

Dorothy Determined

Dorothy Determined

Dorothy Determined never gives up. This young comet is aiming high and reaching for the stars. Nothing will stop her from getting there.

As Dorothy flies around her community there are often obstacles and challenges in her way, but they don't knock her off course. She's focused

on achieving her goals and committed to being the best she can be. So after a bump, she dusts herself down, powers up and sets off again with a new positivity.

Dorothy knows that the journey to achieving her goals will take lots of perseverance. Like all of us, Dorothy has her strengths and her weaknesses. She makes mistakes, chooses the wrong way or tries a new technique which doesn't work out, but it doesn't keep her down for long. She stores all of the mistakes in her black box recorder. She learns from these actions – they make her fly higher!

Her beautiful trail contains her experiences and golden nuggets of information she has learnt from other people she meets on the way. It is truly magical dust which sprinkles on the community as she flies. It shares her determination and purpose with those around her. Shine brightly Dorothy. You can do it!
