THE STATEMENT OF FINANCIAL POSITION

2.1 INTANGIBLE ASSETS

Mainly consisting of software and licences.

	2009	Additions	Disposals	Foreign exchange gain/loss	In thousands of € 2010
Intangible assets – gross value	12,645	2,133	-205	400	14,973
Amortisation	-10,445	-1,517	166	-277	-12,073
Intangible assets	2,200	616	-39	123	2,900

2.2 PROPERTY, PLANT AND EQUIPMENT

Mainly consisting of the head offices of some entities.

	2009	Additions	Disposals	Foreign exchange gain/loss	In thousands of € 2010
Land	5,903	650	-	219	6,772
Buildings	24,380	81	-	1,003	25,464
Fixtures	5,553	864	-90	141	6,468
Furniture	4,437	268	-155	211	4,761
Computers	9,139	1,573	-725	405	10,392
Machinery and equipment	5,360	170	-89	542	5,983
Other tangible assets	1,969	897	-41	42	2,867
Property, plant and equipment – gross value	56,741	4,503	-1,100	2,563	62,707
Depreciation	-29,615	-1,960	1,100	-1,197	-31,672
Property, plant and equipment	27,126	2,543	-	1,366	31,035

Finance leases

At the end of the year, the net value of capitalised assets stands at 1,245 thousand euros, and capitalised lease obligations at 1,590 thousand euros (2009: 1,225 thousand and 1,907 thousand euros, respectively). The total reimbursements for the current year amount to 121 thousand euros, and the rent expenses to 131 thousand euros (2009: 379 thousand and 458 thousand euros, respectively).

2.3 FINANCIAL ASSETS

Financial assets consist primarily of loans, investments and other financial assets such as deposits.

They are intended to be held for more than one year.

	Gross value	Provision	Net value 2010	In thousands of € Net value 2009
Long-term investments	6,307	-	6,307	5,762
Other financial assets	3,008	-10	2,998	1,558
Loans	7	-7	-	-
Financial assets	9,322	-17	9,305	7,320

The breakdown by maturity date of the other financial assets is as follows:

	< 1 year	> 1 year and < 5 years	> 5 years	Total 2010	In thousands of € Total 2009
Financial assets	2,445	1,451	5,409	9,305	1,558

2.4 INVENTORIES

	<i>In thousands of €</i>			
	Gross value	Provision	Net value 2010	Net value 2009
Medical and non-medical relief goods	21,573	-485	21,088	20,183
Other inventories	330	-	330	301
Inventories	21,903	-485	21,418	20,484

2.5 GRANTS RECEIVABLE

	<i>In thousands of €</i>			
	Gross value	Provision	Net value 2010	Net value 2009
Grants receivable from private donors	5,698	-115	5,583	4,003
ECHO and EU institutions	10,241	-141	10,100	7,352
EU governments	2,626	-	2,626	5,467
Non-EU European governments	182	-	182	1,552
Other governments	14	-	14	-
UN institutions	478	-	478	2,177
Grants receivable from public institutional agencies	13,541	-141	13,400	16,548
Grants receivable	19,239	-256	18,983	20,551

All these grants are considered to be received within the following year.

2.6 CONTRIBUTIONS RECEIVABLE

At 31 December 2010, the outstanding commitment represents 16,662 thousand euros (2009: 15,588 thousand euros) and is expected to be received within the following year.

2.7 OTHER RECEIVABLES

Other receivables mainly relate to services provided and goods sold to other organisations. At 31 December 2010, the outstanding commitment amounts to 6,078 thousand euros (2009: 5,403 thousand euros) and is expected to be received within the following year.

2.8 OTHER ASSETS

Other assets of 7,883 thousand euros (2009: 6,470 thousand euros) include mainly prepaid expenses.

Their breakdown by maturity date is as follows:

	<i>In thousands of €</i>				
	< 1 year	> 1 year and < 5 years	> 5 years	Total 2010	Total 2009
Other assets	7,780	-	103	7,883	6,470

2.9 CASH AND EQUIVALENTS

	<i>In thousands of €</i>	
	2010	2009
Short-term deposits	325,394	240,979
Cash in the headquarters	238,832	171,360
Cash in the field	36,692	20,929
Cash and equivalents	600,918	433,268

2.10 PROVISIONS

The following table shows the changes in provisions for the period:

	2009	Additional provisions	Amounts used	Unused amounts reversed	Foreign exchange gain/loss	<i>In thousands of €</i> 2010
Provisions	4,624	1,455	-625	-86	192	5,560

3,390 thousand euros of the provisions come from tax assessments received relating to our field activities (2009: 2,895 thousand euros). MSF is currently challenging the basis of these assessments. The remaining 2,170 thousand euros of provisions cover various risks for which MSF has a constructive obligation (2009: 1,729 thousand euros).

2.11 FINANCIAL DEBTS

The breakdown of financial debts by maturity date is as follows:

	< 1 year	> 1 year and < 5 years	> 5 years	Total 2010	Total 2009
Capitalised lease obligation	1,555	-	-	1,555	1,907
Borrowings and loans	65	36	-	101	20
Financial debts	1,620	36	-	1,656	1,927

2.12 ACCOUNTS PAYABLE AND ACCRUED EXPENSES

Accounts payable and accrued expenses are composed of amounts owed to suppliers, employees and tax authorities, and of grants payable to external organisations.

The details of the accounts payable and accrued expenses are disclosed below:

	Total 2010	Total 2009
Trade accounts payable and accruals	37,907	27,967
Accrued personnel expenses	15,679	12,572
Accrued taxes and income tax payable	3,770	2,747
Public institutional grants payable	447	556
Private grants payable	655	-
Other liabilities	8,012	5,817
Accounts payable and accrued expenses	66,470	49,659

The breakdown by maturity date is as follows:

	< 1 year	> 1 year and < 5 years	> 5 years	Total 2010
Accounts payable and accrued expenses	62,799	10	3,661	66,470

2.13 DEFERRED INCOME

	Total 2010	Total 2009
Unspent donor-designated/restricted funds	11,993	3,600
Deferred income on public institutional grants	6,984	7,144
Deferred income on private grants	797	273
Other deferred income	1,163	666
Gross value of investment subsidies	1,251	2,339
Deferred income	22,188	14,022

The breakdown of deferred income by maturity date is as follows:

	< 1 year	> 1 year and < 5 years	> 5 years	In thousands of € Total 2010
Deferred income	22,188	-	-	22,188

The cumulative unspent donor-designated funds will be spent in strict accordance with the donors' desire (e.g. specific countries or type of interventions) as the need arises.

The following schedule shows their year-end position:

	Total 2009	Raised in previous years and spent in 2010	Raised in 2010 but not spent	Foreign exchange gain/loss	Other movements	In thousands of € Total 2010
Afghanistan	-	-	2	-	-	2
Algeria	19	-	-	-	-	19
Angola	5	-	-	-	-	5
Bangladesh	2	-	4	-	-	6
Chad	-	-	1	-	-	1
Congo, Democratic Republic of the	1	-	185	-	-	186
Haiti	11	-	4,601	5	-45	4,572
Indonesia	400	-	15	-	-	415
Iran	63	-	-	-	-	63
Iraq	266	-246	117	8	-	145
Liberia	243	-243	-	-	-	-
Pakistan	-	-	2,160	-9	-24	2,127
Peru	34	-	-	-	-	34
Somalia	-	-	42	-	-	42
South Africa	15	-17	3	-	-	1
Sudan	-	-	1	-	-	1
Zimbabwe	1	-	4	-	-	5
Other countries or restrictions	2,540	-4,074	6,595	304	-996	4,369
Unspent donor-designated / restricted funds	3,600	-4,580	13,730	308	-1,065	11,993

Other countries or restrictions either represent the countries for which restricted funds of fewer than one thousand euros remain unspent, or are not country-specific. They mainly include:

- 2,856 thousand euros of Charitable Gift Annuity Trusts in MSF USA (2009: 2,289 thousand). A Charitable Gift Annuity Trust is a type of donation that is restricted in time by the donor and thus treated as deferred income. The donation will be recognised as income in MSF accounts upon maturity of the trust.

- 1,048 thousand euros is restricted to the Sahel region of Africa.

2.14 RETAINED EARNINGS AND EQUITIES

MSF's retained earnings have been built up over the years by surpluses of income over expenses. As at 31 December 2010, the available portion (unrestricted funds less the translation adjustment) represents 9.1 months of activity (2009: 9.1 months). The purpose of maintaining retained earnings is to meet the following needs: future major humanitarian emergencies for which sufficient funding cannot be obtained, a sudden drop of private and/or public institutional funding, the sustainability of long-term programmes (e.g. antiretroviral treatment programmes), as well as the pre-financing of operations to be funded by forthcoming public fundraising campaigns and/or by public institutional funding.

3 NOTES TO THE STATEMENT OF FINANCIAL ACTIVITIES

3.1 INCOME

3.1.1 PRIVATE INCOME

Income from individuals includes:

	Total 2010	Total 2009
Donations	635,599	435,324
Legacies and bequests	56,253	56,155
Membership fees	132	112
Income from individuals	691,984	491,591

In thousands of €

Donations and grants from private institutions mainly come from the following sources:

	Total 2010	Total 2009
Companies	65,087	24,558
Trusts and foundations	55,252	30,681
Lottery and special events	28,301	18,120
Joint appeals	1,371	769
Other private institutions	16,904	6,730
Donations and grants from private institutions	166,915	80,858

In thousands of €

3.1.2 PUBLIC INSTITUTIONAL INCOME

The table below presents the breakdown of donations and grants awarded by public institutional bodies classified by geographical origin:

	Total 2010	Total 2009
ECHO and EU institutions	24,135	24,703
EU governments and affiliates	28,593	38,178
Non-EU European governments and affiliates	8,985	7,792
North American governments	4,184	2,719
Other governments and affiliates	462	201
UN institutions	2,984	4,265
Public institutional income	69,343	77,858

In thousands of €

3.1.3 OTHER INCOME

	Total 2010	Total 2009
Interest/investment income	5,300	6,633
Merchandising	1,523	548
Equipment and services sold to other organisations	4,317	3,019
Other revenues	3,923	4,888
Other income	15,063	15,088

In thousands of €

3.1.4 IN-KIND DONATIONS AND SERVICES

The total value of the goods received in 2010 is approximately 11,320 thousand euros: 9,045 thousand euros received in the field and 2,275 thousand euros received at headquarters. The majority of the gifts received in the field relate to drugs and medical equipment and at headquarters, to consultancies and travel miles. As described in Note 1.13, the accounting policy of the organisation is that in-kind donations and services are not recognised as income in the Statement of Financial Activities.

3.2 EXPENDITURE

PROGRAMME EXPENSES BY NATURE AND CONTINENT

							<i>In thousands of €</i>	
	Africa	The Americas	Asia	Europe	Oceania	Unallocated	Total 2010	Total 2009
National staff	95,060	33,861	27,214	3,810	669	548	161,162	127,458

The geographic divisions noted above comprise the following:

- Africa includes the regions both north and south of the Sahara
- The Americas includes North, Central and South America and the Caribbean
- Asia includes the Caucasus and the Middle East as well as Central, South and East Asia.

HEADQUARTERS PROGRAMME SUPPORT

Headquarters programme support relates to expenses incurred in the headquarters in order to carry out MSF humanitarian operations (e.g. project design, monitoring and evaluation, recruitment of expatriates, activities designed to improve the quality and the effectiveness of MSF operations).

TÉMOIGNAGE / AWARENESS-RAISING

Témoignage/awareness-raising activities comprise expenses incurred by MSF in an educational manner to further its social mission. They represent the situations where MSF acts as a witness and speaks out about the plight of the populations it serves through mobilisation of the international community and by issuing information publicly in order to inform, put pressure on responsible actors, and stimulate action.

Too often in the countries where MSF works, we have difficulties treating patients because the medicines are too expensive or are no longer produced. Sometimes the only drugs we have available are toxic or ineffective. We often have to use inadequate testing methods to diagnose patients.

MSF's Campaign for Access to Essential Medicines is made up of a team of medical, legal, policy and communications specialists. It is pushing to lower the prices of existing drugs, vaccines and diagnostic tests, to stimulate research and development into new treatments for diseases that primarily affect the poor, and to overcome other barriers that prevent patients from getting the treatment they need.

	<i>In thousands of €</i>	
	Total 2010	Total 2009
Access to Essential Medicines Campaign	3,179	2,759
Other témoignage campaigns and expenses	23,172	18,946
Témoignage / awareness-raising	26,351	21,705

OTHER HUMANITARIAN ACTIVITIES

The other humanitarian activities consist primarily of the cost of the goods sold and services provided to other organisations, as well as MSF's contribution to the Drugs for Neglected Disease Initiative, also called DNDi (see Note 5.1.3).

FUNDRAISING

Fundraising expenses represent the costs incurred for raising funds from all possible sources of income, be they private or public institutional.

MANAGEMENT, GENERAL AND ADMINISTRATION

Management, general and administration represents the expenses incurred for the management and administration of the organisation. They consist primarily of expenses associated with executive management, headquarters financial and human resources management, internal communication and the associative life of the organisation.

INCOME TAX

MSF is exempt from income taxes in most countries in which the entities are based.

NET EXCHANGE GAINS /LOSSES UNREALISED AND REALISED

The net exchange gains/losses represent the gains/losses generated from transactions incurred during the year with foreign currencies of the various offices. Compared to last year, the biggest exchange rate fluctuations relate to the Australian dollar (AUD), Canadian dollar (CAD), Norwegian krone (NOK), pound sterling (GBP) and the US dollar (USD).

4 SECTORIAL INFORMATION

4.1 RATIOS

OPERATIONAL RATIOS

	2010	2009

Other income	1.6 %	2.3 %
Income	100.0 %	100.0 %

As part of our effort to guarantee independence and strengthen our link with home societies, we have striven to maintain a high level of private income.

Funds coming from non-public-institutional sources represented 92.7% of MSF total income in 2010 (2009: 88.3%).

More than 5.1 million (2009: 3.8 million) individual donors and private funders worldwide made this possible.

Total funding of field-related expenses	569,170	402,448

Programmes relate to the aid projects undertaken by MSF and include the direct expenses incurred in the different countries of intervention. Indirect supply costs represent the costs dedicated to the projects and associated with the delivery of emergency relief supplies.

For the year 2010, 555,265 thousand euros were spent in direct connection with the projects (2009: 393,336 thousand euros). The indirect supply costs of the logistics satellites stood at 13,905 thousand euros (2009: 9,112 thousand euros).

These expenses were funded by 66,355 thousand euros from public institutional bodies (2009: 74,977 thousand), the balance being funded by unrestricted and restricted private funds.

The difference of 2,988 thousand euros between public institutional income as stated in the Statement of Financial Activities and the amount mentioned above represents the funding of expenses and activities directly undertaken at headquarters level.

Figures for the previous year are presented in total for comparative purposes. They are not presented in the following pages for the different countries/regions of interventions because of the emergency nature of MSF’s action.

4.3 HAITI EMERGENCY

The earthquake that hit Haiti on 12 January 2010 prompted an enormous response from the public worldwide. MSF received an unprecedented amount of donations in 2010, including 110.7 million euros earmarked for Haiti (108.1 million euros of private funds and 2.6 million euros of public institutional funds).

The cholera epidemic that began in October 2010 further increased the scale of MSF's emergency intervention in Haiti.

MSF spent a total of 106.1 million euros in 2010 on operations in the regions most affected by the earthquake and on responding to the cholera epidemic. The funds received for Haiti were used for massive investments in health centres and hospitals, the rehabilitation and construction of medical facilities, medical supplies and equipment, drugs and the distribution of shelter materials and other relief items.

A balance of 4.6 million euros of restricted funds remained unspent at the end of 2010. These funds are carried forward in the Statement of Financial Position as "unspent donor-designated/restricted funds" (see Note 2.13). This balance will be spent in Haiti in 2011.

Note: The amounts donated have been converted into euros using the 2010 average rate for currencies in which the funds were originally donated.

EXPENDITURE

Field programme expenses	102.3
Indirect supply costs	3.8
Total 2010 field-related expenses	106.1

5 OTHER INFORMATION

5.1 COMMITMENTS

5.1.1 LEGACIES AND BEQUESTS

Unrestricted legacies and bequests are accounted for upon realisation (i.e. on receipt of cash). For 2010, an estimated amount of 36,390 thousand euros of legacies and bequests has not been realised and is therefore excluded from the Financial Statements (2009: 41,055 thousand euros).

5.1.2 GRANTS

Some programmes are partly financed by public institutional grants. These grants may cover more than a one-year period and may not match with the financial year.

The following disclosure presents the amount that MSF has committed to spend according to proposals agreed by the different bodies.

	2010	2009
ECHO and EU institutions	285	1,536
EU governments	374	4,424
Non-EU European governments	-	109
North American governments	-	515
Other governments	95	-
UN institutions	357	645
Remaining commitment to spend	1,111	7,229

5.1.3 OTHER COMMITMENTS

	2010	2009
Guarantees given	1,111	4,144
Other off balance-sheet commitments given	1,352	2,212
Off balance-sheet commitments given	2,463	6,356

Guarantees given refer to loan agreements of nil (2009: 3,239 thousand euros), rental contracts of 820 thousand euros (2009: 615 thousand euros), and 291 thousand euros for other purposes (2009: 290 thousand euros).

Other off balance-sheet commitments given mainly relate to rental contracts for office buildings.

MSF participated in the establishment of the Drugs for Neglected Diseases Initiative (DNDi) with six other organisations: five public sector institutions – the Oswaldo Cruz Foundation from Brazil, the Indian Council of Medical Research, the Kenya Medical Research Institute, the Ministry of Health of Malaysia and France's Pasteur Institute – and one international research organisation, the Special Programme for Research and Training in Tropical Diseases (TDR), which is sponsored by UNICEF, UNDP, the WHO and the World Bank, and which is a permanent observer to the initiative.

The DNDi became a legal entity in July 2003 and MSF was one of the founding partners. MSF's objective in being involved in the creation of the DNDi was to help create an R&D initiative for neglected diseases which in time would be self-financing and in a position to work independently of MSF. Accordingly, MSF committed itself to an initial involvement that was limited to five years. A second period of support has been agreed, and this is for a period of a further six years (until 2014). During this period MSF will assist both financially and with ongoing DNDi research and delivery of new treatments. Financial support is limited to a maximum of 3% of the total MSF annual expenditure.

5.2 SUBSEQUENT EVENTS

There are no subsequent events to report.

Médecins Sans Frontières (MSF) is an international, independent, medical humanitarian organisation that delivers emergency aid to people affected by armed conflict, epidemics, exclusion from healthcare and natural disasters. MSF offers assistance

to people based on need and irrespective of race, religion, gender or political affiliation. When MSF witnesses serious acts of violence, neglected crises, or obstructions to its activities, the organisation may speak out about this.
