

# The Beekeeping Year (Around Here)

## February

Take a Bee "Short Course"

Beekeepers of No. VA: [www.beekeepersnova.org](http://www.beekeepersnova.org)

Mont. County Beekeepers: [www.montgomerycountybeekeepers.com](http://www.montgomerycountybeekeepers.com)

## December-January

Wait for warm days to see them fly  
Make sure their honey is still close by

## October-November

The Beekeeper's New Year

Are they all set yet for the cold days?

## September

Time to fight the mites

Apply anti-Varroa (and other) meds

## August

There's nothing to eat  
So feed them sweets

## July

Honey harvest begins

With the hottest days come sticky ways

## March

Decide to order bees and equipment

## April

Set up your new hive(s)

## May

Get ready for the honey flow!

Do your bees have enough room?

## June

The honey flow!

Hives grow and GROW!
