**More than 60 countries  
in 5 continents**

## About us

*As one of the world's largest companies in hygiene sector, Lidarsan produces baby diapers, sanitary napkins, adult diapers and wet wipes products.*

*Boasting an integrated production plant equipped with the state-of-the-art machinery and equipment for hygiene products established on an area of 100,000m<sup>2</sup> and constantly modernizing investments, Lidarsan is among Turkey's top three largest production plants in terms of capacity and technology. The company makes sure that all of its products go through every kind of tests and quality checks in world-class and modern laboratories accredited by the Turkish Ministry of Health, and all of the products are packaged without human touch.*

*Operating under the mission of introducing all mothers and babies to world-class and top-quality products with affordable prices, CONFY has been active in more than 60 countries in five continents with its technologically advanced solutions. Through its collaborations with the world's biggest retail giants and its strong team of experts, not to mention its experience of over 30 years, the company gains the approval of consumers in every market it operates and proceeds with full momentum towards becoming a global brand which will be able to compete with world-renowned brands.*

*With products under the categories of adult diapers and sanitary pads, the company has made a name for itself in the world, particularly, with its innovative CONFY ADULT diapers, which stand out as a first in the world, and its patented and uniquely featured CONFY LADY sanitary napkins, thanks to its world-class technological solutions.*

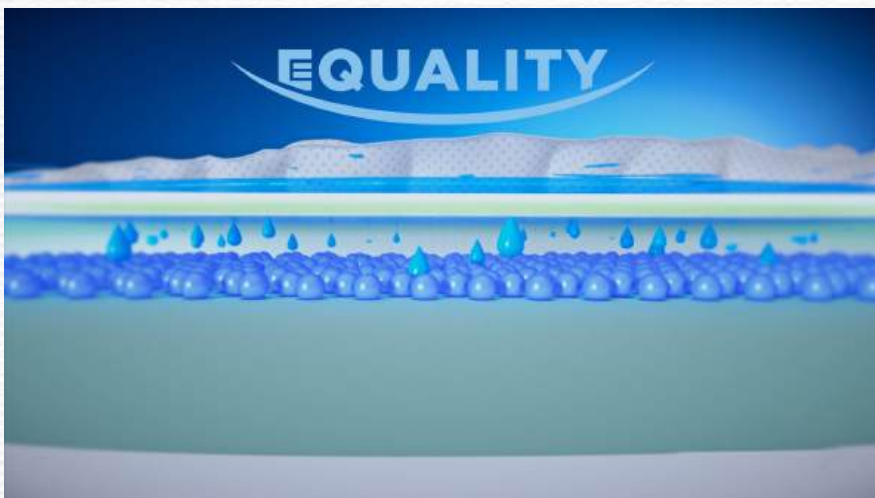

*The company's product range also includes wet wipes and biocidal products, each of which has exclusive and unrivaled characteristics. With all these, CONFY has succeeded in becoming the preferred brand for consumers in all markets.*

## EQUALITY TECHNOLOGY

*The distribution layer absorbs the liquid and transfers it to the absorbent core, which is the storage layer of the diaper so that the liquid is imprisoned inside the diaper.*

*The core, which is located in the baby diaper, is produced with Equality Technology found only in Confy. Equality technology increases the performance of the baby's diaper and helps prevent leakage and the formation of lumps.*
